- 📖 **REDEMPTION OF THE DAMNED: VOL. 1 AERIAL PHENOMENA** Martin Shough,2019-06-28 UNRAVELLING AERIAL MYSTERIES OF THE PAST Charles Fort published his first and most influential book, The Book of the Damned, a century ago in 1919, collecting together many historical reports of strange aerial phenomena. Since the birth of the UFO controversy in 1947 Fort’s writings have been cited in countless books and web pages. Yet this is the first time in a hundred years that researchers have systematically verified the sources and content of every one of these oft-recycled stories, correcting many errors, placing each case in its historical context, and submitting it to a careful scientific investigation in an attempt to find a conventional answer. What were these reported phenomena? Is it possible to find non-exotic explanations? With the advantage of modern knowledge, methods, and resources, in most cases the answer proves to be yes. Some of the solutions found may shock the general reader and surprise even specialists. Yet in the end a few well-documented events remain unexplained.

- 📖 **FAITH AND REASON** Carmel Paul Attard,2020-12-28 As a Christian you might have asked yourself questions like: How could a benevolent God, “our Father,” punish anyone in fire eternally? How could billions of non-members of my church all be going to hell? How can there be three “Gods” in one God? How can Jesus be both human and divine? Why is the “kingdom of God” in heaven, but we pray for it to “come on earth”? Why is the Bible infallible when it’s littered with textual contradictions? The talking serpent clearly relegates Adam and Eve’s story to the realm of tales. Since they never existed, how could they have committed original sin? So how could we inherit it? And what did Jesus need to redeem us from? It’s been almost two thousand years: will Jesus ever come back to earth? How can Jesus be inside the Eucharist? Faith and Reason shows why and how we’ve come to believe such oddities. “The truth will set you free!” John 8:32 (NIV)

2 **THE FACE OF AFRICA** Stan Chu Ilo, 2012-12-01 This book is a call on Africans and non-Africans to once more believe in the possibility of a better future for Africa. In these pages, Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa. He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education, without any guarantee of adequate food, water, housing, and clothing; without any hope of getting a job, and without any prospect of living in peace with their neighbors. He writes of the sad situation of millions of young Africans who are dying of malaria and HIV/AIDS, and the African women whose fate and fortune have been shackled by a male-dominated society. He questions the bases of the existence of the failed states of Africa, who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations. He argues that corruption, excessive authoritarianism, a stubborn hold on power, and lack of openness to consensus-building among some African leaders insult the cultural value of Africans with regard to a sense of community, love and solidarity. He also writes of the pain of globalization, the debt burden, immigration and trade restrictions on Africans and African countries, exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates. He wonders why many Western nations should turn their backs on Africa, when they all share some responsibility in bringing Africa to her knees. However, even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends, this book proposes that Africans should not claim perpetual victimhood, rather they should stand up once more and work for a better tomorrow, which is possible, and within their reach. Ilo insists that the imposing mountains of economic and social ruin; the rising moans and groans of numberless Africans, should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption, that the cracking social, political, and economic foundations of present day Africa, are incapable of supporting the structures of a new Africa. The face of Africa today is ugly, but behind the ugly face is the beauty that has been distorted by historical and cultural factors. The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future. Ilo outlines how non-Africans who are interested in the African condition can be involved with the peoples of Africa. A proper understanding of the African continent and her peoples, her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans. His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa, offers a helpful and original tool in understanding Africa. It helps to overcome the stereotypes, prejudices and paternalism which non-Africans apply in their reading of African history and their relation with the African reality. With masterly skills, a keen sense of history, a balanced perspective and objectivity, Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human-capital and cultural development. He introduces a new concept in the interpretation of the African condition: homelessness in terms of cultural and existential crises that confront Africans today. His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent; that grassroots village-based action should be preferred over bogus and unworkable national approaches to African development.

2 **ARBEITSRECHTLICHE FRAGESTELLUNGEN BEI DER ENTSENDUNG VON MITARBEITERN INS AUSLAND** Stefan Schwarz, 2016-01-04 In der vorliegenden Arbeit liegt der Fokus auf den arbeitsrechtlichen Aspekten der Mitarbeiterentsendung ins europäische Ausland inklusive der aktuellen Rechtsprechung, um allen interessierten Parteien einen aktuellen und vollständigen Überblick über dieses sehr relevante Teilgebiet anbieten zu können. Aufgrund des Umfangs der Thematik und vor dem Hintergrund der Relevanz der europäischen Staaten für die Auslandsentsendung von Arbeitnehmern beschränkt sich diese Arbeit auf die für die Mitgliedsstaaten der Europäischen Union einschlägigen Regelungen – die Berücksichtigung von Drittländern wurde bewusst außen vor gelassen. Die Würdigung der steuer- und sozialversicherungsrechtlichen Aspekte der Auslandsentsendung wurde ebenfalls explizit ausgeschlossen, da die Beleuchtung dieser den Rahmen der Arbeit sprengen und den notwendigen Tiefgang im Hinblick auf die arbeitsrechtlichen Themen verhindern würden.

2 **ENCYCLOPEDIA OF THE EYE** Joseph Besharse, Reza Dana, Barbara Ann Battelle, Thomas A. Reh, Ernst R. Tamm, David Beebe, Peter Bex, Paul Bishop, Dean Bok, Patricia D'Amore, Henry Edelhauser, Linda McLoon, Jerry Niederkorn, 2010-05-27 As the first comprehensive reference for the eye, its support structures, diseases, and treatments, Encyclopedia of the Eye is an important resource for all visual scientists, ophthalmologists, and optometrists, as well as researchers in immunology, infectious disease, cell biology, neurobiology and related disciplines. This four-volume reference is unique in its coverage of information on all tissues important for vision, including the retina, cornea and lens. It also covers the physiological and pathophysiological processes that affect all eye tissues. This encyclopedia is invaluable for graduate students and postdoctoral fellows who are seeking an introduction to an area of eye research. Each chapter explains the basic concepts and provides references to relevant chapters within the encyclopedia and more detailed articles across the wider research literature. The encyclopedia is also particularly useful for visual scientists and practitioners who are researching a new area, seeking deeper understanding of important research articles in fields adjacent to their own, or reviewing a grant outside their immediate area of expertise. Written by experts at a level that permits students to grasp key elements of a specific subject provides an entryway into the major features of current eye research. No other source puts this much information, so well-indexed and with so many helpful full color figures and graphics, in the hands of the ophthalmic scientist.

2 **THE TEN COMMANDMENTS** Joseph P. Hester, 2015-08-13 The founders of the United States were well aware of religious differences in the new nation. Oppression had forced varied European religious groups to seek homes elsewhere, some in the new world of America. Governmental pressures toward conformity in religion had in the past led to corruption and civil strife. Thus, Congress made a dual assertion in its First Amendment to the Constitution: Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof. However, the ethical foundations of American society--and therefore its laws--intermingle with the moral codes of religions, including the Judeo-Christian Ten Commandments. This handbook helps bring understanding and meaning to the controversies that have arisen in present day society over the application of the Ten Commandments to public law and moral problems. Applications can be logical and legal, or can violate the separation of church and state called for in the First Amendment. Part One provides background on the Ten Commandments. It gives the various versions found in the Old Testament, and explains the non-Israelite influences on those versions (the Hammurabi Code, for example). The moral thinking of the ancient Mesopotamian, Egyptian and Hebrew cultures is examined. The modern Jewish tradition is detailed, as well as the different interpretations placed on the Ten Commandments by Roman Catholics, Anglicans, Lutherans and other Protestants. Part Two focuses on the modern controversies, assessing the differing sides of each. Among the many controversies covered are government funding of faith-based charities, posting the Ten Commandments in public buildings, science versus religion in schools, prayer in public places, blue laws, stem cell research, cloning, euthanasia, capital punishment, abortion and war, racial profiling and covenant marriages.
