Practical Procedures in General Practice, Second Edition Suneeta Kochhar, 2021-04-29 Practical Procedures in General Practice 2e is an updated guide for any GP looking to establish a minor surgery service, covering: setting up a minor surgery clinic accreditation- new patient selection and assessment basic operative procedures diagnosis and management of skin lesions- new joint injections long-term contraception, including LARCs- new specialist procedures such as carpal tunnel decompression and non-scalpel vasectomy which may be undertaken by GPs with extended roles If you are one of the many GPs looking to reduce referrals and provide a better service to your patients by developing a minor surgery DES, then Practical Procedures in General Practice will help. Five-star reviews of the first edition Excellent beginner's guide for doing in-house minor surgery for GPs or doctors with a bit of surgical experience in their internship years. I have found it very useful as it has well outlined steps to help carry out minor ops safely and covers quite a wide range of simple procedures commonly done in primary care. It also has illustrations and useful hints to avoid mistakes. In all, a must buy for any GP/GP trainee who wants that extra bit of guidance with practical procedures. Excellent book for GPs not only useful for those who are interested in minor surgery but to use in day to day practice. Very useful for those who want to improve practical skills. Easy explanations, detailed description, good illustrations. Very detailed description of procedures, good illustration, makes minor surgery easy for everybody who is motivated to start! A really useful reference for GPs providing minor surgery procedures, but also for GPs looking either to set up an enhanced service, or to expand their existing one. Well written, great illustrations; highly recommended. Note from the publisher: This book will help you to understand what is possible and to remind you how to do the procedures correctly. It is not a substitute for gaining relevant practical experience through expert supervision or at a specialist training course, such as one of those run by the RCGP.

Hazard Mitigation Grant Program Desk Reference (FEMA 345) Federal Emergency Management Agency, 2013-02-01 FEMA's Hazard Mitigation Grant Program is a powerful resource in the combined effort by Federal, State, and local government, as well as private industry and homeowners, to end the cycle of repetitive disaster damage. The Robert T. Stafford Disaster Relief and Emergency Assistance Act was passed on November 23, 1988, amending Public Law 93-288, the Disaster Relief Act of 1974. The Stafford Act included Section 404, which established the Hazard Mitigation Grant Program. In 1993, the Hazard Mitigation and Relocation Act amended Section 404 to increase the amount of HMGP funds available and the cost-share to 75 percent Federal. This amendment also encouraged the use of property acquisition and other non-structural flood mitigation measures. In an effort to streamline HMGP delivery, FEMA encourages States to develop their mitigation programs before disaster strikes. States are adopting a more active HMGP management role. Increased capabilities may include: Conducting comprehensive all-hazard mitigation planning prior to disaster events; Providing applicants technical assistance on sound mitigation techniques and hazard mitigation policy and procedures; Coordinating mitigation programs through interagency teams or councils. Conducting benefit-cost analyses; and Preparing National Environmental Policy Act reviews for FEMA approval. States that integrate the HMGP with their frequently updated State Administrative and Hazard Mitigation Plans will create cohesive and effective approaches to loss reduction. This type of coordinated approach minimizes the distinction between "predisaster" and "post-disaster" time periods, and instead produces an ongoing mitigation effort. Hazard mitigation is any sustained action taken to reduce or eliminate long-term risk to people and property from natural hazards and their effects. A key purpose of the HMGP is to ensure that the opportunity to take critical mitigation measures to protect life and property from future disasters is not lost during the recovery

and reconstruction process following a disaster. Program grant funds available under Section 404 of the Stafford Act provide States with the incentive and capability to implement mitigation measures that previously may have been infeasible. The purpose of this Desk Reference is to: Provide comprehensive information about FEMA's Hazard Mitigation Grant Program (HMGP); Increase awareness of the HMGP as an integral part of statewide hazard mitigation efforts; and Encourage deeper commitments and increased responsibilities on the part of all States and communities to reduce damage and losses from natural disasters. This Desk Reference is organized to simplify program information and assist the reader with practical guidance for successful participation in the program. Lists of program-related acronyms and definitions are included, along with appendices that amplify selected aspects of the HMGP. This Desk Reference is organized into 14 sections, each of which presents a major HMGP subject area. In each section, information is presented on the right side of the page. In several sections, job aids containing supplemental material are provided. The job aids for each section can be found at the end of the section. At the front of each section, there is a detailed table of contents to help you locate specific information.

Why Growth Matters Jagdish Bhagwati, Arvind Panagariya, 2013-04-09 In its history since Independence, India has seen widely different economic experiments: from Jawharlal Nehru's pragmatism to the rigid state socialism of Indira Gandhi to the brisk liberalization of the 1990s. So which strategy best addresses India's, and by extension the world's, greatest moral challenge: lifting a great number of extremely poor people out of poverty? Bhagwati and Panagariya argue forcefully that only one strategy will help the poor to any significant effect: economic growth, led by markets overseen and encouraged by liberal state policies. Their radical message has huge consequences for economists, development NGOs and anti-poverty campaigners worldwide. There are vital lessons here not only for Southeast Asia, but for Africa, Eastern Europe, and anyone who cares that the effort to eradicate poverty is more than just good intentions. If you want it to work, you need growth. With all that implies.

Augusto Lopez-Claros, Arthur L. Dahl, Maja Groff, 2020-01-23 Identifies the major weaknesses in the current United Nations system and proposes fundamental reforms to address each. This title is also available as Open Access.

Research Methods and Society Linda Eberst Dorsten, Lawrence Hotchkiss, 2016-09-17 Provides a foundation for understanding research findings in social sciences. Designed to help students acquire basic skills in the methods of social science research, the second edition of *Research Methods and Society* contains numerous excerpts from professional journal articles, scholarly books, and popular press. The text uses a straightforward writing style to present essential information, without eliminating key concepts, tools, and their applications. Concrete, everyday examples and "hands-on" practice activities reinforce fundamental concepts that will be useful to students in their future careers and life. Topics are illustrated in ways that are student-centered, yet instructor-friendly. Features and updates to this 2nd edition include: Highlighted concepts and terms in each chapter -- In addition to a chapter-end list of key terms. These familiarize students with important content, and helps ensure they understand and retain it. Chapter summaries -- Includes a section titled Your Review Sheet: Questions Discussed in This Chapter. Enables students to review the major themes presented in each chapter, and encourages them to reflect on the key points. Numerous "real-world" activities -- Help students meet specific learning needs, such as evaluating excerpts from research articles, analyzing secondary data, and analyzing primary data from direct observation and other mini-projects Excerpts from professional journal articles and popular press readings -- these are followed by questions, which guide learning on specific methods topics, and illustrates specific issues related to methodology typically employed by social scientists. Added and expanded discussion of Ethics, with special attention to chapters on direct methods of data collection, as well as new discussions about online research. New secondary data tables and their discussions/applications.

Mass Spectrometry-Based Lipidomics Fong-Fu Hsu, 2021-05-29 This detailed volume covers conventional MS-based "shotgun lipidomics" by which samples are introduced by infusion or loop

injection, as well as LC-MS-based lipidomics, which are becoming increasingly important due to the ever-increasing demand for a complete and precise lipid analysis of the complex and diversified lipids in nature. The volume features protocols applying chemical reactions, the on-line photochemical reactions combined with various MS methods for comprehensive characterization of various lipid classes, and quantification of specific and rare lipids. Written for the highly successful Methods in Molecular Biology series, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Authoritative and practical, Mass Spectrometry-Based Lipidomics: Methods and Protocols serves as an invaluable guide for biochemists and mass spectroscopists who are interested in lipid studies.

Reducing Inequalities in Health Martijntje Bakker, Johan Mackenbach, 2003-09-02 Socio-economic inequalities in health are present to a greater or lesser extent in all European countries and the available data suggests that the health gap is increasing. Many studies have been conducted to explain inequalities in health and from them much has been learnt about the different contributory factors. However, in practice it seems hard to translate the knowledge of causes into effective interventions and policies. Reducing Inequalities in Health: a European Perspective: * brings together an unrivalled collection of contemporary data on successful policies and interventions * compares differences in approach in several European countries * includes recent evaluation studies * discusses conceptual issues for research * provides examples of good and bad practice in Europe * draws out the policy and research implications for the future With contributions from leading researchers in 14 different European countries, this book provides a comprehensive source of reference for the reader interested in what really works in the field of health promotion and what sort of policies reduce the health gap.

The Architecture of Innovative Apprenticeship Ludger Deitmer, Ursel Hauschildt, Felix Rauner, Helmut Zelloth, 2012-12-14 Benefiting from the support and involvement of two major international research networks, this collection features the latest research findings in TVET. Members of INAP, the International Network on Innovative Apprenticeship, and VETNET, the Vocational Education and Training Network, have contributed key research findings to this detailed survey of the field. Featuring the inclusion of the internationally recognized memorandum released in April 2012 by the INAP Architecture Apprenticeship Commission, the volume covers a wealth of issues relating to technical and vocational education and training, including exemplar architectures such as successful school-to-work transitions, competence assessment and development models, and governance, including the role of stakeholders. The book provides many opportunities to explore in depth the scholarly debate on TVET, as well as to learn from positive international experiences. It aims to inform the practice of TVET professionals as much as the decision making of administrators.

The Hacker's Dictionary Eric S. Raymond, 2017-06-19 This document is a collection of slang terms used by various subcultures of computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

A Critical Review of the Aerial and Ground Surveys of Breeding Waterfowl in North America Graham W. Smith, United States. National Biological Service, 1995

The Land Governance Assessment Framework Klaus Deininger, Harris Selod, Anthony Burns, 2012 Increased global demand for land posits the need for well-designed country-level land policies to protect long-held rights, facilitate land access and address any constraints that land policy may pose for broader growth. While the implementation of land reforms can be a lengthy process, the need to swiftly identify key land policy challenges and devise responses that allow the monitoring of progress, in a way that minimizes conflicts and supports broader development goals, is clear. The Land Governance Assessment Framework (LGAF) makes a substantive contribution to the land sector by providing a quick and innovative tool to monitor land governance at the country level. The LGAF offers a comprehensive diagnostic tool that covers five main areas for policy intervention: Legal and institutional framework; Land use planning, management and taxation; Management of public land; Public provision of land information; and Dispute resolution and conflict management. The LGAF assesses these areas through a set of detailed indicators that are rated on a scale of pre-coded statements (from lack of good governance to good practice). While land governance can be highly technical in nature and tends to be addressed in a partial and sporadic manner, the LGAF posits a tool for a comprehensive assessment, taking into account the broad range of issues that land governance encompasses, while enabling those unfamiliar with land to grasp its full complexity. The LGAF will make it possible for policymakers to make sense of the technical levels of the land sector, benchmark governance, identify areas that require further attention and monitor progress. It is intended to assist countries in prioritizing reforms in the land sector by providing a holistic diagnostic review that can inform policy dialogue in a clear and targeted manner. In addition to presenting the LGAF tool, this book includes detailed case studies on its implementation in five selected countries: Peru, the Kyrgyz Republic, Ethiopia, Indonesia and Tanzania.

The Onlife Manifesto Luciano Floridi, 2014-11-16 What is the impact of information and communication technologies (ICTs) on the human condition? In order to address this question, in 2012 the European Commission organized a research project entitled The Onlife Initiative: concept reengineering for rethinking societal concerns in the digital transition. This volume collects the work of the Onlife Initiative. It explores how the development and widespread use of ICTs have a radical impact on the human condition. ICTs are not mere tools but rather social forces that are increasingly affecting our self-conception (who we are), our mutual interactions (how we socialise); our conception of reality (our metaphysics); and our interactions with reality (our agency). In each case, ICTs have a huge ethical, legal, and political significance, yet one with which we have begun to come to terms only recently. The impact exercised by ICTs is due to at least four major transformations: the blurring of the distinction between reality and virtuality; the blurring of the distinction between human, machine and nature; the reversal from information scarcity to information abundance; and the shift from the primacy of stand-alone things, properties, and binary relations, to the primacy of interactions, processes and networks. Such transformations are testing the foundations of our conceptual frameworks. Our current conceptual toolbox is no longer fitted to address new ICT-related challenges. This is not only a problem in itself. It is also a risk, because the lack of a clear understanding of our present time may easily lead to negative projections about the future. The goal of The Manifesto, and of the whole book that contextualises, is therefore that of contributing to the update of our philosophy. It is a constructive goal. The book is meant to be a positive contribution to rethinking the philosophy on which policies are built in a hyperconnected world, so that we may have a better chance of understanding our ICT-related problems and solving them satisfactorily. The Manifesto launches an open debate on the impacts of ICTs on public spaces, politics and societal expectations toward policymaking in the Digital Agenda for Europe's remit. More broadly, it helps start a reflection on the way in which a hyperconnected world calls for rethinking the referential frameworks on which policies are built.

Environmental Engineering Dictionary and Directory Thomas M. Pankratz, 2000-09-22 Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded

by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.

Global Gender and Environment Outlook Joni Seager, Jamie Bechtel, 2016 The global gender and environment outlook provides an overview of critical evaluations and analyses of the interlinkages between gender and the environment, and their importance for gender-sensitive policymaking and actions.--Publisher's description.
