PoC or GTFO Manul Laphroaig, 2017-10-31 This highly anticipated print collection gathers articles published in the much-loved International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTFO follows in the tradition of Phrack and Uninformed by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like Reliable Code Execution on a Tamagotchi, ELFs are Dorky, Elves are Cool, Burning a Phone, Forget Not the Humble Timing Attack, and A Sermon on Hacker Privilege. Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.

Botnets Craig Schiller, James R. Binkley, 2011-04-18 The book begins with real world cases of botnet attacks to underscore the need for action. Next the book will explain botnet fundamentals using real world examples. These chapters will cover what they are, how they operate, and the environment and technology that makes them possible. The following chapters will analyze botnets for opportunities to detect, track, and remove them. Then the book will describe intelligence gathering efforts and results obtained to date. Public domain tools like OurMon, developed by Jim Binkley of Portland State University, will be described in detail along with discussions of other tools and resources that are useful in the fight against Botnets. This is the first book to explain the newest internet threat - Botnets, zombie armies, bot herders, what is being done, and what you can do to protect your enterprise. Botnets are the most complicated and difficult threat the hacker world has unleashed - read how to protect yourself

PoC or GTFO, Volume 3 Manul Laphroaig, 2021-01-29 Volume 3 of the PoC || GTFO collection--read as Proof of Concept or Get the Fuck Out--continues the series of wildly popular collections of this hacker journal. Contributions range from humorous poems to deeply technical essays bound in the form of a bible. The International Journal of Proof-of-Concept or Get The Fuck Out is a

celebrated collection of short essays on computer security, reverse engineering and retrocomputing topics by many of the world's most famous hackers. This third volume contains all articles from releases 14 to 18 in the form of an actual, bound bible. Topics include how to dump the ROM from one of the most secure Sega Genesis games ever created; how to create a PDF that is also a Git repository; how to extract the Game Boy Advance BIOS ROM; how to sniff Bluetooth Low Energy communications with the BBC Micro:Bit; how to conceal ZIP Files in NES Cartridges; how to remotely exploit a TetriNET Server; and more. One Acre and Security Bradford Angier, 2017-09-15 A passport to freedom that shows how to find fun, food, shelter, and income on land that may be within easy-driving distance of the city and suburbs. Why work a lifetime, asks Angier, to accumulate enough money to retire from the rat race during the last, least active years of life, when a little ground can provide healthful, relaxed living—now—and income too? One Acre and Security explains how “three-squares-a-day” and money to spend can come from the earth with instructions on: sheep or pig farming, raising bees for honey, keeping dairy herbs of cows or goats, making money with herb culture, raising and selling rabbits and earthworms, running a poultry farm, raising fish, frogs, and turtles for profit and fun. Angier, the man who has done it all himself, shares too what he has learned about some of the ways to eat from nature’s free banquet table, how to stretch country-living with hikes on famous trails or on any untrammeled path, where to find the best hunting and fishing, and how to catch bigger, healthier fish. “This book is written for those who want to move—not to the distant wilderness—but just far enough away from the smog and the screaming traffic to be where meat will be theirs for the raising, fish for the catching, fruit and vegetables for the picking, fuel for the cutting, home for the satisfaction of building...breathing cleaner air, beholden to none, doing what they want to do most and giving it their best,” says Bradford Angier in One Acre and Security...
