**An Unexplained Death** Mikita Brottman, 2018-11-08 Shortlisted for the CWA Gold Dagger for Non-Fiction When the body of a missing man is discovered in the Belvedere, an apparent suicide, resident Mikita Brottman becomes obsessed with the mysterious circumstances of his death. The Belvedere used to be a hotel dating back to Baltimore's Golden Age but is now converted into flats, and as Brottman investigates the perplexing case of the dead man, she soon becomes caught up in the strange and violent secrets of the Belvedere's past. Her compulsions drive her to an investigation lasting over a decade. Utterly absorbing and unnerving, *An Unexplained Death* will lead you down the dark and winding corridors of the Belvedere and into the deadly impulses and obsessions of the human heart.

**The Rise and Fall of Violent Crime in America** Barry Latzer, 2017-06-27 A compelling case can be made that violent crime, especially after the 1960s, was one of the most significant domestic issues in the United States. Indeed, few issues had as profound an effect on American life in the last third of the twentieth century. After 1965, crime rose to such levels that it frightened virtually all Americans and prompted significant alterations in everyday behaviors and even lifestyles. The risk of being mugged was a concern when Americans chose places to live and schools for their children, selected commuter routes to work, and planned their leisure activities. In some locales, people were afraid to leave their dwellings at any time, day or night, even to go to the market. In the worst of the post-1960s crime wave, Americans spent part of each day literally looking back over their shoulders. *The Rise and Fall of Violent Crime in America* is the first book to comprehensively examine this important phenomenon over the entire postwar era. It combines a social history of the United States with the insights of criminology and examines the relationship between rising and falling crime and such historical developments as the postwar economic boom, suburbanization and the rise of the middle class, baby booms and busts, war and antiwar protest, the urbanization of minorities, and more.

**Consumer Action Handbook, 2010 Edition** U.S. Services Administration, 2010 Use this guide to get help with consumer purchases, problems and complaints. Find consumer contacts at hundreds of companies and trade associations; local, state, and federal government agencies; national consumer organizations; and more.

**Post-Consumer Waste Recycling and Optimal Production** Enri Damanhuri, 2012 This book deals with several aspects of waste material recycling. It is divided into three sections. The first section explains the roles of stakeholders, both informal and formal sectors, in post-consumer waste activities. It also discusses waste collection programs for recycling. The second section discusses the analysis tools for recycling system. The third section focuses on the recycling process and optimal production. I hope that this book will convey both the need and means for recycling and resource conservation activities to a wide readership, at both academician and professional level, and contribute to the creation of a sound material-cycle society.

**Human Impact on Danube Watershed Biodiversity in the XXI Century** Doru Bănăduc, Angela Curtean-Bănăduc, Franco Pedrotti, Kevin Cianfaglione, John R. Akeroyd, 2020-04-20 The second-longest European river after the Volga, the Danube is one of the world's most important rivers in terms of its geographical and historical significance. In recent history, it has served as a major international waterway and numerous cities, including four capitals, have been founded on its banks. The 2826km-long Danube has a watershed measuring 801,093 km<sup>2</sup> that is now shared between 19 countries, from its source in the Black Forest to the Black Sea, into which it pumps an average of 827 km<sup>3</sup> of water a year. This book describes and explains key landscape values interactions (geographical, cultural and natural heritage). It also identifies the threats and various types of human impact affecting this system in all the countries of the Danube River Basin, based on the investigations and perspectives of a team of experienced naturalists, and in the context of the early 21st century, in which the human-nature relationship is still far from balanced. These studies demonstrate how biodiversity, conservation and ecological studies can help us successfully promote mutual cooperation and combine our efforts to address problems as a responsible continent.

*Purchasing and Supply Chain Management* W. C. Benton, 2010 This text outlines the most current methods in purchasing and supply chain management. Real case studies and exercises help students transform purchasing theory into purchasing practice and implementation. Topics include purchasing business processes, price cost analysis, professional services, and healthcare purchasing.

The Sustainable World C. A. Brebbia, 2011 This book contains a collection of papers presented at a series of meetings organised by the Wessex Institute of Technology (WIT) dealing with sustainability, the environment and ecological issues. The complexity of the modern world presents new challenges to scientists and engineers that requires finding interdisciplinary solutions. Any problem solving carried out in the isolation of a particular field of expertise may give rise to a series of damaging effects which can create new and unintentional environmental and ecological problems. Specialisation, while required in our culture, needs to be kept under control by the understanding of the whole, which leads to the need of relying on interdisciplinary teams. Nowadays this can be easily achieved thanks to the massive advances in information technology which ensure continuous and immediate contact between all partners. This collaboration needs to be effective and to produce results that will lead to a better world. For this to happen, it is necessary that different groups of scientists and engineers acquire the necessary skills to be able to talk to each other. Furthermore, they need to understand the social and economic aspects of a given problem, in addition to the scientific and engineering issues involved. The Wessex Institute of Technology (WIT) has a long and very successful record in organising interdisciplinary conferences. The papers in this book are a reflection of the proceedings of some of those meetings.

**Building Windows 8 Apps with JavaScript** Chris Sells, Brandon Satrom, Don Box, 2012-12-27 Building Windows 8 Apps with JavaScript is the definitive guide for every experienced developer who wants to create, ship, and profit from Windows 8 apps built with HTML5 and JavaScript. Written by Chris Sells, former Visual Studio Principal Program

Manager who led the team that built Microsoft's official Windows 8 JavaScript app templates, and Brandon Satrom, expert web/mobile developer, this book covers every facet of development with Microsoft's new JavaScript framework and WinRT. The authors guide you through building full-featured Windows Store apps that merge the best aspects of desktop, web, and mobile apps into a single user and developer experience. You'll learn how to leverage the full power of the Windows 8 platform and integrate services ranging from client-side state to offline storage. Leveraging these techniques, you can deliver information to users faster, more clearly, and more concisely, on whatever devices they prefer. Through complete example projects, *Building Windows 8 Apps with JavaScript* covers Understanding powerful new improvements in Windows 8 developer experience Using Windows 8's more flexible binding to update the UI as underlying data changes Creating layouts and typography that fit Windows 8 style and leverage its advantages Working with audio, video, captured media, animation, and HTML5 graphics Making your app "connectable" with PlayTo Integrating WinJS navigation services to improve UI control Maintaining app states built up over time, and sharing them across devices Writing highly responsive async apps Supporting true-touch metaphors and interactions, location data, and sensors Designing apps for the Windows 8 design language Extending JavaScript code to integrate existing C/C++ code or to access Windows capabilities that WinRT doesn't expose Discovering best practices for monetizing Windows Store apps All of the downloadable examples can be created and run with Microsoft's free Visual Studio 2012 Express for Windows 8, which includes all you need to build, package, and deploy your Windows Store apps.

**Parallel Computing** Christian Bischof, 2008 ParCo2007 marks a quarter of a century of the international conferences on parallel computing that started in Berlin in 1983. The aim of the conference is to give an overview of the developments, applications and future trends in high-performance computing for various platforms.

*An Intimate Note to the Sincere Seeker* Sri Sri Ravishankar, 2019-03-04 Weekly Knowledge Sheets given by Sri Sri Ravi Shankar, a practice which began from the year 1995 and now, have been compiled into Seven Volume Series of books. This book (Volume I) is a collection of weekly talks, conversations and messages that Sri Sri Ravi Shankar gave between June 21 1995 to June 13 1996. An Intimate Note to the Sincere Seeker is a compilation of excerpts of talks by Sri Sri Ravi Shankar in the year 1995 - 1996. While these talks often discuss the state of the world at the time they were written, because they discuss human life on the most basic levels - love, hatred, trust, peace, silence, happiness, they are still valuable today. They give us an insight into this knowledge that is so deeply profound, yet so simple, knowledge that does not just remain in the intellect, but is beautifully and effortlessly integrated into daily life. Sri Sri avoids lengthy discussions about the deeper philosophy of life, yet his talks reflect these values to their very core. This book is specially compiled to help readers going through an emotional phase or who need a guidance in life. The reader can go through any one random page (365 chapters for 365 days) for help or can follow as per ones discretion

*17th International Conference on Information Technology–New Generations (ITNG 2020)* Shahram Latifi, 2020-05-11 This volume presents the 17th International Conference on Information Technology–New Generations (ITNG), and

chronicles an annual event on state of the art technologies for digital information and communications. The application of advanced information technology to such domains as astronomy, biology, education, geosciences, security, and healthcare are among the themes explored by the ITNG proceedings. Visionary ideas, theoretical and experimental results, as well as prototypes, designs, and tools that help information flow to end users are of special interest. Specific topics include Machine Learning, Robotics, High Performance Computing, and Innovative Methods of Computing. The conference features keynote speakers; a best student contribution award, poster award, and service award; a technical open panel, and workshops/exhibits from industry, government, and academia.

**MEMS Materials and Processes Handbook** Reza Ghodssi,Pinyen Lin,2011-03-18 MEMs Materials and Processes Handbook is a comprehensive reference for researchers searching for new materials, properties of known materials, or specific processes available for MEMS fabrication. The content is separated into distinct sections on Materials and Processes. The extensive Material Selection Guide and a Material Database guides the reader through the selection of appropriate materials for the required task at hand. The Processes section of the book is organized as a catalog of various microfabrication processes, each with a brief introduction to the technology, as well as examples of common uses in MEMs.

*Brain-Inspired Cognitive Architectures for Artificial Intelligence: BICA\*AI 2020* Alexei V. Samsonovich,Ricardo R. Gudwin,Alexandre da Silva Simões,2020-12-08 The book focuses on original approaches intended to support the development of biologically inspired cognitive architectures. It bridges together different disciplines, from classical artificial intelligence to linguistics, from neuro- and social sciences to design and creativity, among others. The chapters, based on contributions presented at the Eleventh Annual Meeting of the BICA Society, held on November 10-14, 2020, in Natal, Brazil, discuss emerging methods, theories and ideas towards the realization of general-purpose humanlike artificial intelligence or fostering a better understanding of the ways the human mind works. All in all, the book provides engineers, mathematicians, psychologists, computer scientists and other experts with a timely snapshot of recent research and a source of inspiration for future developments in the broadly intended areas of artificial intelligence and biological inspiration.
