Fictional Minds Alan Palmer,2004-01-01 Readers create a continuing consciousness out of scattered references to a particular character and read this consciousness as an embedded narrative within the whole narrative of the novel. The combination of these embedded narratives forms the plot. This perspective on narrative enables us to explore hitherto neglected aspects of fictional minds such as dispositions, emotions, and action. It also highlights the social public and dialogic mind and the mind beyond the skin. For example much of our thought is intermental, or joint, group or shared; even our identity is to an extent socially distributed..

Distinguished Figures in Mechanism and Machine Science Marco Ceccarelli,2014-05-21 This book is composed of chapters that focus specifically on technological developments by distinguished figures in the history of MMS (Mechanism and Machine Science). Biographies of well-known scientists are also included to describe their efforts and experiences and surveys of their work and achievements and a modern interpretation of their legacy are presented. After the first two volumes, the papers in this third volume again cover a wide range within the field of the History of Mechanical Engineering with specific focus on MMS and will be of interest and motivation to the work (historical or not) of many.

Learning by Heart Tony Wagner,2021-04-06 “A page turner. With candor and clarity, Tony Wagner tells the story of his remarkable life and, in so doing, tells the story of our education system.” –Angela Duckworth, Founder and CEO, Character Lab, and New York Times bestselling author of *Grit* One of the world's top experts on education delivers an uplifting memoir on his own personal failures and successes as he sought to become a good learner and teacher. Tony Wagner is an eminent education specialist: he has taught at every grade level from high school through graduate school; worked at Harvard; done significant work for the Bill & Melinda Gates Foundation; and speaks across the country and all over the world. But before he found his success, Wagner was kicked out of middle school, expelled from high school, and dropped out of two colleges. *Learning by Heart* is his powerful account of his years as a student and teacher. After struggling in both roles, he learned to create meaningful learning experiences despite the constraints of conventional schooling--initially for himself and then for his students--based on understanding each student's real interests and strengthening his or her intrinsic motivations. Wagner's story sheds light on critical issues facing parents and educators today, and reminds us that trial and error, resilience, and respect for the individual, are at the very heart of all teaching and learning.

Design Creativity 2010 Toshiharu Taura,Yukari Nagai,2010-11-04 What is ‘design creativity’? It is impossible to answer this question without considering why human beings can – and do – ‘design’. The papers included were presented and discussed at the first ICDC (International Conference on Design Creativity), which was held at Kobe, Japan, in 2010. *Design Creativity 2010* encourages readers to enhance and expand their activities in the field of design creativity.

Pompeii and Herculaneum Alison E. Cooley,M. G. L. Cooley,2013-10-01 The original edition of *Pompeii: A Sourcebook* was a crucial resource for students of the site. Now updated to include material from Herculaneum, the neighbouring town also buried in the eruption of Vesuvius, *Pompeii and Herculaneum: A Sourcebook* allows readers to form a richer and more diverse picture of urban life on the Bay of Naples. Focusing upon inscriptions and ancient texts, it translates and sets into context a representative sample of the huge range of source material uncovered in these towns. From the labels on wine jars to scribbled insults, and from advertisements for gladiatorial contests to love poetry, the individual chapters explore the early history of Pompeii and Herculaneum, their destruction, leisure pursuits, politics, commerce, religion, the family and society. Information about Pompeii and Herculaneum from authors based in Rome is included, but the great majority of sources come from the cities themselves, written by their ordinary inhabitants – men and women, citizens and slaves. Incorporating the latest research and finds from the two cities and enhanced with more photographs, maps, and plans, *Pompeii and Herculaneum: A Sourcebook* offers an invaluable resource for anyone studying or visiting the sites.
