*Strengthening Forensic Science in the United States* National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

**Never Ask Permission** Mary Buford Hitz,2012-10-30 Some cities, through hardship or glory or a combination of both, produce extraordinary women. Richmond in the early twentieth century, dominated by its prominent families and still haunted by the ghosts of its Confederate past, produced a galaxy of such characters, including Ellen Glasgow, Mary Cooke Branch Munford, and Lila Meade Valentine. Elisabeth Scott Bocock, Victorian in values but modern in outlook, carried on this tradition with her unique combination of family wealth and connections, boundless energy, eccentricity, and visionary zeal. Her daughter Mary Buford Hitz's candid memoir reveals the pleasures and frustrations of growing up with a woman who expected so much from her children and from the city whose self-appointed guardian she became. Elisabeth Bocock's vision was of a city that would take historic preservation seriously, of a society that would accept the importance of conservation. Impatient with process and society's conventions, she used her enormous personal magnetism to circumvent them when founding many of the institutions Richmond takes for granted today. In the creation of the Historic Richmond Foundation, the Carriage Museum at Maymont, the Hand Workshop, and the Virginia Chapter of the Nature Conservancy she played the dual roles of visionary and bulldozer. While part of a tradition of strong southern women, Elisabeth Bocock's tactics were unique, as she sought to convince others of both the practical and aesthetic links between preservation and the environment. One of the five little Scotts, children of the founder of the investment firm Scott & Stringfellow, she grew up with great privilege, and she schooled her children in how to take advantage of such privilege and how to ignore it. Whether in their winter residence at 909 West Franklin Street in Richmond or at their summer home, Royal Orchard, in the Blue Ridge Mountains, in her household she insisted both on achievement and on avoiding boredom at all costs. As Mary Buford Hitz recounts with intelligence and feeling, her mother often seemed like a natural force, leveling anything that stood in its way but leaving in its wake a brighter, changed world. *Never Ask Permission* is not only a daughter's honest portrait of a charismatic and difficult woman who broke the threads of convention; in Elisabeth Scott Bocock we recognize the flawed but feisty, enduring character of Richmond.

**Twilight of the Idols** Friedrich Nietzsche,1997-06-01 *Twilight of the Idols* presents a vivid, compressed overview of many of Nietzsche's mature ideas, including his attack on Plato's Socrates and on the Platonic legacy in Western philosophy and culture. Polt provides a trustworthy rendering of Nietzsche's text in contemporary American English, complete with notes prepared by the translator and Tracy Strong. An authoritative Introduction by Strong makes this an outstanding edition. Select Bibliography and Index.

The Chronicles of Clovis Hector Hugh Munro,2015-04-23 This early work by H. H. Munro was originally published in 1911 and we are now republishing it with a brand new introductory biography. 'The Chronicles of Clovis' is a collection of short stories, including 'The Great Weep', 'Tobermory', 'Adrian', and many more. Hector Hugh Munro was born in Akyab, Burma in 1870. He was raised by aunts in North Devon, England, before returning to Burma in his early twenties to join the Colonial Burmese Military Police. Later, Munro returned once more to England, where he embarked on his career as a journalist, becoming well-known for his satirical 'Alice in Westminster' political sketches, which appeared in the Westminster Gazette. Arguably better-remembered by his pen name, 'Saki', Munro is now considered a master of the short story, with tales such as 'The Open Window' regarded as examples of the form at its finest.

**Systems Leadership** Catherine Burke,Karl Stewart,Dr Ian Macdonald,2012-09-28 This book is concerned with how people come together to achieve a productive purpose. Human survival has always depended upon our ability to form and sustain social organisations. People have a deep need to be creative and to belong. By creating positive organisations we can fulfil these needs and build a worthwhile society. Such organisations do not occur by chance; a positive organisation is created by the hard work of leaders and members and influenced by the way the organisation is designed, especially its systems. All this needs to be based on an understanding of sound, general principles of behaviour. This book outlines that work; how to build a positive organisation in terms of general principles and practical examples. Understanding and applying this work requires discipline (not dogma) and creativity. The authors show the significant positive results that can be achieved and detail a range of case studies. Unlike some books which are based on goals, objectives or visions this book concentrates on how this can be achieved. The authors observed and engaged with what good leaders and members actually do and have endeavoured to distil the essence of productive relationships based on core, human values. This work has been applied in businesses, social service agencies, hospitals, city governments, national governments, armies, churches, public utilities, indigenous communities, schools and other unique organisations. It is intended to help leaders create more humane and productive organisations that can both meet their objectives and improve the human condition. It does so by presenting a coherent theory exemplified by numerous cases and practical experience. As more than one leader has commented, 'this stuff actually works'. The CD supplied with the book contains 11 case studies which

look at the application of systems leadership techniques in a range of organisational contexts.

Joseph Opatoshu Sabine Koller, 2017-12-02 At the turn of the twentieth century East European Jews underwent a radical cultural transformation, which turned a traditional religious community into a modern nation, struggling to find its place in the world. An important figure in this 'Jewish Renaissance' was the American-Yiddish writer and activist Joseph Opatoshu (1886-1954). Born into a Hassidic family, he spent his early childhood in a forest in Central Poland, was educated in Russia and studied engineering in France and America. In New York, where he emigrated in 1907, he joined the revitalizing modernist group Di yunge - The Young. His early novels painted a vivid picture of social turmoil and inner psychological conflict, using modernist devices of multiple voices and mixed linguistic idioms. He acquired international fame by his historical novels about the Polish uprising of 1863 and the expulsion of Jews from Regensburg in 1519. Though he was translated into several languages, Yiddish writing always fostered his ideas and ideals of Jewish identity. Although he occupied a key position in the transnational Jewish culture during his lifetime, Opatoshu has until recently been neglected by scholars. This volume brings together literary specialists and historians working in Jewish and Slavic Studies, who analyse Opatoshu's quest for modern Jewish identity from different perspectives. The contributors are Shlomo Berger (Amsterdam), Marc Caplan (Baltimore, MD), Gennady Estraiikh (New York), Roland Gruschka (Heidelberg), Ellie Kellman (Boston), Sabine Koller (Regensburg), Mikhail Krutikov (Ann Arbor, MI), Joshua Lambert (Amherst, MA), Harriet Murav (Urbana-Champaign, IL), Avrom Novershtern (Jerusalem), Dan Opatoshu (Los Angeles), Eugenia Prokop-Janiec (Krakow), Jan Schwarz (Lund), Astrid Starck (Basel/Mulhouse), Karolina Szymaniak (Krakow) and Evita Wiecki (Munich).

*Software-Defined Radio for Engineers* Alexander M. Wyglinski, Robin Getz, Travis Collins, Di Pu, 2018-04-30 Based on the popular Artech House classic, Digital Communication Systems Engineering with Software-Defined Radio, this book provides a practical approach to quickly learning the software-defined radio (SDR) concepts needed for work in the field. This up-to-date volume guides readers on how to quickly prototype wireless designs using SDR for real-world testing and experimentation. This book explores advanced wireless communication techniques such as OFDM, LTE, WLA, and hardware targeting. Readers will gain an understanding of the core concepts behind wireless hardware, such as the radio frequency front-end, analog-to-digital and digital-to-analog converters, as well as various processing technologies. Moreover, this volume includes chapters on timing estimation, matched filtering, frame synchronization message decoding, and source coding. The orthogonal frequency division multiplexing is explained and details about HDL code generation and deployment are provided. The book concludes with coverage of the WLAN toolbox with OFDM beacon reception and the LTE toolbox with downlink reception. Multiple case studies are provided throughout the book. Both MATLAB and Simulink source code are included to assist readers with their projects in the field.

**Spitalfields** Dan Cruickshank, 2016-10-27 SHORTLISTED FOR THE HESSELL-TILTMAN HISTORY PRIZE 2017 AN OBSERVER BOOK OF THE YEAR 2016 Religious strife, civil conflict, waves of immigration, the rise and fall of industry, great prosperity and grinding poverty - the handful of streets that constitute modern Spitalfields have witnessed all this and much more. In Spitalfields, one of Britain's best-loved historians tells the stories of the streets he has lived in for four decades. Starting in Roman times and continuing right up to the present day, Cruickshank explains how Spitalfields' streets evolved, what people have lived there, and what lives they have led. En route, he discovers the tales of the Huguenot weavers who made Spitalfields their own after the Great Fire of London. He recounts the experiences of the first Jewish immigrants. He evokes the slum-ridden courts and alleys of Jack the Ripper's Spitalfields. And he describes the transformation of the Spitalfields he first encountered in the 1970s from a war-damaged collection of semi-derelict houses to the vibrant community it is today. This is a fascinating evocation of one of London's most distinctive districts. At the same time, it is a history of England in

miniature.
