Britannia's Dragon J.D. Davies,2013-07-01 Based on extensive research, The Naval History of Wales tells a compelling story that spans nearly 2,000 years, from the Romans to the present. Many Welsh men and women have served in the Royal Navy and the navies of other countries. Welshmen played major parts in voyages of exploration, in the navy's suppression of the slave trade, and in naval warfare from the Viking era to the Spanish Armada, in the American Civil War, both world wars and the Falklands War. Comprehensive, enlightening, and provocative, The Naval History of Wales also explodes many myths about Welsh history, naval historian J.D. Davies arguing that most Welshmen in the sailing navy were volunteers and that, relative to the size of national populations, proportionately more Welsh seamen than English fought at Trafalgar. Written in vivid detail, this volume is one that no maritime or Welsh historian can do without.

**Red Knee .... Itsy, Bitsy Spider** Kenneth Andrew Bauman,2022-04-21 Author Kenneth Andrew Bauman takes on a journey of discovery that appears to be a solution to the Beale Treasure story and more. This information may change the way one views the Beale Treasure. The story begins with the inheritance of a strange sword. In Red Knee....itsy, bitsy Spider, Kenneth Andrew Bauman leads his readers on a 'history highway' leading to a suspected national treasure hidden originally by privateer Captain John MacPherson and Benjamin Franklin in Philadelphia, Pennsylvania. 'Literary steganography,' or what is secret writing, is introduced through an involved research project that identifies a hidden Edgar Allan Poe missive and a solution to two mysteries: the Beale Papers treasure location (other than the Virginia hills) and the suggestion that Sir Francis Bacon (and others) authored the Sonnets attributed to Shakespeare, as they contain hidden literary steganography narrative. Kenneth Andrew Bauman's Red Knee....itsy, bitsy Spider contains exhaustive research on the complexity of cryptography & steganography and reveals explosive historical national secrets that, deemed credible, will turn history around. The poetry contained in Red Knee....itsy, bitsy Spider very well may soothe the mind. Enter into an enthusiastic journey of discovery and meet Mr. LeGrand! In Red Knee. itsy, bitsy Spider, Kenneth Andrew Bauman introduces his readers to the mysterious Mr. LeGrand, who comes from a strange country and possesses a special insight into the power of words. Mr. LeGrand has escaped from the land known as Allied Zombies United, or AZU, where the culture has been compromised by an evil influence. But Mr. LeGrand has retained his belief that knowledge is power, as symbolized by the Sword of Power. Mr. LeGrand is able to unlock the hidden meaning of words and explains steganography, that of which Edgar Allan Poe was masterful.

**Controversial Issues in Adventure Programming** Bruce Martin,Mark Wagstaff,2012-05-04 Controversial Issues in Adventure Programming offers an engaging approach to the consideration of enduring, current, and emerging issues in the field. Written primarily for upper-level undergraduate and graduate students, the text presents 20 issues in a debate format, challenging students to participate in critical discourse concerning these issues as practitioners in the field of adventure programming. Respected authors Bruce Martin and Mark Wagstaff have assembled a team of more than 50 contributors from around the globe to reassess some of the underlying assumptions on which adventure programming is based. They have critically examined implications of new developments for emerging practice and discussed how best to position the field of adventure programming in addressing broader societal concerns. To set the stage for the debate, each issue is prefaced with a general overview, including the evolution of the issue and its significance in light of broader social concerns. Then, contributors present the pros and cons of each issue. A debate format helps students develop an understanding of the key points around each issue while also becoming familiar with current research pertinent to these issues. This approach also encourages students to grapple with these issues and begin to develop their own informed, thoughtful perspectives as they prepare for careers in adventure programming. Controversial Issues in Adventure Programming is divided into two parts. Part I begins by discussing issues of ongoing concern in the field, including the certification debate, motorized versus nonmotorized forms of outdoor recreation, and program accreditation. In part II, contemporary and emerging issues are presented, such as the use of online educational programming in the field of adventure programming. As a reference for practitioners and policy makers, Controversial Issues in Adventure Programming offers new and updated perspectives on enduring and emerging issues as well as a synthesis of the most recent related scholarly literature. In addition, the text serves as a resource in understanding how the adventure programming industry can contribute to addressing issues of broad concern in society, such as public health, global climate change, stewardship of public lands and waterways, and education reform. Controversial Issues in Adventure Programming encourages readers to participate in some of the central debates occurring in the field. In particular, this timely resource will help students broaden their understanding of the field as they critically examine and respond to a range of enduring, contemporary, and emerging topics in adventure programming.

Surgical Revolutions: A Historical And Philosophical View Luis H Toledo-pereyra,2011-07-08 Many surgical revolutions distinguish the history and evolution of surgery. Some are small, others more dominant, but each revolution improves the art and science of surgery. Surgical revolutionaries are indispensable in the conception and completion of any surgical revolution, initiating scientific and technological advances that propel surgical practice forward. Surgical revolutionaries can come in the guises of Lister (antisepsis), Halsted (surgical residency and safe surgery), Cushing (safe brain surgery), Wangensteen (gastrointestinal physiological surgery), Blalock (relief of cyanotic heart disease), Lillehei (open heart surgery), and many others. With the hindsight of history, we can recognize patterns of progress, evaluate means of advancing new ideas, and solidify details of innovative behavior that could lead to new surgical revolutions. This volume examines the following vital questions in detail: What is a surgical revolution and how do we recognize one? Are surgical revolutionaries different? Is there a way to educate new surgical revolutionaries? Can history provide enduring examples of surgical revolutions? Are there different kinds of surgical revolutions? What characterizes a surgical revolution in the context of science and technology? What surgical revolutions are on the horizon?

The Challenge of Teaching Gretchen Geng,Pamela Smith,Paul Black,2016-10-11 This book presents thirty-one accounts by final-year pre-service teachers, providing guidance and insights for less advanced teacher education students, and illustrating the use of life history and narrative stories as methods for pre-service teachers to explore educational issues in classroom practice. This life-history approach identifies those political, economic, and social forces that have impinged on the individual at different points in their life and contributed to the process of changing their identities. These stories are not written by established specialists in the areas they deal with, but instead by novice teachers at the beginning of their paths towards mastering the intricacies of teaching and learning in school settings. As such the book provides a mentoring framework and a means of helping pre-service teachers share their valuable experiences and insights into aspects such

as how to manage practicum requirements. It helps establish a supportive relationship among pre-service teachers, providing them with access to valuable peer experiences. In addition it helps pre-service teachers make sense of their own practicum experiences and reflect on their own beliefs and professional judgement to develop their approaches and solve problems in their own classroom practice.

**Stanley Kubrick** Gary D. Rhodes,2015-09-03 Seventeen essays examine the career and films of director Stanley Kubrick from a variety of perspectives. Part I focuses on his early career, including his first newsreels, his photography for Look magazine, and his earliest films (Fear and Desire, Killer's Kiss). Part II examines his major or most popular films (Paths of Glory, The Shining, 2001: A Space Odyssey). Part III provides a thorough case study of Eyes Wide Shut, with four very different essays focusing on the film's use of sound, its representation of gender, its carnivalesque qualities, and its phenomenological nature. Finally, Part IV discusses Kubrick's ongoing legacy and his impact on contemporary filmmakers. Instructors considering this book for use in a course may request an examination copy here.

**Copyright and the Public Interest in China** G. H. Tang,2011-11-30 'This brilliant amalgam of law, history, social analysis and some Confucian philosophy argues for a distinctive Chinese approach to copyright and the public interest, aligning not only the Western commitment to individual creativity but also supporting public access to and use of works without the consent of the copyright holder. The argument involves fascinating analysis, not only of evolving Chinese attitudes to education, libraries, archives and censorship, but also of the profound significance of the Internet in China today.' Hector MacQueen, University of Edinburgh, UK 'Guan Hong Tang's book offers a fresh, insightful and scholarly treatment of the relationship between the law of copyright and the public interest in China. Copyright legislation in China is a novelty, dating from 1990, and Dr Tang provides a vivid overview of the historical and cultural tensions between traditional Chinese Confucianism and the very concept of copyright, tensions which more recent legislation and case law seek to address.' Gillian Davies, Hogarth Chambers, UK Guan Hong Tang expertly highlights how the multidimensional concept of public interest has influenced the development and limitations of Chinese copyright. Since 1990 China has awarded copyright individual rights but also provides for public, non-criminal enforcement. The author reveals that pressures of development, globalisation and participation in a world economy have hastened the loss of public interest from copyright. However, for a socialist country, placing the common ahead of the individual interest, the public interest also constitutes a phenomenological tool with which to limit copyright. The author also discusses how the rise of the Internet, which has had a major social and economic impact on China, raises problems for Chinese copyright law. Comparing Chinese copyright law with the USA and the UK, topical issues are presented in this unique book including those arising within education, library and archives sectors. This insightful book will strongly appeal to students and researchers in IP law, comparative law, Chinese studies, international commerce and information science. It will also prove invaluable for lawyers and consultants with expertise in IP and China.

**Teaching Art** Rhian Brynjolson,2010 This resource is written for classroom teachers, art education specialists, childcare workers, artists working in schools, parents who home-school their children, and school administrators. It can also be used as a university textbook for Education students. The book provides a framework for teaching art in a way that is integrated with regular classroom practice and mindful of current art curriculum outcomes. Although the book focuses on art for primary and middle-school students from pre-school to grade eight, Teaching Art is also useful to art specialists at the high-school level who are looking for new strategies or project ideas to add to their established secondary programs. Revised and expanded from the author's previous resource, Art & Illustration. This resource integrates new developments in art education.

**Reply to Faustus the Manichæan** St. Augustine,A M Overett,2018-08-04 Written about the year 400. [Faustus was undoubtedly the acutest, most determined and most unscrupulous opponent of orthodox Christianity in the age of Augustin. The occasion of Augustin's great writing against him was the publication of Faustus' attack on the Old Testament Scriptures, and on the New Testament so far as it was at variance with Manichæan error. Faustus seems to have followed in the footsteps of Adimantus, against whom Augustin had written some years before, but to have gone considerably beyond Adimantus in the recklessness of his statements. The incarnation of Christ, involving his birth from a woman, is one of the main points of attack. He makes the variations in the genealogical records of the Gospels a ground for rejecting the whole as spurious. He supposed the Gospels, in their present form, to be not the works of the Apostles, but rather of later Judaizing falsifiers. The entire Old Testament system he treats with the utmost contempt, blaspheming the Patriarchs, Moses, the Prophets, etc., on the ground of their private lives and their teachings. Most of the objections to the morality of the Old Testament that are now current were already familiarly used in the time of Augustin. Augustin's answers are only partially satisfactory, owing to his imperfect view of the relation of the old dispensation to the new; but in the age in which they were written they were doubtless very effective. The writing is interesting from the point of view of Biblical criticism, as well as from that of polemics against Manichæism.--A.H.N.]
