Understanding Teacher Learning in Professional Learning Communities in China Licui Chen,2023-07-07 Based on six-month fieldwork in a junior secondary school in Shanghai, this book qualitatively investigates the implementation of Teaching Research Groups (TRGs), a form of school-based Professional Learning Communities (PLCs) in China, and teachers’ different professional learning experiences within the structure of TRGs. The author situates teacher professional learning in TRGs within

broader historical, social, and cultural contexts and further suggests that the practice of TRGs reflects the Chinese approach of balancing the seemingly complex dualities (e.g., commitment and control, collaboration and authority, and individual and collective approaches) in educational settings. This book supplements the present knowledge base on PLCs in the context of China and thus enriches the global discussion on constructing effective PLCs for teacher professional learning. Scholars and students studying teacher professional learning and development, PLCs, school improvement, and Chinese schooling would find this book helpful.

Hog Manure Management, the Environment and Human Health Tiffany T.Y. Guan, Richard A. Holley, 2011-06-28 This volume provides a current look at how development of intensive live stock production, particularly hogs, has affected human health with respect to zoonotic diseases primarily transmitted by food but also by water, air and occupational activity. While information presented focuses on the development of increasing livestock production in Canada, examples are given and comparisons are made with other countries (Denmark, Taiwan, the Netherlands and the United States) where the levels of livestock production are much more intense and where the industry is more mature. Canada is also searching for solutions to enable handling the growing volume of its livestock waste properly. Lessons learned from the experience of those who have gone before are invaluable and are drawn together in this volume to serve as useful guidance for others in plotting the courses of action possible to avoid serious environmental setbacks and negative human health effects through foodborne illness. A significant portion of the text is devoted to a discussion of enteric illness in humans caused by zoonotic pathogens. The second chapter deals with survival of pathogens (which cause foodborne illness) in manure environments. An evaluation of the human health hazard likely to occur from the use of manure as fertilizer is important because of the recent trend toward an increase in

foodborne illness from the consumption of minimally processed fruits and vegetables that may have been fertilized with animal-derived organic materials.

Defenders of Japan Garren Mulloy, 2021-12-01 Japan's post-war armed forces are a paradox, both embarrassing remnants of the past and valuable repositories of experience. This book charts the development of the Japan Self-Defense Forces (JSDF) from 1954 as both unorthodox military institutions and servants of a civil society that decries militarism. Investigating JSDF contributions to Japanese and global security, the evolution of such contributions during and after the Cold War, and their possible reconfiguration for Japan's security needs ahead, Garren Mulloy offers insight into the Forces' past, present and future. He explores the characteristics and contradictions of Japanese policy, including novel approaches in response to an increasingly assertive China, the latent threat of North Korea and contributory pressure from the US. Though the American alliance remains the core of Japanese security, new partnerships and international overtures will also shape the Forces' place in Prime Minister Abe's new vision of 'proactive contributions to peace'. *Defenders of Japan* deconstructs how the JSDF have adapted and will continue to adapt within domestic norms, caught between unresolved legacies of Japan's imperial past and a dynamically shifting balance of future global power.

Re-enchanting Modernity Mayfair Yang, 2020-05-15 In *Re-enchanting Modernity* Mayfair Yang examines the resurgence of religious and ritual life after decades of enforced secularization in the coastal area of Wenzhou, China. Drawing on twenty-five years of ethnographic fieldwork, Yang shows how the local practices of popular religion, Daoism, and Buddhism are based in community-oriented grassroots organizations that create spaces for relative local autonomy and self-governance. Central to Wenzhou's religious civil society is what Yang calls a ritual economy, in which an ethos of generosity is expressed through donations to

temples, clerics, ritual events, and charities in exchange for spiritual gain. With these investments in transcendent realms, Yang adopts Georges Bataille's notion of ritual expenditures to challenge the idea that rural Wenzhou's economic development can be described in terms of Max Weber's notion of a Protestant Ethic. Instead, Yang suggests that Wenzhou's ritual economy forges an alternate path to capitalist modernity.

The Threat of Anarchy Leads to the Constitution of the United States Mary Mostert, 2005

A More Perfect Constitution Larry J. Sabato, 2010-07-23 The reader can't help but hold out hope that maybe someday, some of these sweeping changes could actually bring the nation's government out of its intellectual quagmire...his lively, conversational tone and compelling examples make the reader a more than willing student for this updated civics lesson. --The Hill The political book of the year, from the acclaimed founder and

director of the Center for politics at the University of Virginia. A More Perfect Constitution presents creative and dynamic proposals from one of the most visionary and fertile political minds of our time to reinvigorate our Constitution and American governance at a time when such change is urgently needed, given the growing dysfunction and unfairness of our political system . Combining idealism and pragmatism, and with full respect for the original document, Larry Sabato's thought-provoking ideas range from the length of the president's term in office and the number and terms of Supreme Court justices to the vagaries of the antiquated Electoral College, and a compelling call for universal national service-all laced through with the history behind each proposal and the potential impact on the lives of ordinary people. Aware that such changes won't happen easily, but that the original Framers fully expected the Constitution to be regularly revised, Sabato urges us to engage in the debate and discussion his ideas will surely engender. During an election year, no book is more relevant or significant than this.

The Science of Useful Nature in Central America Sophie Brockmann, 2020-09-17 Demonstrates the role of local and global scientific knowledge about landscapes and environment in shaping Central America.

Employment and Shared Growth Pierella Paci, Pieter Maria Serneels, 2007 There is one asset that poor people have in abundance: labor. Thus, what distinguishes the poor from the non-poor in low income countries is, simply, their ability to sell labor at a good price. It should be of little surprise, then, that enhancing the poor's access to employment is increasingly recognized as key to development. But while the creation of good jobs for the poor has become a policy priority for many developing countries, the mechanisms by which employment stimulates growth and reduces poverty have, until now, not been well understood. This book aims to help fill that.

Ethnic Conflict and Protest in Tibet and Xinjiang Ben Hillman, Gray Tuttle, 2016-04-05 Despite more than a decade of rapid economic development, rising living standards, and large-scale improvements in infrastructure and services, China's western borderlands are awash in a wave of ethnic unrest not seen since the 1950s. Through on-the-ground interviews and firsthand observations, the international experts in this volume create an invaluable record of the conflicts and protests as they have unfolded—the most extensive chronicle of events to date. The authors examine the factors driving the unrest in Tibet and Xinjiang and the political strategies used to suppress them. They also explain why certain areas have seen higher concentrations of ethnic-based violence than others. Essential reading for anyone struggling to understand the origins of unrest in contemporary Tibet and Xinjiang, this volume considers the role of propaganda and education as generators and sources of conflict. It links interethnic strife to economic growth and connects environmental degradation to increased instability. It captures the subtle

difference between violence in urban Xinjiang and conflict in rural Tibet, with detailed portraits of everyday individuals caught among the pressures of politics, history, personal interest, and global movements with local resonance.

Dawn and Sunset Michael Baizerman, 2015-01-26 Dawn and Sunset tells the story of the earliest urban communities on earth that mushroomed in Mesopotamia throughout the fourth and third millennia BCE. The study of Sumerian society teaches a lesson about our own times as the roots of modern civilization have grown from that setting. The writer researches various aspects of the ancient city-state: its religion, administration, bureaucracy, agriculture, arts and crafts, foreign trade, laws, social classes, and warfare—a real gift for those who love the history of mankind and the Ancient Near East. Dawn and Sunset is a well researched, nicely written, and organized account of early Mesopotamian history. Clarion Review Baizerman captures the mechanics of the spectacular rise of a glorious civilization. BlueInk Review He provides a vivid impression of what life must have been like in this vanished world to which modern life finds many similarities. Kirkus Reviews

Superpower, China? Niv Horesh, Hyun Jin Kim, Peter Mauch, 2014-10-27 This book sets out to answer how China's rise can best be understood from both East Asian and Western perspectives. It also assesses the prospect of realignment away from the US hegemony in East Asia in light of persistent regional rivalries. Throughout the book, the authors show that for China's neighbours, as well as for its own intellectuals, historicizing the country's rise provides one way of understanding its current ascendant trajectory, on the one hand, and acute social problems, on the other. To which historical precedent should one turn? Did Japanese Prime Minister Abe Shinzo get it right when he recently likened the contemporary Sino-Japanese relationship to that of Germany and Britain on the eve of World War I? Is Harvard Law School's Noah Feldman correct in his assertion that China and

the United States are on the verge not of a Cold War but of a "Cool War," in which a "classic struggle for power is unfolding at the same time as economic cooperation is becoming deeper? The authors examine these questions and also focus on other observations that becloud China's rise. The Mortuary Papyrus of Padikakem Yekaterina

Barbash,2011-12-31 This new study is the first translation of the papyrus of Padikakem, with an extensive commentary. The complete early Ptolemaic manuscript from the Walters Art Museum contains two uncommon texts in hieratic. The initial text, a Ritual of Introducing the Multitude on the Last Day of Tekh, is identified as a temple liturgy by its rubric title, while its themes recall love poetry and the Lamentations of Isis and Nephthys. The second text, a rarely attested Book III of glorification spells (sakhw) has an exclusively mortuary character. The spells of this section largely originate in the Pyramid Texts and include specific instructions for recitation by the lector priest. The two texts are established as a coherent composition that belongs to the Greco-Roman tradition of merging Egyptian funerary practices with temple liturgies. The diverse sources and themes of the texts shed light on the evolution of Osirian and mortuary theologies from the Old Kingdom onwards. The study also thoroughly examines the development of grammar and paleography among the parallels.
