Sources of State Practice in International Law

Ralph Gaebler, Alison Shea, 2014-06-06 Sources of State Practice in International Law is bibliography of treaty and diplomatic sources for important jurisdictions around the world. It also includes a summary for each jurisdiction of issues related to treaty succession and treaty implementation in municipal law.

Paradise Past Robert W. Kirk, 2012-10-24 In the 400 years from Magellan's entrance into Pacific waters to 1920, the lives of the people of the South Pacific were utterly transformed. Exotic diseases from Europe and America, particularly the worldwide influenza pandemic, were deadly for islanders. Ardent missionaries changed the belief systems and lives of nearly all Polynesians, Aborigines, and those Papuans and Melanesians living in areas accessible to westerners. By 1920 every island and atoll in the South Seas had been claimed as a colony or protectorate of a power such as Britain, France or the United States. Factors aiding this imperial sweep included European outposts such as Sydney, advances in maritime technology, the work of missionaries, a desire to profit from the area's relatively sparse resources, and international rivalry that led to the scramble for colonies. The coming of westerners, as this book points out, was not entirely negative, as head-hunting, cannibalism, chronic warfare, human sacrifice, and other practices were diminished--but whole cultures were irreversibly changed or even eradicated.

Hollywood Godfather W. R. Wilkerson, 2018-09-04

This is the definitive biography of the most powerful man in Hollywood during the 1930s, '40s and '50s, the man who founded the Hollywood Reporter and the most storied nightspots of the Sunset Strip, introduced Clark Gable and Lana Turner to the world, invented Las Vegas, brought the Mafia to Hollywood, engineered the shakedown of Hollywood studios by Willie Bioff and his mob-run unions, was possibly involved in the murder of Bugsy Siegel, started the Hollywood blacklist, and helped destroy the studio system. Perhaps nobody in Hollywood history has ever ruined so many careers and done so much damage to the industry as Billy Wilkerson. Yet there has never been a solid biography of the man. Billy's son, William R. Wilkerson III, has done tremendous research on his father, interviewing over decades everyone who knew him best, and portrays him beautifully (and damningly) in this book.

Transatlantic armaments cooperation report of the Military Research Fellows, DSMC 1999-2000
,2000 This publication presents the results of an intensive 11-month program for three military research fellows. The Under Secretary of Defense (Acquisition) (USD (A)) chartered the Defense Systems Management College (DSMC) Military Research Fellowship Program in 1987. The program brings together selected officers from the Army, Navy, and Air Force for two primary purposes: first to provide advanced professional and military education for the participating officers; and second, to conduct research that will benefit the Department of Defense (DoD) acquisition community. This report focuses on transatlantic

cooperative programs. Cooperation with Europe was chosen because of the important political, military, economic, and historical transatlantic ties, but most important, because America's relationship with Europe is rapidly evolving. There is substantial concern about a Fortress America - Fortress Europe syndrome. Political leaders and the public both here and in Europe are attempting to come to terms with the meaning of the NATO alliance in the post-Cold War era. European assertiveness and unity are clashing with dated perceptions about Europe held by Americans. Our intended audience is both the U.S. defense acquisition workforce and policy makers. For the former, we hoped to produce a useful guide that will make them more effective as members of a cooperative team. For the latter, we attempted to provide an updated comprehensive view of the salient features of transatlantic armaments cooperation and some ways in which the context is changing.

Histories of Computing in Eastern Europe

Christopher Leslie, Martin Schmitt, 2019-09-11 This book constitutes the refereed post-conference proceedings of the IFIP WG 9.7 International Workshop on the History of Computing, HC 2018, Held at the 24th IFIP World Computer Congress, WCC 2018, in Poznań, Poland, in September 2018. The 16 revised full papers were carefully reviewed and selected from 20 submissions. They reflect academic approaches to history along with the expertise of museum and other public history professionals as well as the experience of

computing and information science practitioners. The papers are organized in the following sections: Eastern Europe, Poland, Soviet Union, CoCom and Comecon; analog computing, and public history.

Multicultural America Carlos E.

Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U.S. Census data to examine multiculturalism today and tomorrow in America. This distinction is important considering the following NPR report by Eyder Peralta: "Based on the first national numbers released by the Census Bureau, the AP reports that minorities account for 90 percent of the total U.S. growth since 2000, due to immigration and higher birth rates for Latinos." According to John Logan, a Brown University sociologist who has analyzed most of the census figures, "The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations." Both non-Hispanic whites and blacks are getting older as a group. "These groups are tending to fade out," he added. Another demographer, William H. Frey with the Brookings Institution, told The Washington Post that this has been a pivotal decade. "We're pivoting from a white-black-dominated American population to one that is multiracial and multicultural." Multicultural America: A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of

issues flowing from the increasingly multicultural canvas that is America today. Pedagogical elements include an introduction, a thematic reader's guide, a chronology of multicultural milestones, a glossary, a resource guide to key books, journals, and Internet sites, and an appendix of 2010 U.S. Census Data. Finally, the electronic version will be the only reference work on this topic to augment written entries with multimedia for today's students, with 100 videos (with transcripts) from Getty Images and Video Vault, the Agence France Press, and Sky News, as reviewed by the media librarian of the Rutgers University Libraries, working in concert with the title's editors.

The American Economy [2 volumes] Cynthia Clark, 2011-03-11 A compelling compilation of short entries, longer topical essays, and primary source documents that chronicles the historical development of the United States from an economic perspective. Based on a work originally published in 2003, *The American Economy: A Historical Encyclopedia* has been thoroughly updated with information on the accounting scandals of the early 2000s and the recession of 2008, including the government stimulus and bailout programs and the recession's impact on key markets. With more than 600 short entries, 31 longer essays, and 32 primary source documents, the encyclopedia spans American history from colonial times to the present. Researchers will discover detailed information on people, events, and government actions that have shaped our economy, with entries on such seminal issues as slavery, migration

patterns, the welfare state, the rise of the city, and the development of financial institutions. Throughout, special attention is paid to the interdependence of economics with political, social, and cultural forces. Covering everything from the national debt to monetary policy, law, unemployment, inflation, and government/business relations, this work is the ideal go-to resource for quick answers, in-depth analysis, or direction for further research.

Transnational Crimes in the Americas Marshall B. Lloyd, 2018-10-30 'Transnational Crimes in the Americas' addresses contemporary issues with respect to public institutions that are stakeholders in the fight against globalization of crime. Regional public organizations, with a primary focus on the Americas, constitute a framework for understanding the need for an institutional response within the Western Hemisphere. While other authors have addressed the growth of organized crime, no one has explained institutional developments in the struggle against transnational crimes. 'Transnational Crimes in the Americas' highlights existing organizations, emphasizing a regional response to transnational crimes, suggestions for a permanent criminal court in the Americas and an appraisal of the current state of institutional developments in the region.

Rebuilding Native Nations Miriam Jorgensen, 2007-12-13 A revolution is underway among the Indigenous nations of North America. It is a quiet revolution, largely unnoticed in society at large. But it is profoundly important. From High Plains states and Prairie Provinces to

southwestern deserts, from Mississippi and Oklahoma to the northwest coast of the continent, Native peoples are reclaiming their right to govern themselves and to shape their future in their own ways. Challenging more than a century of colonial controls, they are addressing severe social problems, building sustainable economies, and reinvigorating Indigenous cultures. In effect, they are rebuilding their nations according to their own diverse and often innovative designs. Produced by the Native Nations Institute for Leadership, Management, and Policy at the University of Arizona and the Harvard Project on American Indian Economic Development, this book traces the contours of that revolution as Native nations turn the dream of self-determination into a practical reality. Part report, part analysis, part how-to manual for Native leaders, it discusses strategies for governance and community and economic development being employed by American Indian nations and First Nations in Canada as they move to assert greater control over their own affairs. Rebuilding Native Nations provides guidelines for creating new governance structures, rewriting constitutions, building justice systems, launching nation-owned enterprises, encouraging citizen entrepreneurs, developing new relationships with non-Native governments, and confronting the crippling legacies of colonialism. For nations that wish to join that revolution or for those who simply want to understand the transformation now underway across Indigenous North America, this book is a critical resource. Routledge Handbook of Human Rights in Asia

Fernand de Varennes, Christie M.

Gardiner, 2018-12-12 The Routledge Handbook of Human Rights in Asia provides a rich study of human rights challenges facing some of the most vulnerable people in Asia. While formal accession to core international human rights instruments is commonplace across the region, the realisation of human rights for many remains elusive as development pressure, violent conflict, limited political will and discrimination maintain human rights volatility. This Handbook explores the underlying causes of human rights abuse in a range of contexts, considers lessons learnt from global, regional and domestic initiatives and provides recommendations and justifications for reform. Comprising 23 chapters, it examines the strengths and weaknesses of human rights institutions in Asia and covers issues such as: Participation, marginalisation, detention and exclusion Private sector responsibility and security Conflict and post-conflict rehabilitation Trafficking, displacement and citizenship Ageing populations, identity and sexuality. Drawing together a remarkable collection of leading and emerging scholars, advisers and practitioners, this Handbook is essential reading for students, scholars, policy makers and advocates of human rights in Asia and the world.

The Rohingya Crisis Kawser Ahmed, Helal

Mohiuddin, 2019-12-16 Myanmar's security forces have conducted clearance operations in the Rakhine State since August 2017, driving a mass exodus of ethnic Rohingyas to neighboring Bangladesh. In *The Rohingya Crisis: Analyses, Responses, and Peacebuilding Avenues*, Kawser Ahmed and Helal Mohiuddin address core questions about the conflict and its global and regional significance. Ahmed and Mohiuddin identify the defining characteristics of Rohingya identity, analyze the conflict, depict the geo-economic and geo-political factors contributing to the conflict, and outline peacebuilding avenues available for conflict transformation at the macro-, meso-, and micro-level. This book is recommended for students and scholars of anthropology, sociology, peace and conflict studies, political science, and Asian studies.

Citizenship, Nationalism and Refugeehood of Rohingyas in Southern Asia Nasreen

Chowdhury, Biswajit Mohanty, 2020-05-19 This book provides an in-depth investigation of citizenship and nationalism in connection with the Rohingya community. It analyses the processes of production of statelessness in South Asia in general, and with regard to the Rohingyas in particular. Following the persecution of the Rohingya community in Myanmar (Burma) by the military and the Buddhist militia, a host of texts, mostly descriptive, have examined the historical, political and cultural roots of the genocidal massacre and the flight of its victims to South Asia and South-East Asian countries. The UNHCR reports describe the plight of Rohingyas during

and after their journey, while other works focus on the political-economic roots of this ethnic conflict and its consequences for the Rohingyas. To date, very few theoretical insights have been provided on the Rohingya issue. This book seeks to fill that gap, and explores a dialogue between the state and its citizens and non-citizens that results in the production of statelessness. In theoretical terms, the book addresses the construction of citizens and non-citizens on the part of the state, and the process of symbolic othering, achieved through various state practices couched in terms of nationalism. Extensive case studies from India, Myanmar and Bangladesh provide the foundation for a robust theoretical argument. Given its scope, the book will be of interest to students, academics and researchers with a focus on political economy in South Asia in general and/or refugee studies in particular.

Myanmar's Rohingya Genocide Ronan Lee, 2021-01-28
The genocide in Myanmar has drawn global attention as Nobel Peace Prize laureate Aung San Suu Kyi appears to be presiding over human rights violations, forced migrations and extra-judicial killings on an enormous scale. This unique study draws on thousands of hours of interviews and testimony from the Rohingya themselves to assess and outline the full scale of the disaster. Casting new light on Rohingya identity, history and culture, this will be an essential contribution to the study of the Rohingya people and to the study of the early stages of genocide. This book adds convincingly to the body of evidence that the government of Myanmar has

enabled a genocide in Rakhine State and the surrounding areas.

Holy Land Conversations Bryan Saario, 2011-11 All Palestinians are terrorists. They are an invented people. They are an inferior people. This is what some of our most prominent politicians and congressionals tell us and our national media broadcasts and publishes for us. Palestinians (and Arabs) are always the bad guys. Israelis are always the good guys. This ideology is at the heart of U.S. foreign policy that has gotten America involved in two Middle East wars and headed for a third. It has alienated Americans from the entire Middle East, causing a loss of trust and credibility among most other countries. But wait. Aren't there always two sides to every story? Why is it that we never hear the Palestinian side of the story? What would happen if Americans found out that each and every day more Palestinian land is being stolen, their houses demolished, their crops destroyed, children imprisoned without charges, and demonstrators eliminated by non-judicial execution? Might we want to find out more about why our government is complicit in this travesty and who exactly it is in America facilitating such an assault on human rights and justice. How and why did we as Americans become an accomplice, and what benefit is there for us? *Holy Land Conversations* is an

anthology of stories depicting life under military occupation as told by Palestinians in the West Bank and in Gaza; It becomes a treatise derived from travel in the Holy Land by the author and subsequent research and discovery to uncover the various forces that are involved in the oppression and ethnic cleansing of the Palestinian population -- why and how the Palestinians have become dispossessed, denigrated, and denied their basic human rights.

Married to Christ Milton J Fletcher, 2012-10-01
Examine the foundation of union with Christ's death and resurrection as a source of salvation. Explain the idea that as ordinary death alters legal relationships, death in Christ alters the believer's legal obligations. The penalty that the law exacts is death, but those who have died through union with Christ have already suffered this penalty; the law has no authority to condemn them further. Discuss the law of marriage— when one partner dies, the law governing the relationship ceases to apply, and remarriage is not sin. Convey that believers rose to new life through union with Christ in the resurrection, and are free to belong to Christ for the purpose of bearing fruit to God. Illustrate that the old Adamic marriage to the law ceased to exist; believers are no longer under law, but are released from it. Describe the new marriage, an entry in to a new life dominated by the Holy Spirit, who gives new power to fulfill the holy laws of God.

Olympic Aspirations J. A. Mangan, Mark Dyreson, 2019-05-03 Olympic Aspirations: Realised

and Unrealised surveys more than a century of the Olympic Movement's promotion of Olympic ideals internationally. The idea for Olympic Aspirations emerged at the world-renowned annual Beijing Academic Forum just months after the city hosted the impressive 2008 Beijing Olympic Games. One section of the Forum was devoted to the impact of the Olympic Movement on China and on China's image in the world. The tone at times was too self-congratulatory for some present. The critical discussion that continued into late 2010 inspired this book. Olympic Aspirations is a companion volume to the well-received Olympic Legacies: Intended and Unintended and draws on expertise from academics in all parts of the world. Both volumes have a similar purpose: to record Olympic ideals achieved but more importantly, to stimulate reflection on those as yet unachieved. Both are constructive in approach, positive in tone and optimistic in attitude. Olympic Aspirations offers original and insightful arguments that address the actions the Olympic Movement has taken to improve the Games. It argues that these actions are as yet incomplete. In concert with Olympic Legacies, it presents two sides of the same coin minted to advance the purity of the Olympic 'coinage'. This book was originally published as a special issue of the International Journal of the History of Sport.
