Time Like a River Randy Perrin,Hannah Perrin,Tova Perrin,1997 Unforgettable is the word best used to describe *Time Like a River* by Randy Perrin and his young daughters, Hannah and Tova. This book has several themes. The first illustrates the friendship between 13-year-old Margie, who is Jewish, and her best friend, Isabel, who is Catholic. The second is about Margie's mom who has become dangerously ill with an unknown disease. The third is about a school history project the girls are working on which takes them to an historical archive where they find a diary written by a Chinese man 100 years before Margie travels back in time to visit the Chinese man who recently lost his father to a mysterious malady. Through this experience Margie figures out the disease her mother has and helps the doctors save her life. Social Studies teachers can also learn how much more important it is to emphasize how people lived, thought, and felt in the past, rather than make children memorize isolated facts. -Independent Publisher

Sorrow Woods Beckie Stevenson,2015-05-19 How did you even get here? I blink at him, confused by his question. We live here. You live here, in these woods? When Kaiden stumbles across Serena Scott whilst hunting in Sorrow Woods he thinks all of his birthdays have come at once. Finally, the girl that's haunted and intrigued him and his parents for the last fourteen years is standing in front of him. And she's alive. Serena should have known that he would shatter her life into a thousand pieces. It wasn't because of the gun, or the tattoos that snaked around his arm, but because he was the first boy that she'd ever set eyes on. He wasn't just any boy either; he was Kaiden Matthews. He was dark, dangerous and strangely alluring. And he was beautiful. Serena's life as she knows it is destroyed after Kaiden drops his bombshell. As the consequences of his actions begin to penetrate through into her life she vows to stay away from him, and while she might have been in his past, she refuses to be his future. Kaiden knows that in order for either of them to salvage anything from the mess he's made he needs to make sure the secrets of his past stay hidden, but as they start to rebuild their lives they find themselves stuck in a whirlwind of secrets and confessions that could threaten to break their already fragile relationship.

The beat on the streets in Reykjavik is busy: traffic accidents, theft, domestic violence, contraband ... And an unexplained death. When a tramp he met regularly on the night shift is found drowned in a ditch, no one seems to care. But his fate haunts Erlendur and drags him inexorably into the strange and dark underworld of the city. The writer whose work The New York Times describes as having the sweep and consequence of epic story telling has outdone himself in this multi-layered and masterful suspense story. The Great Escape Bill Wallace,2014-07-29 Spring has sprung—and so have we...even cats and dogs get crazy in the spring. After all, what self-respecting cat (that's me, Chuck) stays somewhere he doesn't want to be? And what self-respecting dog (that's Rotten Willy, who calls me Upchuck) won't let his best friend (me) goad him into action on a fine spring day? Believe me, it's not easy getting a lumpy Rottweiler over—or under—a big wooden gate! I figured it was about time I took Willy to my pal Luigi's restaurant for a great spaghetti and meatball dinner. Problem was, Luigi didn't understand that some dogs and cats, particularly an exceptional feline like me, can be friends. He was only trying to protect me when he went after Willy with a skillet! Boy, did he run. Then Willy decided to teach me how to chase cows. ME chase cows? Me-ow! I tried to introduce him to something more civilized, like chasing mice, but no go. Then came the skunk. Need I say more? But the real obstacle to a long-lasting friendship was yet to come.

Twilight of the Mammoths Paul S. Martin,2007-05-08 Paul S. Martin's innovative ideas on late quaternary extinctions and wildlife restoration have fueled one of science's most stimulating recent debates. He expounds

them vividly here, and defends them eloquently. A must-read.—David Rains Wallace, author of *Beasts of Eden* This is a marvelous read, by a giant in American prehistory, about one of the greatest mysteries in the earth sciences.—Tim Flannery, author of *The Eternal Frontier* Whether or not you agree with Paul Martin, he has shaped how we think about our Pleistocene ancestors and their role in transforming this planet.—Ross D. New World Poetry D. R. Faust,2017-05-31 D.R. Faust was raised in a small Kansas town to lower-middle-class parents. His father was an over-the-road truck driver and his mother a full-time housewife. From humble beginnings, he fought personal hardships to achieve success on many levels. Through determination, Faust who at ninety-five pounds was the smallest boy in school rose within two years to become a multititled bodybuilder. Though he graduated from high school in the lowest 25 percent of his class, he went on to receive an academic scholarship to a private college. By the age of twenty-three, he had completed this book. Composed as a testimony to the questions, frustrations, and desperate desires for metamorphosis felt by many today, *New World Poetry and Other Provocative Ramblings* will both inspire and incense, all the while appealing to the highest sense of reason and compassion.

Deeper Than The Ocean Emma Rose Harris,2019-09-02 Deeper than the ocean is a book of poetry diving into all the emotions of grief, love, and heart break. The book is divided into two chapters, before the death of a loved one and the life changing moments after. Emma tells her story beautifully, a story I believe a lot of people could relate to. And I believe reading something so relatable has a true healing essence to it.

TAPE SUCKS: Inside Data Domain, A Silicon Valley Growth Story Frank Sloatman,2011-05-13 Silicon Valley has been birthing renegade technology companies for the better part of a century, a storied lineage that traces from Stanford's Fred Terman to the Varian brothers' Klystron amplifier, from the hallowed garage of Bill Hewlett and Dave Packard to the bold traitorous eight who fled Shockley Labs to form Fairchild Semiconductor. These companies, to be sure, broke new science and engineering ground-yet their most lasting legacy may well be their pioneering approach to business itself. They blazed a path that led to Intel, Apple, Oracle, Genentech, Gilead, Sun, Adobe, Cisco, Yahoo, eBay, Google, Salesforce, Facebook, Twitter, and many, many others. What causes a fledgling company to break through and prosper? At the highest level, the blueprint is always the same: An upstart team with outsized ambition somehow possesses an uncanny ability to surpass customer expectations, upend whole industries, and topple incumbents. But how do they do it? If only we could observe the behaviors of such a company from the inside. If only we were granted a first-person perspective at a present-day Silicon Valley startup-cum-blockbuster. What might we learn? This document-the story of Data Domain's rise from zero to one billion dollars in revenue-is your invitation to find out. For anyone curious about the process of new business formation, *Tape Sucks* offers a provocative, ripped-from-the-headlines case study. How does a new company bootstrap itself? What role does venture capital play? Why do customers and new recruits take a chance on a risky new player? Frank Sloatman, who lived and breathed the Data Domain story for six years, offers up his clear-eyed, first-person shooter version of events. You're with him on the inside as he and his team navigate the tricky waters of launching a high-technology business. You'll feel-deep in your gut-the looming threat of outside combatants and the array of challenges that make mere survival an accomplishment. You'll catch a glimpse of an adrenalin-fueled place where victories are visceral, communication wide open, and esprit de corps palpable. The upshot is that the principles of the early entrepreneurs of Silicon Valley are alive and well. Their straightforward ideas include employee-ownership, tolerance for failure, unfettered meritocracy, faith in the power of technology breakthroughs, a preference for handshakes and trust over contracts and lawsuits, pragmatism, egalitarianism, and a belief in the primacy of growth and reinvestment over dividends and outbound profits. *Tape Sucks* is an honest, informed perspective on technology wave riding. It allows you to observe a high-growth business at close range and get an unvarnished picture of how things really work.

Brenda's Beaver Needs a Barber Bimisi Tayanita, Matt Williams,2016-12-01 Sumguyen has always had a thick mane of hair, in the summer of 2016 he decided to grow a beard. Deep into month three he started to look like an armpit with eyeballs. It was a sultry August night in Old Town Scottsdale as Bimisi and Sumguyen made their way from one bar to another. They took pause to to enjoy the rhythms of a homeless crooner who was soulfully picking his guitar. When Sumguyen threw a five into his tip jar the artist looked up, thanked him with a nod and said, That is a beautiful beard. My friend Brenda has a beard just like that, but hers doesn't talk. A fair

amount of beer sprayed from Bimisi's nose...and just like that they had their subject matter for the final book of season one. Brenda's Beaver Needs a Barber is the fifth of five books that make up Reach Around Books Season One.
