Science in the Ancient World Russell M. Lawson, 2021-09-23 Science in the Ancient World presents a worldwide history of science, from prehistoric times through the medieval period. It covers Europe, Africa, Asia, and the Americas and includes topics ranging from alchemy and astrology to psychology and physics. This work spans prehistory to 1500 CE, examining thousands of years of history in four world regions: Asia, Africa, Europe, and the Americas. Highlights of this period include the onset of civilization and science in Mesopotamia and Egypt, the accomplishments of the ancient Greeks between 700 BCE and 100 CE, the adaptation of Greek science by the Romans, the spread of Greek science during the Hellenistic Age, the expansion of Islamic power and commensurate scientific knowledge, and the development of science and philosophy in ancient China and India. Focusing on the history of the science that blossomed in the above regions, scientific disciplines covered include alchemy, astronomy, astrology, agriculture, architecture, biology, botany, chemistry, engineering, exploration, geography, hydraulics, institutions of science, marine science, mathematics, medicine, meteorology, military science, myth and religion, philosophy, philosophy of science, psychology, physics, and social sciences. In all of these fields, theory and application are explored, as are leading individuals and schools of thought, centers of intellectual activity, and notable accomplishments and inventions.

**Modern Japan's Place in World History** Masayuki Yamauchi, Yuichi Hosoya, 2023-03-24 This Open Access book includes chapters on the key turning points in modern Japanese history from the Meiji Restoration to Japan-China diplomatic normalization in the 1970s and beyond. The topics covered include the First Sino-Japanese War, the Russo-Japanese War, the First and Second World Wars, the Manchurian Crisis, the US Occupation, postwar Japan-China relations, and postwar decolonization. Readers will learn how new research by Japanese historians has led to the revision of conventional views on the turbulent history of Japan, once the enemy of the United States in the war in the Asia-Pacific and now the US's closest ally in the region. Historical research on the modern history of Japan has been constantly updated. From the Meiji Restoration to the present day, Japan has experienced the effects of modernization and globalization. Recent historical inquiries in Japan tend to focus on the merging of modern history with global history. During the past 150 years, Japan

has never been separated from events in international affairs. Scholars and general readers will appreciate the new factual details and philosophical perspectives that this volume provides drawing on the work of fourteen authors who are recognized leaders in their fields. Yuichi Hosoya is Professor of International Politics at Keio University. Masayuki Yamauchi is Specially Appointed Professor at the Musashino University Institute for Global Affairs and Professor Emeritus, the University of Tokyo.

***Peace Without Consensus*** Dr Mary-Alice C Clancy, 2013-03-28 'Peace Without Consensus' demonstrates that the rise of Sinn Féin and the Democratic Unionist Party (DUP) was not 'inevitable'. Rather, it argues that critics who blame Northern Ireland's power-sharing institutions for the electoral triumph of the political 'extremes' in 2003 have not fully considered how the US, British and Irish governments contributed to this outcome. Through interviews with key US, British and Irish officials this groundbreaking analysis, which represents the first examination of the Bush administration's vital role in the peace process, demonstrates that Washington and Dublin were considering a deal between the DUP and Sinn Féin as early as 2002. Profiled in the Guardian, the Observer, BBC Radio Four, the Irish Independent and in Henry McDonald's 'Gunsmoke and Mirrors', Mary-Alice C. Clancy's theoretically informed and empirically grounded book presents new and salient lessons for other regions embroiled in conflict and should be read by all those interested in Northern Ireland's peace process and US foreign policy.

***Slí na Fírinne*** Brian Nugent, 2011-10 This English language book puts the traditional Catholic proofs of God's existence into a modern context. It covers most of the arguments raging in the theism v atheism debate and also includes quotes on the nature of God and his existence from c.80 philosophers and scientists.

***The European Union's Africa Policies*** Daniela Sicurelli, 2016-12-05 The European Union (EU) is a key partner for African regional organizations and a major promoter of economic and political integration in the region. Several studies have interpreted the EU's role in Africa as either a self-interested hegemonic actor or as a value oriented normative power. In this volume, Daniela Sicurelli challenges these views by taking a closer look at Europe's policies towards Sub-Saharan Africa in the area of peacekeeping, trade and development, and environmental protection. Using fresh empirical evidence, including interviews with both European and African officials, she argues that the EU is far from becoming a unitary player in Africa. Lacking a clear strategy and coherent normative framework, the EU should be considered a multi-level actor, where national and supranational institutions have different interests and push forward contrasting views of what role Europe should play in Africa. The ability of single institutions to frame an issue as requiring either intergovernmental or supranational procedures appears crucial for shaping the content of European Africa policies. An original contribution to the growing literature on the EU as an international actor, this book is extremely useful to scholars, researchers and policy-makers demanding critical work in the field of EU-Africa policy.

***Diagnosis and Improvement of Saline and Alkali Soils*** L. E. Allison, 1947

***An Enduring Framework for Assessing the Contributions of Force Structure to a Coercive Strategy*** Eric A. Beene, 2002 The US Department of Defense is still struggling to define itself in the post Cold War age, over a decade after the new period has begun. With a strategy and force structure review occurring on average every two years, the military has still not been able to generate a consistent basis on which to justify its force structure or its strategy. This paper uses a decision analysis framework as a foundation for creating such a basis. Instead of depending on leadership for guidance, which changes with destabilizing regularity, this paper relies on the theories of coercion that began in the Cold War era. These theories have particular value today, especially in light of the many innovations the nation has undertaken in the past decade. Modified and translated for modern conventional warfare, these theories form the basis for a framework of enduring requirements for any military force that undertakes a coercive strategy. This paper develops this framework to the operational level of analysis, and it is applied to two developmental air platforms, the Global Hawk Endurance Unmanned Aerial Vehicle and the Unmanned Combat Air Vehicle. The unique contributions of these two platforms become apparent using this framework, and the value of the framework is depicted as it points to areas for future improvement in these systems. Finally, the

paper makes a comparison between this framework and traditional analyses and strategy review processes, and it shows the unique and enduring value of this analytical framework for assessing the contributions of air power platforms.

Schwarzwald über 1000 m Christian Wagner,2023-12-21 Die Tausender sind das Sahnehäubchen auf dem Schwarzwald. Es gibt mehr davon, als man meinen möchte. 59 Wanderungen führen uns auf 1200 km abseits ausgetretener Pfade zu 642 Höhenpunkten über 1000 m. Wir erlauben uns, deren 162 als Gipfel zu bezeichnen. Wir legen jedoch weder ein geografisches Lehrbuch noch einen Wanderführer vor. Unser Wanderbericht dokumentiert vielmehr die Expedition in eine etwas andere Seite des Schwarzwalds.

**Framework for Equitable Allocation of COVID-19 Vaccine** National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Board on Health Sciences Policy,Committee on Equitable Allocation of Vaccine for the Novel Coronavirus,2020-11-30 In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. Vaccination against this novel coronavirus, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), offers the possibility of significantly reducing severe morbidity and mortality and transmission when deployed alongside other public health strategies and improved therapies. Health equity is intertwined with the impact of COVID-19 and there are certain populations that are at increased risk of severe illness or death from COVID-19. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. Framework for Equitable Allocation of COVID-19 Vaccine offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.

**Engaging the Line** Brandon R. Dimmel,2016-10-15 For decades, people living in communities along the Canada-US border enjoyed close social and economic relationships with their neighbours across the line. The introduction of new security measures during the First World War threatened this way of life by restricting the movement of people and goods across the border. Many Canadians resented the new regulations introduced by their provincial and federal governments, deriding them as "outside influences" that created friction where none had existed before. Engaging the Line examines responses to wartime regulations in six communities and offers a glimpse at the origins of

our modern, highly secured border.
