Critical Point of View Geert Lovink,Nathaniel Tkacz,2011 For millions of internet users around the globe, the search for new knowledge begins with Wikipedia. The encyclopedia's rapid rise, novel organization, and freely offered content have been marveled at and denounced by a host of commentators. This book moves beyond unflagging praise, well-worn facts, and questions about its reliability and accuracy, to unveil the complex, messy, and controversial realities of a distributed knowledge platform. The essays, interviews and artworks brought together in this reader form part of the overarching 'Critical Point of View' research initiative, which began with a conference in Bangalore (January 2010), followed by events in Amsterdam (March 2010) and Leipzig (September 2010). With an emphasis on theoretical reflection, cultural difference and indeed, critique, contributions to this collection ask: What values are embedded in Wikipedia's software? On what basis are Wikipedia's claims to neutrality made?

How to Write a Children's Picture Book Volume I: Structure Eve Heidi Bine-Stock,2017-02-13 Recommended by writing instructors and award-winning authors. This volume emphasizes an aspect of children's picture books that has not yet been thoroughly investigated: structure. Both concept books and picture storybooks employ very distinctive structures that, once mastered, can be applied to any picture book you wish to write. When so many of the best picture books employ the same structures, it is important to analyze these structures, understand why they work, and learn how to incorporate them into your own writing. This volume helps you do all that. You will see that no matter how carefully you labor over the tone, word choice, plot, character, setting, theme and style of your picture book, you must have a thorough grasp of its structure if you wish your book to succeed. Indeed, you will find that an expert command of structure is the key to writing a successful children's picture book.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.
