*WHO Expert Committee on Biological Standardization* World Health Organization, 2018-07-18 This report presents the recommendations of a WHO Expert Committee commissioned to coordinate activities leading to the adoption of international recommendations for the production and control of vaccines and other biological substances and the establishment of international biological reference materials. Following a brief introduction the report summarizes a number of general issues brought to the attention of the Committee. The next part of the report of particular relevance to manufacturers and national regulatory authorities outlines the discussions held on the development and adoption of new and revised WHO Recommendations Guidelines and guidance documents. Following these discussions WHO Guidelines on the quality safety and efficacy of Ebola vaccines and WHO Guidelines on procedures and data requirements for changes to approved biotherapeutic products were adopted on the recommendation of the Committee. In addition the following two WHO guidance documents on the WHO prequalification of in vitro diagnostic medical devices were also adopted: (a) Technical Specifications Series (TSS) for WHO Prequalification - Diagnostic Assessment: Human immunodeficiency virus (HIV) rapid diagnostic tests for professional use and/or self-testing; and (b) Technical Guidance Series (TGS) for WHO Prequalification - Diagnostic Assessment: Establishing stability of in vitro diagnostic medical devices. Subsequent sections of the report provide information on the current status proposed development and establishment of international reference materials in the areas of: antibiotics biotherapeutics other than blood products; blood products and related substances; in vitro diagnostics; and vaccines and related substances. A series of annexes are then presented which include an updated list of all WHO Recommendations Guidelines and other documents on biological substances used in medicine (Annex 1). The above four WHO documents adopted on the advice of the Committee are then published as part of this report (Annexes 2-5). Finally all additions and discontinuations made during the 2017 meeting to the list of International Standards Reference Reagents and Reference Panels for biological substances maintained by WHO are summarized in Annex 6. The updated full catalogue of WHO International Reference Preparations is available at: <http://www.who.int/bloodproducts/catalogue/en/>.

**Transfusion Medicine and Hemostasis** Beth H. Shaz, Christopher D. Hillyer, Morayma Reyes Gil, 2018-09-05 Transfusion Medicine and Hemostasis: Clinical and Laboratory Aspects, Third Edition, is the only pocket-sized, quick reference for pathology and transfusion medicine residents and fellows. It covers all topics in transfusion medicine and clinical and laboratory-based coagulation. Chapters are organized by multiple hierarchical headings and are supplemented with up to 10 suggested reading citations. This single handbook covers all the topics required to meet the goals of a major program in transfusion medicine and clinical coagulation. Changes to this edition include the latest AABB standards and new chapters focused on a wider range of specific populations requiring blood and related products. Coverage includes essential updates on peripheral blood and bone marrow hematopoietic progenitor cells, as well as cord blood banking and regenerative medicine. The authors also examine advances in therapeutic apheresis and new cellular therapies. Includes new chapters on blood products, new methods for product modification, and an expanded section on clinical settings, including new chapters on a wider range of patient populations Teaches through a new case study format with concise bullet points, essential tables, and further reading lists Presents information in a standardized format throughout, allowing each chapter to be focused on a well-defined subject consisting of less than 6 pages

*Human Immunodeficiency Virus (HIV) rapid diagnostic tests for professional use and/or self-testing* , 2021-06-08 The purpose of this document is to provide technical guidance to in vitro diagnostic medical device (IVD) manufacturers that intend to seek WHO prequalification of rapid diagnostic tests (RDTs) for the detection of human immunodeficiency virus (HIV). The minimum performance requirements for WHO prequalification are summarized in this document, and apply equally to RDTs intended solely for HIV detection and those in which HIV detection is one component of a multi-detection assay (for example, an HIV/syphilis dual-detection RDT). This document applies to RDTs intended to be used as an aid to diagnosis of HIV infection. The current version of this document does not address IVDs that discriminate between the detection of HIV-1 and HIV-2 infection, IVDs intended as confirmatory tests, or the requirements for accompanying quality control materials.

**Washington Irving and the Fantasy of Masculinity** Heinz Tschachler, 2022-01-17 Washington Irving remains one of the most recognized American authors of the 19th century, remembered for short stories like Rip van Winkle and The Legend of Sleepy Hollow. He also accomplished other writing feats, including penning George Washington's biography and other life stories. Throughout his life, Irving was at odds with socially-approved ways of being a man. Irving purportedly saw himself and was seen by others as feminine, shy, and non-confrontational. Likely related to this, he chose to engage with other men's fortunes and adventures by writing, defining his male identity vicariously, through masculine archetypes both fictional and non-fictional. Sitting at the intersection of literary studies and masculinity studies, this reading reconstructs Irving's life-long struggle to somehow win a place among other men. Readers will recognize masculine themes in his tales from the Spanish period, his western adventures, as well as in historical biographies of Columbus, Mahomet, and Washington. In many writings by Irving, especially Sleepy Hollow, readers will observe themes dominated by masculinity. The book is the first of its kind to encompass and examine Irving's writings.

How Sex and Gender Impact Clinical Practice Marjorie R. Jenkins, Connie B. Newman, 2020-12-02 How Sex and Gender Impact Clinical Practice: An Evidence-Based Guide to Patient Care enables primary care clinicians by providing a framework to understand differences and better care for patients in their practice. Each chapter covers a subspecialty in medicine and discusses the influence of sex hormones on disease, along with sex and gender-based differences in clinical presentation, physical examination, laboratory results, treatment regimens, comorbidities and prognosis. Illustrative case examples and practical practice points help each chapter come alive. A special chapter on communication differences between men and women assists clinicians in their conversations with patients. This book fills an important need by applying years of research findings to sex and gender specific medical care and demonstrating that an individualized approach to patient care will lead to improved detection, treatment and prevention of disease. Explores the effects of sex and gender on disease presentation, treatment and prognosis, and how these differences influence clinical decision-making Provides practical guidance that helps clinicians implement a more individualized approach to patient care Contains information on diseases in each major specialty, as well as chapters on communication, pharmacology and public health challenges

**Hybrid PET/MR Neuroimaging** Ana M. Franceschi,Dinko Franceschi,2021-11-30 This book serves as a reference and comprehensive guide for PET/MR neuroimaging. The field of PET/MR is rapidly evolving, however, there is no standard resource summarizing the vast information and its potential applications. This book will guide neurological molecular imaging applications in both clinical practice and the research setting. Experts from multiple disciplines, including radiologists, researchers, and physicists, have collaborated to bring their knowledge and expertise together. Sections begin by covering general considerations, including public health and economic implications, the physics of PET/MR systems, an overview of hot lab and cyclotron, and radiotracers used in neurologic PET/MRI. There is then coverage of each major disease/systemic category, including dementia and neurodegenerative disease, epilepsy localization, brain tumors, inflammatory and infectious CNS disorders, head and neck imaging, as well as vascular hybrid imaging. Together, we have created a thorough, concise and up-to-date textbook in a unique, user-friendly format. This is an ideal guide for neuroradiologists, nuclear medicine specialists, medical physicists, clinical trainees and researchers.

**Health and Medicine through History [3 volumes]** Ruth Clifford Engs,2019-08-08 This three-volume set provides a comprehensive yet concise global exploration of health and medicine from ancient times to the present day, helping readers to trace the development of concepts and practices around the world. From archaeological evidence of trepanning during prehistoric times to medieval Europe's conception of the four humors to present-day epidemics of diabetes and heart disease, health concerns and medical practices have changed considerably throughout the centuries. Health and Medicine through History: From Ancient Practices to 21st-Century Innovations is broken down into four distinct time periods: antiquity through the Middle Ages, the 15th through 18th centuries, the 19th century, and the 20th century and beyond. Each of these sections features the same 13-chapter structure, touching on a diverse array of topics such as women's health, medical institutions, common diseases, and representations of sickness and healing in the arts. Coverage is global, with the histories of the Americas, Europe, Asia, Africa, and Oceania compared and contrasted throughout. The book also features a large collection of primary sources, including document excerpts and statistical data. These resources offer readers valuable insights and foster analytical and critical thinking skills.

**Drugs & Society** Glen R. Hanson,Peter J. Venturelli,Annette E. Fleckenstein,2020-12-08 5 Stars! from Doody's Book Reviews! (of the 13th Edition) This edition continues to raise the bar for books on drug use and abuse. The presentation of the material is straightforward and comprehensive, but not off putting or complicated. As a long-standing, reliable resource Drugs & Society, Fourteenth Edition continues to captivate and inform students by taking a multidisciplinary approach to the impact of drug use and abuse on the lives of average individuals. The authors have integrated their expertise in the fields of drug abuse, pharmacology, and sociology with their extensive experiences in research, treatment, drug policy making, and drug policy implementation to create an edition that speaks directly to students on the medical, emotional, and social damage drug use can cause.

**The Vegetarian Imperative** Anand M. Saxena,2011-10-01 We have learned not to take food seriously: we eat as much as we want of what we want when we want it, and we seldom think about the health and environmental consequences of our choices. But the fact is that every choice we make has an impact on our health and on the environment. In The Vegetarian Imperative, Anand M. Saxena, a scientist and a vegetarian for most of his life, explains why we need to make better choices: for better health, to eliminate world hunger, and, ultimately, to save the planet. Our insatiable appetite for animal-based foods contributes directly to high rates of chronic diseases—resulting in both illness and death. It also leads to a devastating overuse of natural resources that dangerously depletes the food available for human consumption. The burgeoning population and increasing preference for meat in all parts of the world are stretching planetary resources beyond their limits, and the huge livestock industry is degrading the agricultural land and polluting air and water. Continuing at this pace will bring us to the crisis point in just a few decades—a reality that threatens not only our current lifestyle but our very survival. This book shows us a way out of this dangerous and vicious cycle, recommending a much-needed shift to a diet of properly chosen plant-based foods. Any one of these arguments alone—personal health, worldwide hunger, and environmental degradation—provides reason enough to stop consuming so much animal-based food; taken together, they make an unassailable case for vegetarianism. The Vegetarian Imperative will make you rethink what you eat—and help you save the planet.

**Complementary and Alternative Medicine, Part II: Herbal Supplements and Vitamins, An Issue of Nursing Clinics** Stephen D. Krau,2021-02-04 In Part II of this special issue of Nursing Clinics of North America, Dr. Krau is serving as Guest Editor again to provide information on complementary and alternative medicine with specific focus on herbal supplements and vitamins. Distinguished authors have contributed clinical reviews devoted to the following topics: Precautions when using Herbal Medications and Supplements; Vitamin B6 and its role in Women's Health; Fat Soluble Vitamins; Vitamin D: Vitamin or Hormone; Enhancing Cognitive Function with Herbal Supplements; Herbal Medications Used in Women's Health; Herbal Medication to Enhance or Modulate Viral Infections; Herbal Medications used to treat fevers; Traditional and Current Use of Ginseng; Herbal Medications Used to ameliorate

cardiac conditions; Cannabis, Marijuana, and CBD oil; and Highs, Lows, & Health Hazards of Herbology-A Review of Herbal Medications with Psychotropic Effects. Knowledge of this information is not easy to find in the nursing literature, and Dr. Krau believes readers will come away with valuable information on managing patients who use complementary and alternative herbal supplements and vitamins.

**Occupational and Environmental Safety and Health II** Pedro M. Arezes,J. Santos Baptista,Mónica P. Barroso,Paula Carneiro,Patrício Cordeiro,Nélson Costa,Rui B. Melo,A. Sérgio Miguel,Gonçalo Perestrelo,2020-02-20 This book explores a number of important issues in the area of occupational safety and hygiene. Presenting both research and best practices for the evaluation of occupational risk, safety and health in various types of industry, it particularly focuses on occupational safety in automated environments, innovative management systems and occupational safety in a global context. The different chapters examine the perspectives of all those involved, such as managers, workers and OSH professionals. Based on selected contributions presented at the 16th International Symposium on Occupational Safety and Hygiene (SHO 2020), held on 6–7 April, 2020, in Porto, Portugal, the book serves as a timely reference guide and source of inspiration to OSH researchers, practitioners and organizations operating in a global context.

Economics and Management in the Biopharmaceutical Industry in the USA Rachel Kim,2018-12-17 From a managerial perspective, the biopharmaceutical industry represents a competitive, fast-changing, intellectually-powered, innovation-driven sector. Many management scholars have studied this discontinuous era to make sense of strategic behavior and the cognition of firms and top managers. A past look at the biopharmaceutical industry provides answers to questions that most managers have. For example, what options do you have and what actions do you take when new firms enter your industry? In the 1970s, new biotechnology firms, funded by venture capitalists, appeared in the pharmaceutical industry with new knowledge. Successful pharmaceutical firms decided to collaborate with the new entrants and forge relationships to develop and create new, biotechnology engineered drugs. Thus, the addition of new biotechnology firms ushered in a new business model based on strategic alliances. Strategic alliances have now become an industrial norm called open innovation. The author looks at the historical path of the biopharmaceutical industry, particularly in the United States. While the pharmaceutical industry’s main contributions to society are substantial, there are pressing challenges the industry must face, such as an increase in infectious disease outbreaks or the global aging population, which require new types of care, additionally, mental health care and prescription painkiller addiction are persistent issues with economic repercussions to both federal and local governments. This book presents a holistic view of the biopharmaceutical industry, putting it in a historical context. It will best serve those who are eager to learn about this dynamic, fast-evolving industry and who would like to tackle current biopharmaceutical industry issues in the United States and be prepared for future industry challenges.

*FDA Warning Letters About Food Products* Joy Frestedt,2017-08-29 FDA Warning Letters About Food Products: How to Avoid or Respond to Citations uses examples of FDA warning letters about food products as training tools to discuss important quality and manufacturing issues encountered by food companies around the world as they bring food products into the US market. Focused specifically on FDA warning letters surrounding new dietary ingredients and dietary supplements, the book first introduces FDA warning letters in general. Each chapter then focuses on specific issues identified, including HACCP/quality systems, imports/exports, food contact issues, etc. This book helps the food industry train professional team members (across the spectrum of experience levels) to avoid common issues often cited in warning letters. It serves both as an authoritative reference on the common types of warning letters issued to food companies today, and as a guide to best practices for food manufacturers. Includes a range of specific warning letters as case studies and examples of method application Synthesizes often complex information into a clear presentation of FDA warning letters and how to deal with them Describes techniques and methodologies to guide readers to the solution most appropriate for their scenario

**Handbook of Tourism and Quality-of-Life Research II** Muzaffer Uysal,M. Joseph Sirgy,2023-09-23 The second volume of this handbook develops on and extends the discussion in the successful first volume, published in 2012. This is a timely addition to the literature, drawing on the momentum that quality of life (QOL) research in tourism has gained in the 21st century and on the boom in the tourism industry itself. It focuses on four areas of growth in QOL research in the recent past: (1) travelers/tourists, (2) host communities, (3) service providers, and (4) the role of technology. The handbook helps management of tourism firms and policy makers develop specific policies and programs to ensure the most positive impact of tourism on tourists, host communities, and service providers. The comprehensive coverage of topics in this handbook makes it a state-of-the-art reference. Academics interested in QOL research in travel and tourism, tourism practitioners interested in applying the science of QOL in the tourism industry, as well as policy makers involved in regulating the industry will view the handbook as indispensable source of recent research.
