Programming Parallel Processors Robert G. Babb, 1988 This book surveys the major commercially available, scientific parallel computers with emphasis on how they are programmed. For each machine, the way in which parallel performance can be assessed is shown for the same small example program. The book will appeal to programmers, managers, and students in computer science and other disciplines with an interest in understanding the state of the art in software tools for programming the current generation of parallel processors.

The Hacker's Dictionary Eric S. Raymond, 2017-06-19 This document is a collection of slang terms used by various subcultures of computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

Operator Handbook Joshua Picolet, 2020-03-18 The Operator Handbook takes three disciplines (Red Team, OSINT, Blue Team) and combines them into one complete reference guide. The book contains 123 individual cheat sheet references for many of the most frequently used tools and techniques by practitioners. Over 400 pages of content to assist the most seasoned cybersecurity veteran or someone just getting started in the career field. The goal of combining all disciplines into one book was to remove the artificial barriers that only certain knowledge exists within a Team. The

reality is today's complex digital landscape demands some level of knowledge in all areas. The Operator culture should mean a well-rounded team member no matter the Team you represent. All cybersecurity practitioners are Operators. The Blue Team should observe and understand Red Team tactics, Red Team should continually push collaboration with the Blue Team, and OSINT should continually work to peel back evidence of evil doers scattered across disparate data sources. In the spirit of having no separation, each reference is listed in alphabetical order. Not only does this remove those team separated notions, but it also aids in faster lookup. We've all had the same experience where we knew there was an NMAP Cheat Sheet but did it fall under Networking, Windows, or Tools? In the Operator Handbook it begins with N so flip to the N's section. Also almost every topic is covered in How to exploit X and How to defend X perspectives. Tools and topics covered: Cloud (AWS, Azure, GCP), Windows, macOS, Linux, Android, iOS, DevOps (Docker, Kubernetes), OSINT, Ports, Forensics, Malware Resources, Defender tools, Attacker tools, OSINT tools, and various other supporting tools (Vim, iptables, nftables, etc...). This handbook was truly meant to be a single source for the most common tool and techniques an Operator can encounter while on the job. Search Copy Paste L33t.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack.

Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Archaeological Excavation of the 10th Century Michael Flecker, 2002 In 1997 the author excavated a shipwreck in the north-western reaches of the Java Sea, Indonesia. It became known as the Intan Wreck due to its close proximity to the Intan Oil Field. The wreck has been dated early to mid-10th century through Chinese coin dates, stylistic analysis of ceramics, and radiocarbon dating. While the structure of the shipwreck has all but disappeared, enough fragments remained for timber identification and a glimpse at construction techniques. These clues, together with cargo types and wreck location, strongly indicate an Indonesian ship of lashed-lug construction. From cargo distribution the Intan ship may have been as long as 30 m. The abundance of surviving cargo stands in stark contrast to the fragmentary hull remains. A total of 6,154 non-ceramic artefacts and 7,309 ceramic artefacts were logged over the course of the excavation. Materials are as diverse as bronze, lead, silver, iron, tin, gold, glass, ceramic, stone, and organics. Origins are as far afield as China, Malaysia, Thailand, Indonesia, and the Middle East. Such diversity is a clear indication of entrepot trade, the most likely port of lading being the Srivijayan capital, Palembang. Considering the wreck location and the large base metal component, the Intan ship could only have been bound for metal deficient Java.

A. K. A. Jesus Hope Dj Harle-Mould,2022-02-11 We often hear that God works in mysterious ways, using these wonders to help his children when they need it most. However, we do not always recognize these interactions as Christ himself, but rather as just another person or random event. To help Christians better recognize Jesus in their daily lives, Hope Harle-Mould has combined sketches of Jesus with those of biblical witnesses to create an embodiment of Christ recognizable to each of us in a contemporary way. This is our religious task: to learn how to walk through our life and world-our senses spiritually attuned with Christlike focus and perspective, until something hidden emerges, something more, something holy-the radiance of God's face shining on you, giving you grace and peace. For individual or group study, AKA Jesus is a tool to help each of us learn to recognize God's presence in our lives each day through the actions of strangers. These engaging sketches will help readers open their spiritual eyes to the world around them and see the wonder of God's provision and involvement in each life.
