Analyzing American Democracy Jon R. Bond, Kevin B. Smith, 2013-05-29 Analyzing American Democracy teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as both an introduction to American politics and to the discipline of political science by reflecting the theoretical developments and empirical inquiry conducted by researchers. Every chapter highlights the most current research and discusses related public policy. It demonstrates for students how to think critically and analytically, bringing theoretical insight to contemporary American politics. More than just a comprehensive overview and description of how American politics works, Jon Bond and Kevin Smith demonstrate how politics can be studied systematically. Throughout the text, they introduce students to the insights gleaned from rational choice, behavioral, and biological approaches to politics. Understanding these three social scientific models and their applications helps students get the most out of their American government course and out of this text--they learn a way of thinking that they can use to make sense of future challenges facing the American polity. A number of features help aid comprehension and critical thinking: Key Questions at the start of every chapter frame the learning objectives and concepts Politics in Practice boxes in every chapter encourage students to think critically about how practice compares with theory Tables, Figures, Charts, and Maps throughout present the empirical details of American politics, helping students gain quantitative literacy Top Ten Takeaway Points at the end of every chapter recap the most important points covered but also help students discern the general principles that make sense of the numerous factual details Key Terms are bolded in the text, defined in the margins, recapped at the end of the chapter, and compiled in a glossary, all to help insure that students can effortlessly master the vocabulary of American politics and political science in order to move on to the more important concepts.

The Hacker's Dictionary Eric S. Raymond, 2017-06-19 This document is a collection of slang terms used by various subcultures of computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

Evolutionary Perspectives on Child Development and Education David C. Geary, Daniel B. Berch, 2016-04-26 This stimulating volume assembles leading scholars to address issues in children's cognitive, academic, and social development through the lens of evolutionary psychology. Debates and controversies in the field highlight the potential value of this understanding, from basic early learning skills through emerging social relationships in adolescence, with implications for academic outcomes, curriculum development, and education policy. Children's evolved tendency toward play and exploration fuels an extended discussion on child- versus adult-directed learning, evolutionary bases are examined for young learners' moral development, and contemporary theories of learning and memory are viewed from an evolutionary perspective. Along the way, contributors' recommendations illustrate real-world uses of evolution-based learning interventions during key developmental years. Among the topics covered: The adaptive value of cognitive immaturity: applications of evolutionary developmental psychology to early education Guided play: a solution to the play versus learning dichotomy Adolescent bullying in schools: an evolutionary perspective Fairness: what it isn't, what it is, and what it might be for Adapting evolution education to a warming climate of teaching and learning The effects of an evolution-informed school environment on student performance and wellbeing Evolutionary Perspectives on Child Development and Education will interest researchers and graduate students working in diverse areas such as evolutionary psychology, cultural anthropology, human ecology, developmental psychology, and educational psychology. Researchers in applied developmental science and early education will also find it useful.

The Old Stones Andy Burnham, 2018-09-18 Winner of Current Archaeology's Book of the Year Discover the iconic standing stones and prehistoric sites of England, Wales, Scotland, and Ireland--this comprehensive, coffee table travel guide features over 750 must-see destinations, with maps and color photographs The ultimate insiders' guide, The Old Stones gives unparalleled insight into where to find prehistoric sites and how to understand them, by drawing on the knowledge, expertise and passion of the archaeologists, theorists, photographers and stones aficionados who contribute to the world's biggest megalithic website--the Megalithic Portal. Including over 30 maps and site plans and hundreds of color photographs, it also contains scores of articles by a wide range of contributors--from archaeologists and archaeoastronomers to dowzers and geomancers--that will change the way you see these amazing survivals from our distant past. Locate over 1,000 of Britain and Ireland's most atmospheric prehistoric places, from recently discovered moorland circles to standing stones hidden in housing estates.

Discover which sites could align with celestial bodies or horizon landmarks. Explore acoustic, color, and shadow theory to get inside the minds of the Neolithic and Bronze Age people who created these extraordinary places. Find out which sites have the most spectacular views, which are the best for getting away from it all and which have been immortalized in music. And don't forget to visit the Megalithic Portal website and get involved by posting your discoveries online. All royalties from this book go to support the running of the Megalithic Portal:

Minds Without Meanings Jerry A. Fodor, Zenon W. Pylyshyn, 2015 Two prominent thinkers argue for the possibility of a theory of concepts that takes reference to be concepts' sole semantic property. In cognitive science, conceptual content is frequently understood as the "meaning" of a mental representation. This position raises largely empirical questions about what concepts are, what form they take in mental processes, and how they connect to the world they are about. In *Minds without Meaning*, Jerry Fodor and Zenon Pylyshyn review some of the proposals put forward to answer these questions and find that none of them is remotely defensible. Fodor and Pylyshyn determine that all of these proposals share a commitment to a two-factor theory of conceptual content, which holds that the content of a concept consists of its sense together with its reference. Fodor and Pylyshyn argue instead that there is no conclusive case against the possibility of a theory of concepts that takes reference as their sole semantic property. Such a theory, if correct, would provide for the naturalistic account of content that cognitive science lacks—and badly needs. Fodor and Pylyshyn offer a sketch of how this theory might be developed into an account of perceptual reference that is broadly compatible with empirical findings and with the view that the mental processes effecting perceptual reference are largely preconceptual, modular, and encapsulated.

The Strange Hours Travelers Keep August Kleinzahler, 2014-09-09 Those aren't stars, darling That's your nervous system Nanna didn't take you to planetariums like this --from *Hyper-Berceive*: 3 A.M. August Kleinzahler's new poems stretch and go places he has never gone before: they have his signature high color and rhythmic jump, but they take on a breadth of voice and achieve registers that his earlier work only hinted at. Ranging from Vegas and Mayfair to the Asian steppes and contemporary Berlin, these poems touch down at will in tableaux where Liberace unceremoniously meets with St. Kevin and Attila with Zsa Zsa Gabor. Surprise after surprise, nothing seems to lie outside Kleinzahler's purview. This is the strongest collection to date from a poet with the vision and confident skill to make American poetry new (Clive Wilmer, *The Times* [London]).

Urban Planning in the Global South Richard de Satgé, Vanessa Watson, 2018-03-08 This book addresses the on-going crisis of informality in rapidly growing cities of the global South. The authors offer a Southern perspective on planning theory, explaining how the concept of conflicting rationalities complements and expands upon a theoretical tradition which still primarily speaks to global 'Northern' audiences. De Satgé and Watson posit that a significant change is needed in the makeup of urban planning theory and practice - requiring an understanding of the 'conflict of rationalities' between state planning and those struggling to survive in urban informal settlements - for social conditions to improve in the global South. Ethnography, as illustrated in the book's case study - Langa, a township in Cape Town, South Africa - is used to arrive at this conclusion. The authors are thus able to demonstrate how power and conflict between the ambitions of state planners and shack-dwellers, attempting to survive in a resource-poor context, have permeated and shaped all state-society engagement in this planning process.

Supplemental Nutrition Assistance Program - Nutrition Education and Obesity Prevention Grant Program (Us Food

and Nutrition Service Regulation) (Fns) (2018 Edition) The Law The Law Library,2018-10-15 Supplemental Nutrition Assistance Program - Nutrition Education and Obesity Prevention Grant Program (US Food and Nutrition Service Regulation) (FNS) (2018 Edition) The Law Library presents the complete text of the Supplemental Nutrition Assistance Program - Nutrition Education and Obesity Prevention Grant Program (US Food and Nutrition Service Regulation) (FNS) (2018 Edition). Updated as of May 29, 2018 This rule amends Supplemental Nutrition Assistance Program (SNAP) regulations to implement Section 28 of the Food and Nutrition Act (FNA or the Act) of 2008, as added by Section 241 of the Healthy, Hunger-Free Kids (HHFK) Act of 2010, to award grants to States for provision of nutrition education and obesity prevention programs. These programs will provide services for eligible individuals that promote healthy food choices consistent with the current Dietary Guidelines for Americans (DGAs). This rule provides State agencies with requirements for implementing Section 28 including the grant award process and describes the process for allocating the 100 percent Federal grant funding authorized under the Act to carry out nutrition education and obesity prevention services each fiscal year. This book contains: - The complete text of the Supplemental Nutrition Assistance Program - Nutrition Education and Obesity Prevention Grant Program (US Food and Nutrition Service Regulation) (FNS) (2018 Edition) - A table of contents with the page number of each section

Face to Face with Distress Peter Griffiths,Diane Wells,Elizabeth Barnes,1998 How can professionals manage the boundary between personal involvement and professional detachment when faced constantly by people in distress? The authors explore a broad range of perspectives on this question, from philosophical enquiry to the dilemmas of everyday practice. They draw on a common experience of psychosocial nurse training at the Cassel Hospital - a therapeutic community based on psychodynamic ideas and experiential learning. Now, writing from a variety of different settings, they show how personal feelings can provide a key to understanding and containing the emotional needs of people in distress. They demonstrate the central role of shared reflection with colleagues for developing skills, practical theories and theory-based practice. This book is for all practitioners concerned with the provision of high quality psychosocial care to individuals, families, groups and organisations. It will be a valuable resource for students undertaking diploma and degree courses in nursing, health and social care, and for the providers of such courses. It will also be of interest to researchers and managers.

The Annenbergs John E. Cooney,1982 This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king, ' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain.--Jacket.
