**Kosovo** Dr Denisa Kostovicova,2005-10-09 Kosovo: The Politics of Identity and Space explores the Albanian-Serbian confrontation after Slobodan Milosevic's rise to power and the policy of repression in Kosovo through the lens of the Kosovo education system. The argument is woven around the story of imposed ethnic segregation in Kosovo's education, and its impact on the emergence of exclusive notions of nation and homeland among the Serbian and Albanian youth in the 1990s. The book also critically explores the wider context of the Albanian non-violent resistance, including the emergence of the parallel state and its weaknesses. Kosovo: The Politics of Identity and Space not only provides an insight into events that led to the bloodshed in Kosovo in the late 1990s, but also shows that the legacy of segregation is one of the major challenges the international community faces in its

efforts to establish an integrated multi-ethnic society in the territory.

**Pannonia and Upper Moesia (Routledge Revivals)** András Mócsy,2014-04-08 In Pannonia and Upper Moesia, first published 1974, András Mócsy surveys the Middle Danube Provinces from the latest pre-Roman Iron Age up to the beginning of the Great Migrations. His primary concern is to develop a general synthesis of the archaeological and historical researches in the Danube Basin, which lead to a more detailed knowledge of the Roman culture of the area. The economic and social development, town and country life, culture and religion in the Provinces are all investigated, and the local background of the so-called Illyrian Predominance during the third century crisis of the Roman Empire is explained, as is the eventual breakdown of Danubian Romanisation. This volume will appeal to students and teachers of archaeology alike, as well as to those interested in the Roman Empire – not only the history of Rome itself, but also of the far-flung areas which together comprised the Empire's frontier for centuries.

**Out of Albania** Russell King,Nicola Mai,2008 Analysing the post-1990 Albanian migration to Italy, this text is a study of one of Europe's newest, most dramatic yet least understood migrations. It explores the dynamics of this migration and takes a look at migrants' employment, housing and social exclusion in the country, as well as the process of return migration to Albania.

**Post-communist Nostalgia** Maria Todorova,Zsuzsa Gille,2012 Although the end of the Cold War was greeted with great enthusiasm by people in the East and the West, the

ensuing social and especially economic changes did not always result in the hoped-for improvements in people's lives. This led to widespread disillusionment that can be observed today all across Eastern Europe. Not simply a longing for security, stability, and prosperity, this nostalgia is also a sense of loss regarding a specific form of sociability. Even some of those who opposed communism express a desire to invest their new lives with renewed meaning and dignity. Among the younger generation, it surfaces as a tentative yet growing curiosity about the recent past. In this volume scholars from multiple disciplines explore the various fascinating aspects of this nostalgic turn by analyzing the impact of generational clusters, the rural-urban divide, gender differences, and political orientation. They argue persuasively that this nostalgia should not be seen as a wish to restore the past, as it has otherwise been understood, but instead it should be recognized as part of a more complex healing process and an attempt to come to terms both with the communist era as well as the new inequalities of the post-communist era.

*Montenegro in Transition* Florian Bieber, 2003 Now that the third Yugoslavia has ended and the new union of Serbia and Montenegro emerged, Montenegro still remains largely unknown. The path of this smallest republic of former Yugoslavia has differed from the rest of the country during the past decade. Montenegro emerged as the only republic not to be engulfed in armed conflict. At the same time, it remained together with Serbia part of the Federal Republic of Yugoslavia and will continue to form a loose union with Serbia for the coming three years. This book seeks to close an important gap in the literature on the former Yugoslavia. As the first overview over political, historical, and economic developments in Montenegro during the past decade in English, it seeks to offer a nuanced

assessment of the difficulties encountered by Montenegro during the violent disintegration of Yugoslavia. The articles cover all major aspects for understanding contemporary Montenegro; from its historical origins and the identity of Montenegrin to political, economic developments and an overview of minority-majority relations. In addition, the book surveys the dispute over Montenegrin independence and the Belgrade agreement of March 2002. The book is not only of interest for those seeking to understand contemporary Montenegro, but also for scholars and students interested in the dissolution of Yugoslavia and the conflicts and post-war transition in which the former Yugoslav space is engaged.

**The Provincial at Rome** Ronald Syme, 1999 This volume offers a new insight into the development of a great historian, as well as giving an exciting and immensely readable new approach to late Republican and early Imperial Roman history. Drafted in 1934-35, but laid aside in favour of 'The Roman Revolution' (1939), 'The Provincial at Rome' was to have been Ronald Syme's first book. It is a brilliantly written study of the enlargement of the Roman elite in the early empire, an analysis, in thirteen chapters, of the Emperor Claudius' enrolment of 'Gallic chieftains' into the Senate in AD 48. The edition also includes five unpublished papers dealing with Rome's conquest of the Balkans, a region Syme knew intimately.

**Albania** Gillian Gloyer, 2008 Written by an insider and Albania enthusiast, the Bradt guide to Albania takes a fresh look at how and where to explore the heritage of this hidden corner of eastern Europe.

NATO for a New Century Carl C. Hodge, 2002-10-30 NATO's military interventions in the Balkans have transformed the alliance. As the alliance goes East, its members are

compelled to rethink NATO's, and each member nation's, military and political roles. Providing a well-rounded study of continuing change in the contemporary North Atlantic Treaty Organization, this book is constructed around eight essays by European security experts analyzing challenges confronting the Atlantic Alliance as a military alliance and as a collective security organization dealing simultaneously with deterrence, enlargement, and regional crisis intervention. It is intended for senior undergraduate and graduate students in international relations, American foreign policy, European studies, security and strategic studies. The evidence is that NATO will undergo many more changes responding to actual and potential threats to Europe's peace. These range from a revival of the ethnic conflict in the former Yugoslavia to the proliferation and possible use of nuclear, biological, and chemical weapons. Also discussed is the matter of NATO's further enlargement and the question of whether this offers more or less security to the alliance membership, as are the emerging tensions between the EU and NATO security regimes.

*Visualization in Modern Cartography* A.M. MacEachren, D.R. Fraser Taylor, 2013-10-22  
Visualization in Modern Cartography explores links between the centuries-old discipline of cartography and today's revolutionary developments in scientific visualization. The book has three main goals: (1) to pass on design and symbolization expertise to the scientific visualization community - information that comes from centuries of pre-computer visualization by cartographers, and their more recent experiences with computerizing the

discipline; (2) to help cartographers cope with the dramatic shift from print cartography to a dynamic virtual cartography for which their role is changing from that of map designer to one of spatial information display (and/or interface) designer; (3) to illustrate the expanded role for cartography in geographic, environmental, planning, and earth science applications that comes with the development of interactive geographic visualization tools. To achieve these goals, the book is divided into three parts. The first sets the historical, cognitive, and technological context for geographic/cartographic visualization tool development. The second covers key technological, symbolization, and user interface issues. The third provides a detailed look at selected prototype geographic/cartographic visualization tools and their applications.
