Connecticut Vanguards Eric D. Lehman,2018-03-26 Author Eric D. Lehman chronicles the lives of two dozen men and women who left their marks on Connecticut and the world as a whole. Noah Webster, Charles Goodyear, P.T. Barnum and Katharine Hepburn all have Connecticut in common. Like so many other residents, they had an inventive spirit and drive that changed the course of history for the rest of the state. Some of the state's natives, like Eli Whitney and Henry C. Lee, pioneered new methods. Prudence Crandall and Helen Keller championed the rights of the underprivileged. Some, like Frederick Law Olmsted and Sol LeWitt, changed our perception of the world.

Women's Emancipation Writing at the Fin de Siecle Elena V. Shabliy,Dmitry Kurochkin,O'Donnell Karen,2018-12-07 This work investigates women's emancipation writing in the second half of the nineteenth and the early twentieth centuries. Many novelists in various national literatures touched upon the theme of an emancipated woman in the long nineteenth century and at the fin de siècle. Philosophers, poets, writers, and journalists were concerned with this problem and began popularizing wholeheartedly the so-called burning questions. The new femininity was represented not only in the Christian context; many other traditions and cultures opened the discussion about the women's lot. This volume analyzes women's literary voices from different parts of the world—Turkey, England, the U.S., Italy, Russia, Spain, and others. Imagination, as it is believed, has no borders and is dialogical in its nature.

Weaponizing EU State Aid Law to Impact the Future of EU Investment Policy in the Global Context Pamela Finckenberg-Broman,2022-09-28 This book provides a comprehensive analysis of how EU state aid law is shaping the future of EU investment policy in a global context. It examines in detail how EU state aid policy and practice interact with the EU investment regime on the internal market and affect the external trade relations of the Member States and the EU alike. The debate this book engages in concerns competence, i.e., which body delineates the scope of state aid law and policy (now and in the future) when and where it intersects and collides with another distinct legal field: investment protection. Pursuing a doctrinal approach to the topic in the light of EU law and international law, the book analyses the interaction of the EU's trade, state aid and investment policy. This is done by posing the following research question: How is EU state aid law shaping the future of EU investment policy in a global context? Further, the book puts forward three corresponding arguments. First, this influence can be seen in the EU's incorporation of clauses promoting fair competition and state aid policy in international trade agreements. Second, EU state aid law and policy contributed to recent internal developments which led the Member States to terminate their bilateral agreements with each other (intra-EU BITs) by the end of 2019. Third, the EU has been working to replace the BITs between its Member States and third countries (extra-EU BITs) with its own trade agreements, which are aligned with EU legislation. This combined analysis of EU law and international law yields a number of interesting conclusions. The book addresses a highly topical and rapidly evolving area of EU law and international investment law. It is also the first book to provide a comprehensive approach to the interplay of state aid rules and EU investment policy internally and externally, i.e., within the EU and on a global scale. As such, it closes an important gap in the extant literature on international and EU law.

Public Law after the Human Rights Act Tom Hickman,2010-05-20 It is remarkable that 10 years after the Human Rights Act came into effect, and with further reform possible, there are still no clear answers to basic questions about the relationship between the Human Rights Act, human rights principles and the common law. Such basic questions include: what is the Human Rights Act? What is the relationship between human rights principles and common law doctrines in public law? Do traditional public law principles need to be replaced? How has the Human Rights Act altered the constitutional relationship between the courts, government and Parliament in the UK? *Public Law After the Human Rights Act* proposes answers to these questions. Unlike other books on the Human Rights Act, the book looks beyond the Human Rights Act itself to its effect on public law as a whole. The book articulates in novel ways the relationship between the Act and administrative and constitutional law. It suggests that the Human Rights Act has built on the common law constitution. The discussion focuses on core topics in modern public law, including, the constitutional status of the Human Rights Act; the relationship between human rights and the common law; the Human Rights Act's effect on central doctrines of public law such as reasonableness, proportionality and process review; the structure of public law in the human rights era; derogation and emergencies; and the right of access to a court. Winner of the Inner Temple Young Author Book Prize 2011.
