**Springer Handbook of Robotics** Bruno Siciliano,Oussama Khatib,2016-07-27 The second edition of this handbook provides a state-of-the-art overview on the various aspects in the rapidly developing field of robotics. Reaching for the human frontier, robotics is vigorously engaged in the growing challenges of new emerging domains. Interacting, exploring, and working with humans, the new generation of robots will increasingly touch people and their lives. The credible prospect of practical robots among humans is the result of the scientific endeavour of a half a century of robotic developments that established robotics as a modern scientific discipline. The ongoing vibrant expansion and strong growth of the field during the last decade has fueled this second edition of the Springer Handbook of Robotics. The first edition of the handbook soon became a landmark in robotics publishing and won the American Association of Publishers PROSE Award for Excellence in Physical Sciences & Mathematics as well as the organization's Award for Engineering & Technology. The second edition of the handbook, edited by two internationally renowned scientists with the support of an outstanding team of seven part editors and more than 200 authors, continues to be an authoritative reference for robotics researchers, newcomers to the field, and scholars from related disciplines. The contents have been restructured to achieve four main objectives: the enlargement of foundational topics for robotics, the enlightenment of design of various types of robotic systems, the extension of the treatment on robots moving in the environment, and the enrichment of advanced robotics applications. Further to an extensive update, fifteen new chapters have been introduced on emerging topics, and a new generation of authors have joined the handbook's team. A novel addition to the second edition is a comprehensive collection of multimedia references to more than 700 videos, which bring valuable insight into the contents. The videos can be viewed directly augmented into the text with a smartphone or tablet using a unique and specially designed app. Springer Handbook of Robotics Multimedia Extension Portal: <http://handbookofrobotics.org/>

**Using z/VM for Test and Development Environments: A Roundup** Lydia Parziale,Klaus Egeler,Eravimangalath P Naveen,Manoj S Pattabhiraman,Kyle Smith,IBM Redbooks,2007-02-27 This IBM Redbooks publication shows the strengths of z/VM and how you can use these strengths to create a highly flexible test and production environment. Some of the strengths of z/VM that are shown in this book are that you can run Linux on z/VM, you can run a sysplex under z/VM, and you can develop code under z/VM for z/TPF. You can also provision Linux guests under z/VM. A vswitch allows you to connect all of your guests (all operating systems that run under z/VM) easily to the network. You can simulate your production environment on a sysplex. The intention of this book is to show the strengths of z/VM and how you can use these strengths to simulate your production environment and expand your application

development and testing environments.

**Moon People 2** Dale M. Courtney,2009-01-21 Moon People 2 This story is about the space Adventures of 1st Science Officer Captain David Braymer and his transition from the Lunar Base 1 base station to his new home the Powleens traded them called the Aurora,a spaceship that looks like a Moon also known as Goddess of The Dawn it is 10 kilometers in diameter and with light speed capability. It's the size of a small city.It has everything a small city would have like two hospitals and restaurants and shopping malls all over the ship. Captain Braymer also has a romantic attachment to a young lady by the name of Lieutenant Heather Courtney who is an Officers Aid.They have a few out of the ordinary experiences that they do not forget any time soon. And our new friends the Powleens have advanced us centuries ahead of our time. They also traded us for five of their newest ships in their space fleet all with light speed capability with all of their weapons in tacked. They traded us for all kinds of their gadgetrÝs and even some of their food. That's what they do go all over the Galaxy looking for friends and ultimate knowledge and trade with everyone they can find.Commander Braymer also has a mission to do a genesis on Mars that turns out surprisingly good with a few added benefits. One of the benefits was discovering a lot of Martian people and animals in a Noah ark kind of setup that has been frozen for over 100,000 years in life support chambers. They were all brought back to life again. There were many discoveries' not to mention all of the futuristic weapons they find with aircraft all superior to anything at present by anyone. And nobody expected the Martians to have special mental powers like telekinetic and telekinesis and all sorts of mental telepathy powers like mind transference and the power to levitate in the air. Well everything was going pretty smooth until Galactic war breaks out all over the universe and the final Battle happens in our solar system. It was Earth with the Powleen people and also the Martians against the snake looking people called the Arcons and their friends the Thracians who resemble dog like people with sharp claws. There were crashed ships all over our planets and their moons in our solar system. It was the Battle of all Battles. It decided the control of our Galaxy. If you think all of this sounds good wait till you read the book, its action packed from start to finish. I know you will enjoy Moon People Trilogy. It's some of my best work. And don't worry some day you just might see something that resembles Moon People 3coming to your local Book store near you. Thank you and God Bless. Dale M.Courtney Author

**Implementing IBM FlashSystem 840** Karen Orlando, Detlef Helmbrecht, Jon Herd, Carsten Larsen, Matt Levan, IBM Redbooks, 2015-07-09 Almost all technological components in the data center are getting faster: central processing units, networks, storage area networks (SANs), and memory. All of them have improved their speed by a minimum of 10X; some of them by 100X, for example, data networks. However, spinning disk performance has only increased by 1.2 times. IBM® FlashSystem™ 840 version 1.3 closes this gap. The FlashSystem 840 is optimized for the data center to enable organizations of all sizes to strategically harness the value of stored data. It provides flexible capacity and extreme performance for the most demanding applications, including virtualized or bare-metal online transaction processing (OLTP) and online analytical processing (OLAP) databases, virtual desktop infrastructures (VDI), technical computing applications, and cloud environments. The system accelerates response times with IBM MicroLatency® access times as low as 90 µs write latency and 135 µs read latency to enable faster decision making. The introduction of a low capacity 1 TB flash module allows the FlashSystem 840 to be configured in capacity points as low as 2 TB in protected RAID 5 mode. Coupled with 10 GB iSCSI, the FlashSystem is positioned to bring extreme performance to small and medium-sized businesses (SMB) and growth markets. Implementing the IBM FlashSystem® 840 provides value that goes beyond those benefits that are seen on disk-based arrays. These benefits include better user experience, server and application consolidation, development cycle reduction, application scalability, data center footprint savings, and improved price performance economics. This IBM Redbooks® publication discusses IBM FlashSystem 840 version 1.3. It provides in-depth knowledge of the product architecture, software and hardware, its implementation, and hints and tips. Also illustrated are use cases that show real-world solutions for tiering, flash-only, and preferred read, as well as examples of the benefits gained by integrating the FlashSystem storage into business environments. Also described are product integration scenarios running the IBM FlashSystem 840 with the IBM SAN Volume Controller, and the IBM Storwize® family of products such as V7000, V5000, and the V3700, as well as considerations when integrating with the IBM FlashSystem 840. The preferred practice guidance is provided for your FlashSystem environment with IBM 16 Gbps b-type products and features, focusing on Fibre Channel design. This book

is intended for pre-sales and post-sales technical support professionals and storage administrators, and for anyone who wants to understand and learn how to implement this exciting technology.

**Cybersecurity Framework Manufacturing Profile** National Institute of Standards, 2017-05-31 March 2017 If you like this book (or the Kindle version), please leave positive review. This document provides the Cybersecurity Framework implementation details developed for the manufacturing environment. The Manufacturing Profile of the Cybersecurity Framework can be used as a roadmap for reducing cybersecurity risk for manufacturers that is aligned with manufacturing sector goals and industry best practices. The Profile gives manufacturers: \* A method to identify opportunities for improving the current cybersecurity posture of the manufacturing system \* An evaluation of their ability to operate the control environment at their acceptable risk level \* A standardized approach to preparing the cybersecurity plan for ongoing assurance of the manufacturing system's security Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material.
