2010 ADA Standards for Accessible Design Department Justice, 2014-10-09 (a) Design and construction. (1) Each facility or part of a facility constructed by, on behalf of, or for the use of a public entity shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by individuals with disabilities, if the construction was commenced after January 26, 1992. (2) Exception for structural impracticability. (i) Full compliance with the requirements of this section is not required where a public entity can demonstrate that it is structurally impracticable to meet the requirements. Full compliance will be considered structurally impracticable only in those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features. (ii) If full compliance with this section would be structurally impracticable, compliance with this section is required to the extent that it is not structurally impracticable. In that case, any portion of the facility that can be made accessible shall be made accessible to the extent that it is not structurally impracticable. (iii) If providing accessibility in conformance with this section to individuals with certain disabilities (e.g., those who use wheelchairs) would be structurally impracticable, accessibility shall nonetheless be ensured to persons with other types of disabilities, (e.g., those who use crutches or who have sight, hearing, or mental impairments) in accordance with this section.

Carbon-free and Nuclear-free Arjun Makhijani, 2007 In a world confronting global climate change, political turmoil among oil exporting nations, nuclear weapons proliferation, nuclear plant safety and waste disposal issues, the United States must assume a leadership role in moving to a zero-CO₂-emissions energy economy. At the same time America needs to take the lead in reducing the world's reliance on nuclear power. This breakthrough joint study by the Institute for Energy and Environmental Research and the Nuclear Policy Research Institute shows how our energy needs can be met by alternative sources, as wind, solar, hydrogen, biomass, microalgae, geothermal and wave power are all part of the solution. Must reading for everyone concerned with energy politics and the planet's future, Carbon-Free is already making headlines.

The Future of Ideas Lawrence Lessig,2002-10-22 The Internet revolution has come. Some say it has gone. In *The Future of Ideas*, Lawrence Lessig explains how the revolution has produced a counterrevolution of potentially devastating power and effect. Creativity

once flourished because the Net protected a commons on which widest range of innovators could experiment. But now, manipulating the law for their own purposes, corporations have established themselves as virtual gatekeepers of the Net while Congress, in the pockets of media magnates, has rewritten copyright and patent laws to stifle creativity and progress. Lessig weaves the history of technology and its relevant laws to make a lucid and accessible case to protect the sanctity of intellectual freedom. He shows how the door to a future of ideas is being shut just as technology is creating extraordinary possibilities that have implications for all of us. Vital, eloquent, judicious and forthright, *The Future of Ideas* is a call to arms that we can ill afford to ignore.

Introduction to Industrial Polypropylene Dennis B. Malpass, Elliot Band, 2012-07-02 This introductory text is an important resource for new engineers, chemists, students, and chemical industry personnel to understand the technical aspects of polypropylene which is the 2nd largest synthetic polymer in manufactured output. The book considers the following topics: What are the principal types of polypropylene and how do they differ? What catalysts are used to produce polypropylene and how do they function? What is the role of cocatalysts and how have they evolved over the years? How are industrial polypropylene catalysts tested and the resultant polymer evaluated? What processes are used in the manufacture of polypropylene? What are the biopolymer alternatives to polypropylene? What companies are the major industrial manufacturers of polypropylene? What is the environmental fate of polypropylene?

In Pursuit of Justice Richard B. Zabel, James J. Benjamin, Human Rights First (Organization), 2008 In recent years, there has been much controversy about the proper forum in which to prosecute and punish suspected terrorists. Some have endorsed aggressive use of military commissions; others have proposed an entirely new national security court. However, as the nation strives for a vigorous and effective response to terrorism, we should not lose sight of the important tools that are already at our disposal, nor should we forget the costs and risks of seeking to break new ground by departing from established institutions and practices. As this White Paper shows, the existing criminal justice system has proved successful at handling a large number of important and challenging terrorism prosecutions over the past fifteen years-without sacrificing national security interests, rigorous standards of fairness and due process, or just punishment for those guilty of terrorism-related crimes.

Evaluation of the Department of Veterans Affairs Mental Health Services National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee to Evaluate the Department of Veterans Affairs Mental Health Services, 2018-03-29 Approximately 4 million U.S. service members took part in the wars in Afghanistan and Iraq. Shortly after troops started returning from their deployments, some active-duty service members and veterans began experiencing mental health problems. Given the stressors associated with war, it is not surprising that some service members developed such mental health conditions as posttraumatic stress disorder, depression, and substance use disorder. Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental healthâ€related outcomesâ€in particular, suicideâ€at a higher rate than the general population. This report provides a comprehensive assessment of the quality, capacity, and access to mental health care services for veterans who served in the Armed Forces in Operation Enduring Freedom/Operation Iraqi Freedom/Operation New Dawn. It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs, but also barriers faced by patients in utilizing those services.

Chart No. 1 Nima, 2010 Chart Number One is essential to correct and accurate use of nautical charts. More than a chart, it is a book that defines the symbols, abbreviations and terms used on charts. It also provides important information about buoys, light visibility (range) and aids to navigation. This new and improved edition from Paradise Cay is a

complete and accurate high quality reproduction of information provided by NOAA and NIMA.

The Popes, the Catholic Church and the Transatlantic Enslavement of Black Africans 1418-1839 Pius Onyemechi Adiele, 2017-09-01 Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that

the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of study have proved the contrary to be true. The Church and her Popes were rather among the major “role players” in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studious but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. He obtained his licentiate in Theology from the famous University of Münster and his doctoral degree in Church History from the renowned University of Tübingen in Germany. At present, he is a research fellow in the areas of African Church History and Enslavement of peoples as well as the pastor in charge of the merged parishes of Lauchheim, Westhausen, Lippach, Röttingen and Hülen in Germany.

Infantry Attacks Erwin Rommel, Gary Sheffield, 2023-11-30
Legendary German general Erwin Rommel analyzes the tactics that led to his success. Field Marshal Erwin Rommel exerted an almost hypnotic influence not only over his own troops but also over the Allied soldiers of the Eighth Army in the Second World War. Even when the legend surrounding his

invincibility was overturned at El Alamein, the aura surrounding Rommel himself remained unsullied. In this classic study of the art of war Rommel analyses the tactics that lay behind his success. First published in 1937 it quickly became a highly regarded military textbook, and also brought its author to the attention of Adolph Hitler. Rommel was to subsequently advance through the ranks to the high command in the Second World War. As a leader of a small unit in the First World War, he proved himself an aggressive and versatile commander with a reputation for using the battleground terrain to his own advantage, for gathering intelligence, and for seeking out and exploiting enemy weaknesses. Rommel graphically describes his own achievements, and those of his units, in the swift-moving battles on the Western Front, in the ensuing trench warfare, in the 1917 campaign in Romania, and in the pursuit across the Tagliamento and Piave rivers. This classic account seeks out the basis of his astonishing leadership skills, providing an indispensable guide to the art of war.

Interagency Report on the Status of International Cybersecurity

Standardization for the Internet of Things (IoT) Mike Hogan, 2018 The Interagency International Cybersecurity Standardization Working Group (IICS WG) was established in December 2015 by the National Security Council's Cyber Interagency Policy Committee. Its purpose is to coordinate on major issues in international cybersecurity standardization and thereby enhance U.S. federal agency participation in the process. Effective U.S. Government participation involves coordinating across the federal government and working with the U.S. private sector. The U.S. relies more heavily on the private sector for standards development than do many other countries. Companies and industry groups, academic institutions, professional societies, consumer groups, and other interested parties are major

contributors to this process. Further, the many Standards Developing Organizations (SDOs) which provide the infrastructure for the standards development are overwhelmingly private sector organizations. On April 25, 2017, the IICS WG established an Internet of Things (IoT) Task Group to determine the current state of international cybersecurity standards development for IoT. This report is intended for use by the working group member agencies to assist them in their standards planning and to help coordinate U.S. Government participation in international cybersecurity standardization for IoT. Other organizations may also find this document useful in their planning.
