When to Stop the Cheering? Brian Carroll, 2006-11-29 *Finalist for the 2007 Seymour Medal of the Society for American Baseball Research (SABR). *Winner of the 2007 Robert Peterson Book Award of the Negro Leagues Committee of the Society for American Baseball* *When to Stop the Cheering?* documents the close and often conflicted relationship between the black press and black baseball beginning with the first Negro professional league of substance, the Negro National League, which started in 1920, and finishing with the dissolution of the Negro American League in 1957. *When to Stop the Cheering?* examines the multidimensional relationship the black newspapers had with baseball, including their treatment of and relationships with baseball officials, team owners, players and fans. Over time, these relationships changed, resulting in shifts in coverage that could be described as moving from brotherhood to paternalism, then from paternalism to nostalgic tribute and even regret.

Soil and Water Conservation Advances in the United States Teddy Michael Zobeck, 2010 Have agricultural management efforts begun in the desperation of the Dust Bowl brought us to where we need to be tomorrow? Questions about the environmental footprint of farming make this book required reading. Approximately 62% of the total U.S. land area is used for agriculture, and this land also provides critical ecosystem functions. Authors from each region of the continental United States describe the progress of soil and water conservation to date and visualize how agricultural production practices must change in future years to address the newest challenges.

Abandoning American Neutrality R. Floyd, 2013-09-04 During the first 18 months of World War I, Woodrow Wilson sought to maintain American neutrality, but as this carefully argued study shows, it was ultimately an unsustainable stance. The tension between Wilson's idealism and pragmatism ultimately drove him to abandon neutrality, paving the way for America's entrance into the war in 1917.

In My Place Condemned He Stood J. I. Packer, Mark Dever, C. J. Mahaney, Ligon Duncan, R. Albert Mohler Jr., 2008 Combining three classic articles by J. I. Packer with a recent article by Mark Dever, this penetrating anthology takes a classically biblical stance on the increasingly controversial doctrine of substitutionary atonement.

Pension Ponzi Bill Tufts, Lee Fairbanks, 2011-10-31 The vast majority of Canadians are blissfully unaware that everyman, woman and child in Canada now owes a \$35,000 share of government debt and must pay this back, with interest! Make no mistake, this debt will change our country and affect every single Canadian in the decades to come. You may think you have planned for your retirement and are safe, but the government must find a way to recover this borrowed money, and they can only do that by raising your taxes and reducing your hard-earned benefits. How did this debt come about, and why can't we simply pay it off? Pension Ponzi lays the blame squarely at the feet of the politicians who refused to stand up to Canada's public sector unions. The fact is Canada's public sector, which accounts for 20% of the workforce, has been grossly overpaid relative to their counterparts in the private sector with cushy pensions paid for with your taxes and new debt. There is no denying that the country does not have the financial resources to ensure that the next generation of Canadians will have the same standard of living as the ones before it or to support our growing seniors population. Meeting our public sector pension obligations will break the current social safety net that is a pillar of the Canadian way. Can you escape this bleak future? Can you afford to live longer? Nationally-recognized pension expert Bill Tufts and award-winning journalist Lee Fairbanks explore how this catastrophe came about and then suggest ways that government can fix what's broken, and how you as an individual can protect yourself from the

financial calamity that is about to engulf Canada.

Chasing Ghosts Louise DeSalvo, 2015-10-12 When literary biographer and memoirist Louise DeSalvo embarked upon a journey to learn why her father came home from World War II a changed man, she didn't realize her quest would take ten years, and that it would yield more revelations about the man—and herself—and the effect of his military service upon their family than she'd ever imagined. During his last years, as he told her about his life, DeSalvo began to understand that her obsession with war novels and military history wasn't merely academic but rooted in her desire to understand this complex father whom she both adored and reviled because of his mistreatment of her. Although she at first believes she wants to uncover his story, the story of a man who was no hero but who was nonetheless adversely affected by his military service, she learns that what she really wants is to recover the man that he was before he went away. As DeSalvo and her father uncover his past piece-by-piece, bit-by-bit, she learns about the dreams of a working-class man who entered the military in the late 1930s during peacetime to better himself, a man who wanted to become a pilot. She learns about what it was like for him to participate in war games in the Pacific prior to the war, and its devastating toll. She learns about what it was like for her parents to fall in love, set up house, marry, and have children during this cataclysmic time. And as the pieces of her father's life fall into place as works to piece together the puzzle of everything she's learned about this time, she finds herself finally able to understand him. *Chasing Ghosts* is an original contribution to the understanding of working-class World War II veterans who did not conventionally distinguish themselves through "heroic" actions and whose lives were not until recently considered worthy of historical or cultural attention. It personalizes the history of those sailors who served in the Navy aboard aircraft carriers and on islands in the Pacific prior to, and during World War II and contributes to the current vital conversation about the often-unrecognized effects of war and its traumas upon those men and their families. It reveals the lifelong devastating consequences of military service on those men and women who fell in love, married, and set up house. And it reveals the complexity of what it is like to be the daughter of a father who has gone to war.

Greater Yellowstone Public Lands Alice Wondrak Biel, 2006

Fearless Don Dahler, 2022-06-26 In the spirit of the bestseller *Fly Girls* comes the definitive and compelling true story of Harriet Quimby, the first American woman to receive a pilot's license. In the early twentieth century, headlines declared that the era of women has dawned. Against this changing historical backdrop, Harriet Quimby's extraordinary life stands out as the embodiment of this tumultuous, exciting era—when flight was measured in minutes, not miles. This untold piece of feminist history unveils Quimby's incredible story: rising from humble beginnings as a dirt-poor farm girl to become a globe-trotting journalist, history-making aviator, and international celebrity. With her tragic death in 1912 at the age of thirty-seven, her story faded, with her many accomplishments—the first woman to fly solo over the English Channel among them—overshadowed by major events, including the sinking of the Titanic. With black and white illustrations throughout, *Fearless* is the definitive biography of the first licensed female American pilot: one of the most inspiring hidden figures of history.

How Americans Make Race Clarissa Rile Hayward, 2013-10-31 How do people produce and reproduce identities? In *How Americans Make Race*, Clarissa Rile Hayward challenges what is sometimes called the 'narrative identity thesis': the idea that people produce and reproduce identities as stories. Identities have greater staying power than one would expect them to have if they were purely and simply narrative constructions, she argues, because people institutionalize identity-stories, building them into laws, rules, and other institutions that give social actors incentives to perform their identities well, and because they objectify identity-stories, building them into material forms that actors experience with their bodies. Drawing on in-depth historical analyses of the development of racialized identities and spaces in the twentieth-century United States, and also on life-narratives collected from people who live in racialized urban and suburban spaces, Hayward shows how the institutionalization and objectification of racial identity-stories enables their practical reproduction, lending them resilience in the face of challenge and critique.

The Admirals Walter R. Borneman, 2012-05-01 How history's only five-star admirals triumphed in World War II and made the United States the world's dominant sea power. Only four men in American history have been promoted to the five-star rank of Admiral of the Fleet: William Leahy, Ernest King, Chester Nimitz, and William Halsey. These four men were the best and the brightest the navy produced, and together they led the U.S. navy to victory in World War II, establishing the United States as the world's greatest fleet. In *THE ADMIRALS*, award-winning historian Walter R. Borneman tells their story in full detail for the first time. Drawing upon journals, ship logs, and other primary sources, he brings an incredible historical moment to life, showing us how the four admirals revolutionized naval warfare forever with submarines and aircraft carriers, and how these men—who were both friends and rivals—worked together to ensure that the Axis fleets lay destroyed on the ocean floor at the end of World War II.

Federal Drug Control Jonathon Erlen, Joseph F Spillane, Rebecca Carroll, William McAllister, Dennis B Worthen, 2004-06-03 A comprehensive look at the beginnings of the current drug problems in the United States *Federal Drug Control: The Evolution of Policy and Practice* presents an overview of the key issues and key individuals responsible for the creation of the federal government's efforts to control illegal drugs in the United States, from 1875-2001. The book focuses special attention on federal legislation that constructed the federal drug regulatory machinery and the Supreme Court cases that interpreted these laws and their implementation. An esteemed panel of scholars, including co-editor Joseph Spillane, author of *Cocaine: From Medical Marvel to Modern Menace*, and William B. McAllister, author of *Drug Diplomacy in the Twentieth Century: An International History*, traces the internal tensions between factions favoring medicalization and criminalization throughout the 20th century, examining the difficult choices that continue to be made in this ongoing debate. The central question in the government's response to the crisis of illicit drugs in the United States has remained the same

for more than 125 years: Should the government rely on educational and treatment programs or turn to the criminal justice system for answers? Federal Drug Control examines the historic turning points of the debate, including the 19th Century origins of the controversy, legislation and subsequent Supreme Court decisions in the 20th Century, international attempts at drug control agreements, and the emergence of new illicit drugs. The book also looks at the influential figures of the debate, including Levi Nutt, Lawrence Kolb, Richard Pearson Hobson, A.G. DuMez, and Harry J. Anslinger who ran the Federal Bureau of Narcotics (FBN) for more than 30 years. Federal Drug Control examines: the history of cocaine use in the 20th Century the history of marijuana use in the 20th Century the advent of psychotropic drugs in the 1960s the origins of the Harrison Narcotic Act the federal government's efforts to limit the pharmacy profession's control over prescription drugs and much more! Federal Drug Control: The Evolution of Policy and Practice is an essential resource for criminologists, historians, social historians, sociologists, anthropologists, public policymakers, academics, and anyone interested in the broad issues involved in how the federal government deals with the problem of illicit drugs in the United States.

Pax Economica Marc-William Palen, 2024-02-27 A new economic history which uncovers the forgotten left-wing, anti-imperial, pacifist origins of economic cosmopolitanism and free trade from the mid-nineteenth to the mid-twentieth century. The post-1945 international free-trade regime was established to foster a more integrated, prosperous, and peaceful world. As US Secretary of State Cordell Hull (1933-1944), Father of the United Nations and one of the regime's principal architects, explained in his memoirs, unhampered trade dovetailed with peace; high tariffs, trade barriers, and unfair economic competition, with war. Remarkably, this same economic order is now under assault from the country most involved in its creation: the United States. A global economic nationalist resurgence - heralded by Donald Trump's America First protectionism and resultant trade wars with the USA's closest allies and trading partners - now looks to transform over seventy years of regional and global market integration into an illiberal economic order resembling that of the late nineteenth and early twentieth centuries. Economic cosmopolitan critics of today's retreat from free trade have offered dire warnings that doing so would be catastrophic for global consumers and an existential threat to regional and world peace. But under what circumstances did this ideological marriage of free trade, prosperity, and peace arise? Who were its main adherents? How did this same free-trade ideology succeed in becoming the new economic orthodoxy following the Second World War? And how might the successes and failures of this earlier struggle to reform the economic order inform today's globalization crisis? In *Pax Economica*, economic historian Marc-William Palen finds answers amid a century of transnational peace and anti-imperial activism that stretched from Britain's unilateral adoption of free trade in 1846 to the founding of the US-led liberal trading system that arose immediately after the Second World War. Over five thematic chapters, considering the period from different perspectives, and utilising archival research conducted in Europe, North America, and Australia, Palen shows that this politico-ideological struggle to create a more prosperous and peaceful world through free trade pitted economic cosmopolitans against economic nationalists. Cosmopolitans sought to counter the industrialising world's embrace of economic nationalism because they believed - much like today's critics of Trump's tariffs and Brexit - that economic nationalism laid the groundwork for trade wars, high prices for consumers, and geopolitical conflict; while free trade created market interdependence, prosperity, social justice, and a more peaceful world. *Pax Economica* argues that this cosmopolitan fight for free trade laid foundations for a century of anti-imperial and peace activism across the globe - and paved the way for today's global trade regime now under siege--
