To feed the planet, first you have to fight the waste', Massimo Bottura Bread is Gold is the first book to take a holistic look at the subject of food waste, presenting recipes for three-course meals from 45 of the world's top chefs, including Daniel Humm, Mario Batali, René Redzepi, Alain Ducasse, Joan Roca, Enrique Olvera, Ferran & Albert Adrià and Virgilio Martínez. These recipes, which number more than 150, turn everyday ingredients into inspiring dishes that are delicious, economical, and easy to make.

Pantone Foodmood June 2018 Francesca Malerba, 2018 A must-have for professionals from the world of designers, architects, graphics and publishing Green with envy; red-faced with

embarrassment; in a blue mood; or in the pink: Color speaks well before words. And Pantone is the renowned authority on color and color communication, known to artists, designers, art directors, businesses and students around the world. Central to their understanding of color are the subtle cues that affect how we relate to our environment and each other. Now, in collaboration with Italy's premiere cookbook publisher, Pantone brings its expertise on the relationship between color and mood to the subject of food. Fifty-six step-by-step recipes are gathered around eight colors and their variations, including: Yellow (Tarte Citron); Magenta (Sea Bream Tartar with Rose Petals); Green (Savory Asparagus Tart); Blue (Salad with Borage Flowers); Purple (Fox Grape Pudding); Orange (Tandoori Chicken with Basmati Rice); Red (Round Meringue with Wild Strawberries); and Brown (Coffee Semifreddo). Each recipe collection is introduced with an essay by a Pantone color expert on that color's mood-food connection. And each recipe is styled to perfection and photographed in Pantone's full-color glory.

The Gradual Vegetarian Lisa Tracy, 2015-04-28 In this step-by-step guide to moving away from

Science in the Kitchen and the Art of Eating Well Pellegrino Artusi, 2003-12-27 First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes.

Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

 Archestratus (of Gela.), S. Douglas Olson, Alexander Sens, 2000 Archestratos of Gela was the author of a mock-epic poem, most likely entitled the Hedupatheia or Life of Luxury, that presented itself as a gastronomic tour of the Mediterranean world. Written sometime in the first two-thirds of the fourth century BCE, the Hedupatheia was widely read in the late classical and early Hellenistic periods and was translated into Latin by Ennius, through whom it influenced the work of later Roman poets including Horace. It survives today in fragments totalling about 330 lines. The Hedupatheia is a fundamental source for our understanding not only of fourth-century literature but also of the significance of food and dining and the reception of epic poetry in late classical society. This edition is based on a fresh examination of the manuscripts and is the first to combine an authoritative

critical text of the fragments with a translation, a detailed philological and historical commentary, and an extensive introduction situating the poem in its literary, social, and cultural context.
