Choosing Excellence in Public Schools David W. Hornbeck, Katherine Conner, 2009-06-15 Choosing Excellence in Public Schools explains the origins of the low expectations we have of children, including, notably, children of color, those for whom English is a second language, poor children and children with disabilities. The book dispels the basis for low expectations. It makes clear the economic, demographic, civic, personal and moral imperative to educate all children to high standards and the consequences of not doing so. Hornbeck and Conner set forth a comprehensive, radical agenda based on proven practices and practical experience that will result in education success for virtually all children where faithfully implemented. This book breaks new ground. It establishes that the missing ingredient in school reform is the absence of values-driven, focused, well-financed, professionally staffed, technologically sophisticated grassroots expression of the public will insisting that the political, media, business, judicial and organized labor institutions that make the choices that result in our children's learning conditions make different, and effective choices. We get the education for our own children and grandchildren and those of others that we tolerate or demand.

UNRWA and Palestinian Refugees Sari Hanafi, Leila Hilal, Lex Takkenberg, 2014-04-24 Exploring the evolution of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), this book fills a lacuna in literature on the agency. UNRWA and Palestinian Refugees employs recent fieldwork in order to analyse challenges in programmes and service delivery, protection, camp governance, community participation, and camp improvement and reconstruction. The chapters examine the way UNRWA is adapting to a changing social, political and economic context, mostly within urban settings – a paradigmatic shift from understanding the Agency's role as simply a provider of relief and services to one comprehensively supporting the human development of Palestinian refugees. Examining the refugee debate using new disciplines and research frameworks, this collection aims to emphasise the centrality of the Palestinian refugee issue for Middle East peace-making and to contribute a better understanding of a unique agency. This book will be a useful aid for students and researchers with an interest in Middle East Studies, Politics, and the Israeli-Palestinian conflict.

Shark Drunk Morten Stroksnes, 2017-06-27 A salty story of friendship, adventure, and the explosive life that teems beneath the ocean The Lofoten archipelago, just North of the Arctic Circle, is a place of unsurpassed beauty—the skyline spikes with dramatic peaks; the radiant greens and purples of the Northern Lights follow summers where the sun never sets. It's a place of small villages, where the art of fishing, though evolving, is still practiced in traditional ways. Beneath the great depths surrounding these islands lurks the infamous Greenland shark. At twenty-four feet in length and weighing more than a ton, it is truly a beast to behold. But the shark is not known just for its size: Its meat contains a toxin that, when consumed, has been known to make people drunk and hallucinatory. *Shark Drunk* is the true story of two friends, the author and the eccentric artist Hugo Aasjord, as they embark on a wild pursuit of the famed creature—all from a tiny rubber boat. Together they tackle existential questions and encounter the world's most powerful maelstrom as they attempt to understand the

ocean from every possible angle, drawing on poetry, science, history, ecology, mythology, and their own—sometimes intoxicated—observations, meanwhile pursuing the elusive Greenland shark. By turns thrilling, wise, and hilarious, *Shark Drunk* is a celebration of adventure, marine life, and, above all, friendship. Winner of the Norwegian Brage Prize 2015 Winner of the Norwegian Critics' Prize for Literature 2015 Winner of the Norwegian Reine Ord Prize at Lofoten International Literature Festival 2016

Slime Susanne Wedlich, 2023-02-28 A groundbreaking, witty, and eloquent exploration of slime that will leave you appreciating the nebulous and neglected sticky stuff that covers our world, inside and out. Slime. The very word seems to ooze oily menace, conjuring up a variety of unpleasant associations: mucous, toxins, reptiles, pollutants, and other unsavory viscous semi-liquid substances. Yet without slime, the natural world would be completely unrecognizable; in fact, life itself as we know it would be impossible. In this deft and fascinating book, journalist Susanne Wedlich takes us on a tour of all things slimy, from the most unctuous of science fiction monsters to the biochemical compounds that are the very building blocks of life. Along the way she shows us what slime really means, and why slime is not something to fear, but rather something to ... embrace.

International Law of Underwater Cultural Heritage Kim Browne, Murray Raff, 2023-01-01 This book brings together three distinct areas of International Law – namely Environmental, Heritage and Ocean Law – to address the international legal protection of historically significant wrecks, with particular focus on the environmental hazards they may pose. The confluence of Heritage Law and the Law of the Sea with International Environmental Law represents an important development in international governance strategies for the twenty-first century, in particular those legal and administrative regimes that concern the world's oceans and underwater cultural heritage protection. Importantly, connections between international legal regimes, such as the 1982 Law of the Sea, and institutions like the International Maritime Organisation (IMO) and United Nations Education Scientific Cultural Organisation (UNESCO), can play a crucial part in governance strategies that involve the regulation of marine pollution and historic shipwrecks.

New Harmony Franziska Bechtel, 2018-02-20 Das gegenwärtige Stadtbild von New Harmony, Indiana, ist für einen entlegenen, nicht einmal 900 Einwohner zählenden Ort bemerkenswert. Besonders das von Richard Meier entworfene Besucherzentrum, die Roofless Church und das Harmonist Labyrinth stechen ins Auge. Die Erinnerung an die ersten Siedler, die Harmony Society und Robert Owens Gesellschaftsexperiment (1814-1827), ist allgegenwärtig. Geleitet von der Frage nach dem Erbe der zwei sogenannten intentionalen Gemeinschaften untersucht diese Lokalstudie auf einer vielseitigen Quellenbasis New Harmonys demographische, wirtschaftliche, politische und kulturelle Entwicklung. New Harmonys Erfolgsgeschichte als Kleinstadt kann nicht allein mit den bekannten städtischen Wachstumsfaktoren erklärt werden. New Harmony erhielt aufgrund der Anwesenheit zweier ideengeschichtlich in Europa verwurzelter, in den USA dann bewusst formierter Gemeinschaften einzigartige Entfaltungschancen, die dem Ort zu einem mittlerweile über 200-jährigen Bestehen verhelfen.

Southeast European (Post)Modernities. Part 2 Klaus Roth, Jennifer Cash, Jutta Lauth Bacas, 2014 In southeast Europe, more than 20 years of rapid change under the combined impact of transformation, globalization, and EU integration have deeply affected the structures of everyday life and have produced a variety of (post-)modern lifestyles. This book's contributions focus on the changing practices and patterns of everyday life. The concepts of multiple modernities and post-modernity appear to be particularly appropriate for a region in which everyday life is marked by often sharp contrasts: the coexistence of modern and traditional labor relations and legal concepts * the return to traditional religions and the adherence to new religious forms * the enthusiasm for modern communication technologies * the reliance on national identification. Understanding these paths to (post-)modernity is relevant for those generally interested in processes of socio-cultural change, but particularly for those interested in the Balkans.
