**The University of Notre Dame** Thomas E. Blantz C.S.C.,2020-08-31 Thomas Blantz's monumental The University of Notre Dame: A History tells the story of the renowned Catholic university's growth and development from a primitive grade school and high school founded in 1842 by the Congregation of Holy Cross in the wilds of northern Indiana to the acclaimed undergraduate and research institution it became by the early twenty-first century. Its growth was not always smooth—slowed at times by wars, financial challenges, fires, and illnesses. It is the story both of a successful institution and of the men and women who made it so: Father Edward Sorin, the twenty-eight-year-old French priest and visionary founder; Father William Corby, later two-term Notre Dame president, who gave absolution to the soldiers of the Irish Brigade at the Battle of Gettysburg; the hundreds of Holy Cross brothers, sisters, and priests whose faithful service in classrooms, student residence halls, and across campus kept the university progressing through difficult years; a dedicated lay faculty teaching too many classes for too few dollars to assure the university would survive; Knute Rockne, a successful chemistry teacher but an even more successful football coach, elevating Notre Dame to national athletic prominence; Father Theodore M. Hesburgh, president for thirty-five years; the 325 undergraduate young women who were the first to enroll at Notre Dame in 1972; and thousands of others. Blantz captures the strong connections that exist between Notre Dame's founding and early life and today's university. Alumni, faculty, students, friends of the university, and fans of the Fighting Irish will want to own this indispensable, definitive history of one of America's leading universities. Simultaneously detailed and documented yet lively and interesting, The University of Notre Dame: A History is the most complete and up-to-date history of the university available.

**The Day He Left** Frederick Weisel,2022-03-01 After he was gone, the only things left behind were secrets Annie has fallen out of the habit of listening to her husband. She and Paul have been married for a long time; it's easy to nod as he drones on, responding to his voice while completely ignoring every word he says. That becomes a problem, of course, when Paul disappears and the police have questions. Was Paul having issues at work? Is there any reason to think he might harm himself? Annie doesn't know. But someone does. An unsettling photo found amongst Paul's things turns the investigation toward his job as a middle school teacher and a troubled girl who is hiding secrets of her own. But what exactly happened to Paul on the day he left for work and never made it to the classroom? Is his disappearance related to a local heroin trafficking operation? As Eddie Mahler and the members of the Santa Rosa Violent Crime Investigations Team rush to find the teacher, they discover the members of his family have hidden lives of their own, and that Paul may not have been running away but toward something that could ruin his career and marriage—and even cost his life.

Rocky's Eulogy Lawrence Ianni, 2011-02-24 Before the latest reunion of his circle of university friends who have gathered periodically to renew acquaintance since their graduation over thirty years ago, Tony Rocco is asked to deliver a eulogy of the friend whom this group has come to regard with unusual respect and admiration for his humanity, professionalism and personal probity. As Tony visits members of the group of his college contemporaries to gather impressions and feelings to use in his eulogy, he discovers some surprising things about his youthful friends and manages to resolve a dilemma which has brought him to the brink of destroying his marriage and escaping to the uncertainty of a financially desperate and lonely life.

Pietro Bembo Carol Kidwell, 2004-11-02 Bembo, a Venetian patrician and man of letters, had a close association with the printer Aldus. He enjoyed a rich life with illicit love affairs in the courts of Ferrara, Urbino, and finally Rome, where he was appointed Latin secretary to Leo X. Ten years later, ill and bored, Bembo left Rome for Padua with Morosina, the young sister of a Vatican courtesan. To guarantee a living he took vows of chastity, poverty and obedience in the aristocratic order of St John of Jerusalem, and then started a family. Bembo was active in education in Padua; and his great achievement was to have helped create a common language for Italy through the revival of medieval Tuscan in his poetry and prose. Appointed official historian of Venice, after Morosina's death he became a cardinal. An open mind, coupled with staunch support of the established church during the troubled years of the reformation, made him an asset to the papal curia. At the time of his accidental death in Rome in 1547 he was considered a likely successor to Paul III.

Gardner Murphy Lois Barclay Murphy, 1990 Gardner Murphy (1895-1979) was one of the most beloved and revered psychologists in the mid-twentieth century, as well as an inspiring leader in psychical research. His creativity, integrative powers, idea generation, and devotion to the highest scientific standards expanded and consolidated both fields of study. This rich and important biography, gracefully written by his wife and longtime professional colleague, records both his professional and his personal life. He was seen by some colleagues as a major integrator of the different trends in psychology at a time of fragmentation; by others as an enlarger of the scope of psychology when it was too limited; and by still others as a humanizer of psychology when it was forgetting the needs of human beings. Intensely committed to these efforts as he was, the whole Gardner Murphy was seen by few of his peers. I have tried to describe his dimensions and some of what he meant to his generation and what he bequeathed to the next one.--From the Preface.

**Up from Invisibility** Larry Gross, 2001-12-26 A half century ago gay men and lesbians were all but invisible in the media and, in turn, popular culture. With the lesbian and gay liberation movement came a profoundly new sense of homosexual community and empowerment and the emergence of gay people onto the media's stage. And yet even as the mass media have been shifting the terms of our public conversation toward a greater acknowledgment of diversity, does the emerging visibility of gay men and women do justice to the complexity and variety of their experience? Or is gay identity manipulated and contrived by media that are unwilling—and perhaps unable—to fully comprehend and honor it? While positive representations of gays and lesbians are a cautious step in the right direction, media expert Larry Gross argues that the entertainment and news media betray a lingering inability to break free from proscribed limitations in order to embrace the complex reality of gay identity. While noting major advances, like the opening of the Oscar Wilde Memorial Bookstore—the first gay bookstore in the country—or the rise of *The Advocate* from small newsletter to influential national paper, Gross takes the measure of somewhat more ambiguous milestones, like the first lesbian kiss on television or the first gay character in a newspaper comic strip.

Psychiatric Contours Nancy Rose Hunt, Hubertus Büschel, 2024-03-08 *Psychiatric Contours* investigates new histories of psychiatry, derangement, and agitated subjectivities in colonial and decolonizing Africa. The volume lets the multivalent term madness broaden perception, well beyond the psychiatric. Many chapters detect the mad or the psychiatric in unhinged persons, frantic collectives, and distressing situations. Others investigate individuals suffering from miscategorization. A key Foucauldian word, vivacity, illuminates how madness aligns with pathology, creativity, turbulence, and psychopolitics. The archives, patient-authored or not, speak to furies and fantasies inside asylums, colonial institutions, decolonizing missions, and slave ships. The frayed edges of politicized deliria open up the senses and optics of psychiatry's history in Africa far beyond clinical spaces and classification. The volume also proposes fresh concepts, notably the vernacular, to suggest how to work with emic clues in a granular fashion and telescope the psychiatric within histories of madness. With chapters stretching across much of ex-British and ex-French colonial Africa, *Psychiatric Contours* attends to the words, autobiographies, and hallucinations of the stigmatized and afflicted as well as of the powerful. Expatriate psychiatrists with cameras, prying authorities, fearful missionaries, and colonial anthropologists enter these readings beside patients, asylums, and boarding schools via research on possession “hysteria” and schizophrenia. In brief, this book demonstrates novel ways of writing not only medical history but all subaltern and global histories. Contributors. Hubertus Büschel, Raphaël Gallien, Matthew M. Heaton, Richard Hölzl, Nancy Rose Hunt, Richard C. Keller, Sloan Mahone, Nana Osei Quarshie, Jonathan Sadowsky, Romain Tiquet
