**My Chinatown** Kam Mak, 2001-12-04 Chinatown -- a place of dragons and dreams; fireflies and memories Chinatown -- full of wonder and magic; fireworks on New Year's Day and a delicious smell on every corner Chinatown -- where every day brings something familiar and something wondrously new to a small boy Chinatown -- home? Kam Mak grew up in a place of two cultures, one existing within the other. Using extraordinarily beautiful paintings and moving poems, he shares a year of growing up in this small city within a city, which is called Chinatown.

Pattern Calculus Barry Jay, 2009-07-30 Over time, basic research tends to lead to specialization – increasingly narrow topics are addressed by increasingly focussed communities, publishing in increasingly condensed workshops and conferences, discussing increasingly incremental contributions. Already the community of programming languages is split into various sub-communities addressing different aspects and paradigms (functional, imperative, relational, and object-oriented). Only a few people manage to maintain a broader view, and even fewer step back in order to gain an understanding about the basic principles, their interrelation, and their impact in a larger context. The pattern calculus is the result of a profound re-examination of a 50-year development. It attempts to provide a unifying approach, bridging the gaps between different programming styles and paradigms according to a new slogan – computation is pattern matching. It is

the contribution of this book to systematically and elegantly present and evaluate the power of pattern matching as the guiding paradigm of programming. Patterns are dynamically generated, discovered, passed, applied, and automatically adapted, based on pattern matching and rewriting technology, which allows one to elegantly relate things as disparate as functions and data structures. Of course, pattern matching is not new. It underlies term rewriting – it is, for example, incorporated in, typically functional, programming languages, like Standard ML – but it has never been pursued as the basis of a unifying framework for programming.

Lee Lockwood. Castro's Cuba. 1959-1969 Lee Lockwood, Saul Landau, 2016  
Between 1959 and 1969, photojournalist Lee Lockwood documented Cuba and its victorious revolutionary Fidel Castro with unprecedented freedom and access, including a marathon seven-day interview with Castro himself. This volume includes Lockwood's evocative photographs of Cuba and Castro, his many insightful observations, and extensive excerpts...

*Henry Friendly, Greatest Judge of His Era* David M. Dorsen, 2012-03-27  
Henry Friendly is frequently grouped with Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and Learned Hand as the best American jurists of the twentieth century. In this first, comprehensive biography of Friendly, David M. Dorsen opens a unique window onto how a judge of this caliber thinks and decides cases, and how Friendly lived his life. During his time on the Court of Appeals for the Second Circuit (1959–1986), Judge Friendly was revered as

a conservative who exemplified the tradition of judicial restraint. But he demonstrated remarkable creativity in circumventing precedent and formulating new rules in multiple areas of the law. Henry Friendly, Greatest Judge of His Era describes the inner workings of Friendly's chambers and his craftsmanship in writing opinions. His articles on habeas corpus, the Fourth Amendment, self-incrimination, and the reach of the state are still cited by the Supreme Court. Dorsen draws on extensive research, employing private memoranda between the judges and interviews with all fifty-one of Friendly's law clerks—a veritable Who's Who that includes Chief Justice John R. Roberts, Jr., six other federal judges, and seventeen professors at Harvard, Yale, Stanford, and elsewhere. In his Foreword, Judge Richard Posner writes: "David Dorsen has produced the most illuminating, the most useful, judicial biography that I have ever read . . . We learn more about the American judiciary at its best than we can learn from any other . . . Some of what I've learned has already induced me to make certain changes in my judicial practice."

E-payment Margaret Tan, 2004 The volume of payments handled electronically has increased dramatically in recent years, as have liquidity, volatility and the amount of money flows across borders. This important global trend works together with a growing integration in corporate business processes, and a convergence in network architecture as e-payment of all kinds moves to Internet protocol systems. The net result is a new e-payment landscape that

presents daunting challenges on many levels, as well as exciting opportunities, for banks, businesses and governments. Consumer and citizen interests are also at stake. This book takes a unique, wholly integrated look at the e-payment landscape, understanding the way that existing systems are being stretched and challenged. Credit card systems are extended to facilitate Internet-based eCommerce. Consumers are becoming accustomed to using their stored-value mass transit cards to make payments for goods and services. Corporations put pressure on banks to integrate business information into their electronic payment processes. New non-financial players emerge holding important floats and many of these players are challenging for key parts of the banking franchise. This bo

### **Internetmarketing: Leitfaden für eine marketinggerechte Internetpräsenz**

Andreas G"tze, 2009-04 Für eine erfolgreiche Webpräsenz sind viele Aspekte zu beachten. Vielfach fehlt es jedoch an einer praxisorientierten Darstellung, um die Umsetzung für jeden verständlich zu machen. Deshalb werden diese Aspekte hier nicht nur aufgezeigt, sondern in konzentrierter und nachvollziehbarer Form anhand eines Beispiels aus der Praxis behandelt und im Abschluss kritisch hinterfragt. Somit ist dieses Buch als kleiner Wegweiser für alle die Leser geeignet, welche sowohl im Privaten als auch im Berufsleben nicht nur im Internet präsent sein wollen, sondern auch angesprochen werden möchten.

**Praxisbeispiel** Andreas Götze, 2014-04-11 Inhaltsangabe: Einleitung: Das Internet gewinnt von Jahr zu Jahr an Bedeutung hinzu. Lange vorbei scheinen die Zeiten, in denen die weltweite Kommunikation nur über meist teure Telefonverbindungen möglich war. Mittlerweile treffen sich auf Milliarden von Seiten Privatpersonen und auch viele Unternehmen. Das Internet als solches erschuf neuen Raum für die Verwirklichung von Ideen. Bekannte Beispiele bilden hier Ebay, Amazon oder auch Google, die ihr Dasein einzig und allein diesem gigantischen Netzwerk zu verdanken haben. Konzerne und große Unternehmen sind fast ausnahmslos auch im Internet zu finden, denn nicht nur Umsatz entsteht hier, sondern es gehört einfach zum guten Ton hier vertreten zu sein. Selbst Traditionsunternehmen wie Brockhaus verlagern ihr Wissen, das seit über einem Jahrhundert in Büchern abgedruckt wird, nun ins Internet. Kein Unternehmen möchte die Möglichkeit verpassen, über das Internet Neukunden zu erschließen. So sind hier längst auch viele Ein-Mann-Unternehmen zu finden. Diese Diplomarbeit betrachtet solch eine Unternehmung etwas näher. Was muss bei der Gestaltung eines Internetauftritts beachtet werden und wie erlangt man Aufmerksamkeit? Kann sich eine kleine Firma überhaupt gegen die anderen im Internet vertretenden und meist größeren Konkurrenten durchsetzen? Diese Fragen sollen im Nachfolgenden beantwortet werden. Die ersten Kapitel beschreiben das Unternehmen und dessen Stellung in der Umwelt. Dazu gehören sowohl die Analyse der Stärken und Schwächen des Unternehmens als auch der Chancen und Risiken, welche sich aus der Umwelt für das Unternehmen ergeben.

Die Festlegung von Zielen und einer daran orientierten Strategie schließt diese Betrachtung ab. Der Hauptteil dieser Arbeit beschäftigt sich mit der Überarbeitung des bestehenden Internetauftritts. Die Initiierung und Begleitung des Suchmaschinen-Marketings ermöglicht einen Einblick in dieses komplexe Thema. Im Abschluss werden die getroffenen Maßnahmen auf ihren Erfolg hin überprüft und Schlussfolgerungen für das betrachtete Unternehmen bzw. die zukünftig zu bewältigenden Herausforderungen abgeleitet

**O Doente Crônico Grave, a Pessoa com Deficiência e o Princípio da Igualdade**  
Sybelle Luzia Guimarães Drumond, Luiz Augusto do Couto Chagas, 2020-10-15  
O livro trata dos direitos das pessoas com doenças crônicas graves e faz uma comparação com os direitos das pessoas com deficiência. A equiparação legal da pessoa com doença crônica grave à pessoa com deficiência aumentaria a proteção legal dos doentes crônicos e está em consonância com o que está disposto na Constituição Federal de 1988, com o valor da igualdade, com o princípio da dignidade da pessoa humana e com a garantia do mínimo existencial. Partindo do valor da igualdade, a obra trata das assimetrias de

direitos estabelecidos nas diversas normas brasileiras que tratam das pessoas com deficiência e das listas de doenças crônicas que geram algum tipo de proteção

**The Narrator** Sylvie Patron, 2023-09 The narrator (the answer to the question who speaks in the text?) is a commonly used notion in teaching literature and in literary criticism, even though it is the object of an ongoing debate in narrative theory. Do all fictional narratives have a narrator, or only some of them? Can narratives thus be narratorless? This question divides communicational theories (based on the communication between real or fictional narrator and narratee) and noncommunicational or poetic theories (which aim to rehabilitate the function of the author as the creator of the fictional narrative). Clarifying the notion of the narrator requires a historical and epistemological approach focused on the opposition between communicational theories of narrative in general and noncommunicational or poetic theories of the fictional narrative in particular. The Narrator offers an original and critical synthesis of the problem of the narrator in the work of narratologists and other theoreticians of narrative communication from the French, Czech, German, and American traditions and in representations of the noncommunicational theories of fictional narrative. Sylvie Patron provides linguistic and pragmatic tools for interrogating the concept of the narrator based on the idea that fictional narrative has the power to signal, by specific linguistic marks, that the reader must construct a narrator; when

these marks are missing, the reader is able to perceive other forms and other narrative effects, specially sought after by certain authors.

**Biblical Studies on the Internet** Roland H. Worth,2002-01-01 With this handbook of currently available internet resources (for use online or to be downloaded to one's personal computer), the users can locate the exact spot on the internet to find the materials they want. And they will save countless hours of frustration and work. Over 3,300 websites provide information on a range of topics: English language Bible translations that can be used online or downloaded, sites to listen to hymns on the Internet, Bible translations into 57 non-English languages, non-English commentaries, dictionaries, and other resource materials, Hebrew, Greek, and other ancient language texts and resource materials, numerous commentaries on any one single biblical book or on the entire scriptural canon, supplemental materials dealing with everything from devotional studies to issues of fundamental biblical interpretation, and pseudo-authoritative writings related to the two testaments. Multiple sites are given for each resource cited whenever possible.

**The Dragon Prince** Laurence Yep,1999-01-09 When a poor farmer falls into the clutches of a dragon, only Seven, his youngest daughter, will save him—by marrying the beast. Publishers Weekly praised Yep's elegant, carefully crafted storytelling and Mak's skillfully and radiantly rendered

illustrations in this captivating and luminous Chinese variation of the beauty and the beast tale. A 1998 Notable Children's Trade Book in Social Studies (NCSS/CBC) A 1997 Pick of the Lists (ABA)

The Year of the Panda Miriam Schlein, 1992-10-30 Daxiong mao is rare and mysterious, like a god, living in the midst of the mountains. Strange things are happening on Lu Yi's farm. First, some men from the Chinese government ask Lu Yi's father to sell the property that has belonged to the family for generations. Then a giant panda appears in a neighbor's field, A rare occurrence, given the farm's distance from the high-mountain bamboo forests that pandas inhabit. Lu Yi has a feeling that the two mysteries are somehow connected. And before long, an orphaned baby panda he finds in the woods provides an answer. As the boy nurses the helpless animal back to health, he begins an adventure that may, well change his entire future.

**The Challenge of Food Security** Rosemary Gail Rayfuse, Nicole Weisfelt, 2012-01-01 'The Challenge of Food Security addresses one of the key development challenges of our time. It examines issues related to food security in a comprehensive manner that covers both theoretical perspectives and policy challenges. It will be a key reference book for anyone interested in issues related to food security.' Philippe Cullet, University of London, UK 'This is a timely book which addresses one of the greatest challenges for international regulation: food security. The book is a comprehensive treatment of various aspects of food security from its origins to the relationship between food security and other values, the role that commodity trading plays in exacerbating food insecurity, the importance of adequate food governance, together with specific food security problems like fish, water and genetic resources. The editors should be congratulated on a stimulating collection of essays that brings together a diverse range of scholars and which sheds real light on the complex dimensions of the food security debate.' Fiona Smith, University College London, UK This timely study addresses the pressing issue of food security through a range of

interdisciplinary contributions, providing both scholarly and policy-making perspectives. It sets the discussion on food security within the little-studied context of its international legal and regulatory framework. The expert contributors explore the key issues from a development perspective and through the lens of existing governance and policy systems with a view to articulating how these systems can be made more effective in dealing with the roots of food insecurity. The book considers the root causes of food insecurity before discussing the regulatory challenges inherent in reconciling food production and sustainability to ensure both adequate supply of and equitable access to food, particularly in light of emerging issues such as food price volatility, 'land grabbing' and the need to coordinate the actions of the multitude of actors that influence food policy and regulation. It highlights the need for more equitable, transparent and coherent policy and regulatory approaches to the myriad of issues that make up the food security challenge. This cross-cutting study will appeal to researchers in law, international relations, agricultural science and food systems, as well as to policy makers in government and international organisations that engage with policy and regulation of food security issues. It will also be essential reading for professionals in non-governmental organisations that are interested in development issues in general and food security in particular.

**The Feminist Economics of Trade** Irene van Staveren, Diane Elson, Caren Grown, Nilufer Cagatay, 2012-08-06 Unravelling the complex relationship between

gender inequality and trade, this is the first book to combine the tools of economic and gender analysis to examine the relationship between international trade and gender relations. It brings together fourteen contributions from a variety of economic perspectives, including structuralist, institutionalist, neoclassical and Post-Keynesian by a range of authors including Lourdes Benería, William Darity, Marzia Fontana and Mariama Williams to demonstrate what feminist economics has contributed to the analysis of international trade, through theoretical modelling, econometric analysis and policy-oriented contributions. It includes evidence from industrialized, semi-industrialized, and agrarian economies, using country case studies and cross-country analysis. Arguing that trade expansion and reduction of gender inequality can be combined, but only if an appropriate mix and sequence of trade and other economic policies is implemented, this book is key reading for all students of international economics, gender and cultural studies and politics and international relations, amongst other disciplines.
