The Persian Wars Herodotus,2021-04-10 Herodotus, the great Greek historian, wrote this famous history of warfare between the Greeks and the Persians in a delightful style. Herodotus portrays the dispute as one between the forces of slavery on the one hand and freedom on the other. This work covers the rise of the Persian influence and a history of the Persian empire, a description and history of Egypt, and a long digression on the landscape and traditions of Scythia. Because of the comprehensiveness of this work, it was considered the founding work of history in Western literature. A must-have for history enthusiasts.

The Story of Sexual Identity Phillip L. Hammack,Bertram J. Cohler,2009-03-06 This book assembles a diverse group of scholars working within a new, pathbreaking paradigm of sexual science, fusing perspectives from history, sociology, and psychology. The contributors are united in their commitment to the idea of narrative as central to the study of sexual identity, offering an analytic approach to social science inquiry on sexual identity that restores the voices of sexual subjects. The result is a rich examination of lives in context, with an eye toward multiplicity and meaning across the life course. Central to the chapters in this volume is the significance of history, generation, and narrative in the provision of a workable and meaningful configuration of identity.

Social Studies for Secondary Schools Alan J. Singer,2008-10-26 This popular text advocates an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers. Based in practice and experience, it offers systematic support and open, honest advice for new teachers, is conversational not pedantic, and provides lots of examples. While the structure and most of the topics remain largely the same as before, this Third Edition presents new lesson ideas in every chapter especially designed to help new teachers to address learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms puts a heavier focus on what is important to know and why includes new essays on the politics of social studies education responds to opponents of project- or activity-based social studies instruction and multicultural education with a sharpened defense of both of these approaches throughout the book Intended as a text for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.

Power Back to the People. The Relevance of Ethnic Federalism in Uganda Lukwago Ssali,2023-01-30 The infamous Scramble for Africa resulted in random and unlikely borders that remain today. The West partitioned territory for the sake of its short-term goal of influence or mastery. They gave little thought to the long-running consequences for the Africans themselves. This arbitrary carving up of Africa, the colonial policy of divide and rule, and the resultant segmental cleavages in most post-colonial African states may be blamed for the horizontal inequalities, conflicts, and insecurity rampant since independence. In Uganda, as in many other African countries, the most evident of such cleavages have been tribal and ethnic. Recently there have been calls for constitutional reform that would devolve power to the tribal regions and revive the idea of federalism which was the organizing principle in the immediate aftermath of independence. This book highlights the dynamics of ethnic politics in the post-independence sub-Saharan setting in general and the background, meaning, and relevance of the debate on ethnic federalism in Uganda, in particular. Part of the book covers Vick Lukwago Ssalis own experiences growing up in an independent but troubled Uganda. However, its central thesis is based on the voices of selected samples of ordinary people in ten different tribal areas of Uganda and what they comparatively think about the issue of federalism. Is their loyalty growing towards the centre or fading outwards from the troubled state to their integral traditional and cultural units?

Pioneering Paths in the Study of Families Gary W Peterson,Suzanne Steinmetz,2014-03-18 Meet the men and women whose groundbreaking work elevated the field of family studies! In *Pioneering Paths in the Study of Families: The Lives and Careers of Family Scholars*, you'll find 40 autobiographies written by leading scholars in sociology, family studies, psychology, and child development. Their fascinating stories demonstrate how their family experiences, educational opportunities, and occupational endeavors not only shaped the disciplines they chose but also shaped the theoretical perspectives they utilized and the topics they

researched. From the editors: "These autobiographies document the experiences of scholars from the early twentieth century to the present. The descriptions of early influences on their education, of their graduate school experiences, and of their academic career paths, provides a wealth of valuable material. Since four of these scholars have died and a number are in their eighties or older, these histories provide rich case studies on factors that influence the decision to go to college, get married, pursue an advanced degree, make specific occupational choices, and investigate certain topics. These autobiographies also detail the barriers that early women scholars in the social sciences faced." The scholars whose lives you will learn about in *Pioneering Paths in the Study of Families* include: Joan Aldous Katherine R. Allen Pauline Boss Carlfred B. Broderick Wesley R. Burr Catherine Street Chilmán Harold T. Christensen Marilyn Coleman Rand D. Conger Randal D. Day William J. Doherty Evelyn Millis Duvall Glen H. Elder, Jr. Bernard Farber Margaret Feldman Mark A. Journeys in Time Elspeth Leacock, Susan Washburn Buckley, 2001 Americans have always been a people on the move. *Journeys in Time* maps twenty journeys that have shaped our national past. These are stories of change -- of pilgrims and pioneers, soldiers and children, explorers and adventurers building new lives and finding new worlds. From a cabin boy who sailed with Columbus to a Union soldier and a young migrant farm worker, these journeys changed the lives of those who took them.

Still Failing at Fairness David Sadker, Karen R. Zittleman, 2009-04-28 Despite decades of effort to create fair classrooms and schools, gender bias is alive and well, and in some ways growing. School practices continue to send boys and girls down different life paths, too often treating them not as different genders but as different species. Teachers and parents often miss the subtle signs of sexism in classrooms. Through firsthand observations and up-to-the-minute research, *Still Failing at Fairness* brings the gender issue into focus. The authors provide an in-depth account of how girls' and boys' educations are compromised from elementary school through college, and offer practical advice for teachers and parents who want to make a positive difference. The authors examine today's pressing issues -- the lack of enforcement for Title IX, the impact of the backlash against gender equity, the much-hyped boys' crisis, hardwired brain differences, and the recent growth of singlesex public schools. This book documents how teaching, current testing practices, and subtle cultural attitudes continue to short-circuit both girls and boys of every race, social class, and ethnicity. Hard-hitting and remarkably informative, *Still Failing at Fairness* is a fascinating look into America's classrooms (National Association of School Psychologists).

The Bloody White Baron James Palmer, 2011-06-13 In the history of the modern world, there have been few characters more sinister, sadistic, and deeply demented than Baron Ungern-Sternberg. An anti-Semitic fanatic whose penchant for Eastern mysticism and hatred of communists foreshadowed the Nazi scourge that would soon overtake Europe, Ungern- Sternberg conquered Mongolia in 1919 with a ragtag force of White Russians, Siberians, Japanese, and native Mongolians. In *The Bloody White Baron*, historian and travel writer James Palmer vividly re-creates Ungern-Sternberg's spiral into ever-darker obsessions, while also providing a rare look at the religion and culture of the unfortunate Mongolians he briefly ruled.

Culture, Identity and Foodways of the Terengganu Chinese Tan Yao Sua, Kamarudin Ngah, The Chinese minority in Terengganu, Malaysia, are struggling to maintain their Sinic culture, identity and community in the face of socio-political changes and Islamisation since the early 1970s. They are also facing problems due to population attrition from an outflow of the younger generation to larger cities in Malaysia for jobs and further education. The acculturated Terengganu Peranakan Chinese, descendants of the earliest settlers who arrived at least two centuries ago, face additional inter-generational tensions and challenges. This book is based on extensive interviews and fieldwork and includes: an overview of the role of the Kuala Terengganu Chinese associations in promoting traditional Chinese culture and identity; a study of the Peranakan Chinese in Tirok, to further examine issues of identity maintenance and identity shift; and a comparison between the foodways of the Tirok Peranakan Chinese with a similar rural Peranakan community in the neighbouring state of Kelantan to demonstrate the community's continual negotiation of Sino-Malay identity.
