Proceedings of the 1st International Conference on Smart Innovation, Ergonomics and Applied Human Factors (SEAHF) César Benavente-Peces,Sami Ben Slama,Bassam Zafar,2019-06-20 This book addresses a range of real-world issues including industrial activity, energy management, education, business and health. Today, technology is a part of virtually every human activity, and is used to support, monitor and manage equipment, facilities, commodities, industry, business, and individuals' health, among others. As technology evolves, new applications, methods and techniques arise, while at the same time citizens' expectations from technology continue to grow. In order to meet the nearly insatiable demand for new applications, better performance and higher reliability, trustworthiness, security, and power consumption efficiency, engineers must deliver smart innovations, i.e., must develop the best techniques, technologies and services in a way that respects human beings and the environment. With that goal in mind, the key topics addressed in this book are: smart technologies and artificial intelligence, green energy systems, aerospace engineering/robotics and IT, information security and mobile engineering, IT in bio-medical engineering and smart agronomy, smart marketing, management and tourism policy, technology and education, and hydrogen and fuel-cell energy technologies.

Inclusive Technology Enhanced Learning Don Passey,2013-10-30 Inclusive Technology Enhanced Learning draws together a remarkable breadth of research findings from across the field, providing useful data on the power of technology to solve cognitive, physical, emotional or geographic challenges in education. A far-ranging assessment, this book combines research, policy, and practical evidence to show what digital technologies work best for which learners and why. Inclusive Technology Enhanced Learning takes a number of unique perspectives, looking at uses of digital technologies through a detailed learning framework; considering different groups of users and how they can be individually supported through digital technologies; and exploring how those who support different categories of learners can apply technologies to their specific support needs. This powerful meta-analysis of research on technology enhanced learning will be invaluable reading for anyone concerned with the impacts of digital technologies on learning across subject areas, age ranges, and levels of ability.

Part II: mobile interaction; facial expressions and emotions recognition; eye-gaze, gesture and motion-based interaction; and interaction in virtual and augmented reality. Part III: design for social challenges; design for culture and entertainment; design for intelligent urban environments; and design and evaluation case studies.

101 Life Skills Games for Children Bernie Badegruber,2011-01-01 How do you teach tolerance, self-awareness, and responsibility? How can you help children deal with fear, mistrust, or aggression? Play a game with them! Games are an ideal way to help children develop social and emotional skills; they are exciting, relaxing, and fun. 101 LIFE SKILLS GAMES FOR CHILDREN: LEARNING, GROWING, GETTING ALONG (Ages 6-12) is a resource that can help children understand and deal with problems that arise in daily interactions with other children and adults. These games help children develop social and emotional skills and enhance self-awareness. The games address the following issues: dependence, aggression, fear, resentment, disability, accusations, boasting, honesty, flexibility, patience, secrets, conscience, inhibitions, stereotypes, noise, lying, performance, closeness, weaknesses, self confidence, fun, reassurance, love, respect, integrating a new classmate, group conflict. Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. It specifies an objective for every game, gives step-by-step instructions, and offers questions for reflection. It provides possible variations for each game, examples, tips, and ideas for role plays. Each game contains references to appropriate follow-up games and is illustrated with charming drawings.

Neuropsychological Interventions Paul J. Eslinger,2002-02-08 This volume brings together leading clinical investigators to describe effective interventions for a wide range of neuropsychological impairments. Coverage includes cognitive impairments -- problems with attention, learning and memory, visuoperception, language, apraxia, and executive functions -- as well as neurologically based social and emotional difficulties. Presented is a framework for developing, delivering, and evaluating services that target these specific areas of functioning while promoting the individual's overall adaptation and recovery. Chapters also address the importance of multidimensional assessment, provide best practice guidelines for clinical research, and discuss the role of pharmacotherapy in cognitive rehabilitation.

Responses to Cyber Terrorism ,2008 The one issue touched on repeatedly by the contributors of this publication is the difficulty of arriving at a definition of cyber terrorism. A NATO Office of Security document cautiously defines it as a cyber attack using or exploiting computer or communication networks to cause sufficient destruction or disruption to generate fear or to intimidate a society into an ideological goal. But the cyber world is surely remote from what is recognized as terrorism: the bloody attacks and ethnic conflicts, or, more precisely, the politically-motivated intention to cause death or serious bodily h.

Heaven No Hell Michael DeForge,2021-02-16 One of the most inventive and prolific cartoonists working today.—Vulture In the past ten years, Michael DeForge has released eleven books. While his style and approach have evolved, he has never wavered from taut character studies and incisive social commentary with a focus on humor. He has deeply probed subjects like identity, gentrification, fame, and sexual desire. In "No Hell," an angel's tour of the five tiers of heaven reveals her obsession with a haunting infidelity. In "Raising," a couple uses an app to see what their unborn child would look like. Of course, what begins as a simple face-melding experiment becomes a nightmare of too-much-information where the young couple is forced to confront their terrible choices. "Recommended for You" is an anxious retelling of our narrator's favorite TV show—a Purge-like societal collapse drama—as a reflection of our desire for meaning in pop culture. Each of these stories shows the inner turmoil of an ordinary person coming to grips with a world vastly different than their initial perception of it. The humor is searing and the emotional weight lingers long after the story ends. Heaven No Hell collects DeForge's best work yet. His ability to dig into a subject and break it down with beautiful

drawings and sharp writing makes him one of the finest short story writers of the past decade, in comics or beyond. Heaven No Hell is always funny, sometimes sad, and continuously innovative in its deconstruction of society.

Cyber Criminology Hamid Jahankhani,2018-11-27 This book provides a comprehensive overview of the current and emerging challenges of cyber criminology, victimization and profiling. It is a compilation of the outcomes of the collaboration between researchers and practitioners in the cyber criminology field, IT law and security field. As Governments, corporations, security firms, and individuals look to tomorrow's cyber security challenges, this book provides a reference point for experts and forward-thinking analysts at a time when the debate over how we plan for the cyber-security of the future has become a major concern. Many criminological perspectives define crime in terms of social, cultural and material characteristics, and view crimes as taking place at a specific geographic location. This definition has allowed crime to be characterised, and crime prevention, mapping and measurement methods to be tailored to specific target audiences. However, this characterisation cannot be carried over to cybercrime, because the environment in which such crime is committed cannot be pinpointed to a geographical location, or distinctive social or cultural groups. Due to the rapid changes in technology, cyber criminals' behaviour has become dynamic, making it necessary to reclassify the typology being currently used. Essentially, cyber criminals' behaviour is evolving over time as they learn from their actions and others' experiences, and enhance their skills. The offender signature, which is a repetitive ritualistic behaviour that offenders often display at the crime scene, provides law enforcement agencies an appropriate profiling tool and offers investigators the opportunity to understand the motivations that perpetrate such crimes. This has helped researchers classify the type of perpetrator being sought. This book offers readers insights into the psychology of cyber criminals, and understanding and analysing their motives and the methodologies they adopt. With an understanding of these motives, researchers, governments and practitioners can take effective measures to tackle cybercrime and reduce victimization.

The Magic Drum and Other Favourite Stories Sudhā Mūrti,2006 A princess thinks she was a bird, a coconut that cost a thousand rupees, and a shepherd with a bag of words...Kings and misers, princes and paupers, wise men and foolish boys, the funniest and oddest men and women come alive in this sparkling new collection of stories. The clever princess will only marry the man who can ask her a question she cannot answer; the orphan boy outwits his greedy uncles with a bag of ash; and an old couple in distress is saved by a magic drum. Sudha Murty's grandparents told her some of these stories when she was a child; others she heard from her friends from around the world. These delightful and timeless folktales have been her favourites for years, and she has recounted them many times over to the young people in her life. With this collection, they will be enjoyed by many more readers, of all ages. Age group of target audience is 8+.

Duty and Desire Book Club Edition Anju Gattani,2021-01-27 To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.sion.

Not by Fire But by Ice Robert W. Felix,2000 The next ice age could begin any day! Next week, next month, next year, it's not a question of if, only when. One day you'll wake up--or won't wake up, rather--buried beneath nine stories of snow as the climate of Greenland descends on Canada, Britain, Norway, and most of the north ...practically overnight. It's all part of a dependable, predictable, natural cycle that returns like clockwork every 11,500 years. Book jacket.

Letters at 3am Michael Ventura,1993 I'd rather have one or two of his whiplashing essays in my hands than almost any tome of philosophy. -- Thomas Moore
