*China Networks* Jens Damm,Mechthild Leutner,2009 Networks ranging from village level to transnational level have always played a crucial role in Chinese society. The contributors to this volume aim to trace the interaction between various networks which have existed from the 19th century to the present day. The articles deal with theoretical concepts, historical examples, such as non-state responses to the North China Famine (1876 - 1879), the role of missionaries in the modernization of China and disaster management, including recent inter-ethnic business competition in Hong Kong, Han settlers in Xinjiang, temple festivals in Macau and urban migrants' social networks in today's China. By drawing on new material and theoretical frameworks, these studies shed fresh light on the ways in which various forms of networks have shaped Chinese society, while at the same time questioning traditional and rigid perspectives of Chinese society based solely on networks and guanxi.

*Five Laterals and a Trombone* Tyler Bridges,2022-11-15 In conjunction with the 40th anniversary of The Play—a thrilling and nuanced chronicle of college football's most unforgettable ending The wildest finish ever to a college football game occurred when five laterals on the final kickoff ended with a sprint through the opposing team's marching band—prematurely in celebration on the field—for the winning touchdown. It was 21 seconds of action so unfathomable it has become known simply as The Play. Five Laterals and a Trombone captures the madcap story as it developed in November 1982, tracing the ups and downs, mood swings and hijinks surrounding the 85th Big Game between the University of California at Berkeley and Stanford University. Journalist Tyler Bridges has deftly reconstructed the pivotal moments and resulting lore thanks to hundreds of interviews with all the key figures on both sides of the rivalry, including players, coaches, referees, and stadium personnel. Among the memorable characters are Stanford star quarterback John Elway, Cal linebacker Ron Rivera, the final lateral receiver Kevin Moen, and the immortalized Cardinal trombone player Gary Tyrrell. The Play was not televised live. There was no instant replay—let alone a viral video. In 1982, Steve Wozniak and Steve Jobs, who had founded Apple Computer Company in a garage only 10 miles from the Stanford campus, were just developing the

first personal computers. It took hours for news of the rivalry game's outcome to spread across the country, yet football fans would remain enthralled by the bizarre sequence for decades to come. Readers will be transported onto the field and inside the huddle in this definitive history of college football's ultimate oddity.
