Leveraging Mobile Media Valerie Feldmann, 2006-03-30 Mobile communications and next generation wireless networks emerge as new distribution channels for the media. This development offers exciting new opportunities for media companies: the mobile communication system creates new usage contexts for media content and services; the social use of mobile communications suggests that identity representation in social networks, impulsive access to trusted media brands, and micro-coordination emerge as new sources of value creation in the media industries. In the light of this background, this book takes two different viewpoints on the development of mobile media: from a competitive strategy point of view it analyzes the extension of cross-media strategies and the emergence of cross-network strategies; from a public policy point of view it develops demands and requirements for an innovation policy that fosters innovation in mobile media markets.

Bahia Alex Robinson,2010 When Brazilians are far from home they dream of Bahia - of its powder-fine beaches and reef-ringed islands; of waterfalls in the Diamond mountains of the arid sertão, of cobbled streets and pastel-painted houses in Salvador. They long for capoeira and the rich spicy smell of Bahian cooking; the rhythms of axé and the colour of the world's largest carnival. Você tem que ir. they say. You must go. Bradt's Bahia shows the way to the World Heritage sites of Salvador (which has the largest collection of colonial baroque in the world) and the Discovery Coast rainforests; to the best of the beaches around the resorts of Itacaré, Porto Seguro and Trancoso; and beyond to the unspoilt island of Boipeba; the northern Linha Verde near Mangue Seco; and the little-explored coast of Sergipe and Alagoas states to Bahia's north.
