Musical Theatre John Kenrick,2017-07-27 Musical Theatre: A History is a new revised edition of a proven core text for college and secondary school students – and an insightful and accessible celebration of twenty-five centuries of great theatrical entertainment. As an educator with extensive experience in professional theatre production, author John Kenrick approaches the subject with a unique appreciation of musicals as both an art form and a business. Using anecdotes, biographical profiles, clear definitions, sample scenes and select illustrations, Kenrick focuses on landmark musicals, and on the extraordinary talents and business innovators who have helped musical theatre evolve from its roots in the dramas of ancient Athens all the way to the latest hits on Broadway and London's West End. Key improvements to the second edition: · A new foreword by Oscar Hammerstein III, a critically acclaimed historian and member of a family with deep ties to the musical theatre, is included · The 28 chapters are reformatted for the typical 14 week, 28 session academic course, as well as for a two semester, once-weekly format, making it easy for educators to plan a syllabus and reading assignments. · To make the book more interactive, each chapter includes suggested listening and reading lists, designed to help readers step beyond the printed page to experience great musicals and performers for themselves. A comprehensive guide to musical theatre as an international phenomenon, Musical Theatre: A History is an ideal textbook for university and secondary school students.

Theatre and History Rebecca Schneider,2014-10-02 This provocative book meets the supposedly 'live' practices of performance and the 'no-longer-live' historical past at their own dangerous crossroads. Focussing on the 'and' of the title, it addresses the tangled relations between the terms, practices, ideas, and aims embedded in these compatriot - but often oppositional - arts and acts of time.

Dancing with the Revolution Elizabeth B. Schwall,2021-04-06 Elizabeth B. Schwall aligns culture and politics by focusing on an art form that became a darling of the Cuban revolution: dance. In this history of staged performance in ballet, modern dance, and folkloric dance, Schwall analyzes how and why dance artists interacted with republican and, later, revolutionary politics. Drawing on written and visual archives, including intriguing exchanges between dancers and bureaucrats, Schwall argues that Cuban dancers used their bodies and ephemeral, nonverbal choreography to support and critique political regimes and cultural biases. As esteemed artists, Cuban dancers exercised considerable power and influence. They often used their art to posit more radical notions of social justice than political leaders were able or willing to implement. After 1959, while generally promoting revolutionary projects like mass education and internationalist solidarity, they also took risks by challenging racial prejudice, gender norms, and censorship, all of which could affect dancers personally. On a broader level, Schwall shows that dance, too often overlooked in histories of Latin America and the Caribbean, provides fresh perspectives on what it means for people, and nations, to move through the world.

Mapping Global Theatre Histories Mark Pizzato,2019-05-02 This textbook provides a global, chronological mapping of significant areas of theatre, sketched from its deepest history in the evolution of our brain's 'inner theatre' to ancient, medieval, modern, and postmodern developments. It considers prehistoric cave art and built temples, African trance dances, ancient Egyptian and Middle-Eastern ritual dramas, Greek and Roman theatres, Asian dance-dramas and puppetry, medieval European performances, global indigenous rituals, early modern to postmodern Euro-American developments, worldwide postcolonial theatres, and the hyper-theatricality of today's mass and social media. Timelines and numbered paragraphs form an overall outline with distilled details of what students can learn, encouraging further explorations online and in the library. Questions suggest how students might reflect on present parallels, making their own maps of global theatre histories, regarding geo-political theatrics in the media, our performances in everyday life, and the theatres inside our brains.
