*Habeas Codfish* Barry M. Levenson,2001 From the McDonald's hot coffee case to the cattle ranchers' beef with Oprah Winfrey, from the old English Assize of Bread to current nutrition labeling laws, what we eat and how we eat are shaped as much by legal regulations as by personal taste. Barry M. Levenson, the curator of the world-famous (really!) Mount Horeb Mustard Museum and a self-proclaimed recovering lawyer, offers in *Habeas Codfish* an entertaining and expert overview of the frustrating, frightening, and funny intersections of food and the law. Discover how Mr. Peanut shaped the law of trademark infringement for the entire food industry. Consider the plight of the restaurant owner besmirched by a journalist's negative review. Find out how traditional Jewish laws of kashrut ran afoul of the First Amendment. Prison meals, butter vs. margarine, definitions of organic food, undercover ABC reporters at the Food Lion, the Massachusetts Supreme Court case that saved fish chowder, even recipes--it's all in here, so tuck in!

*Cultural Studies* Lawrence Goodrich,Ruth Walker,2012-02-10 Cultural Studies: An Introduction to Global Awareness is designed to introduce students to the study of world affairs, regional studies, and cultural awareness. It delves into history, geography, religions, languages, cultures, political systems, economics, social issues, environmental concerns, and human rights. It looks at major events and significant figures that have shaped each region. In this age when the Internet, trade, airplanes, satellites, and cell phones connect people everywhere, it's more important than ever to understand the world's cultures. Even if you never leave the United States, you may find yourself working with or managing people from different parts of the world. If you end up working overseas, you'll find that the more insight you have into other countries' history and customs, the more successfully you'll navigate your way around new and exciting lands. Features in this book include detailed topographical (mountains, rivers, etc.) and political maps. Colored boxes add brief additional information about related topics, while fastFacts offer extra tidbits of information. The photos provide glimpses of present-day life in these lands. Students will see how people dress and what their cities, cars, streets, buildings, and homes look like. While historical photos can be extremely interesting, this textbook supplies you with pictures of what these countries look like today. By the time students finish this course, they will have a greater understanding of the world around them. This knowledge will help them interpret trends and events abroad and will help in any future endeavors with other cultures.

*Historic Achievement of a Common Standard* Pinghua Sun,2018-03-20 The subject of this book is human rights law, focusing on historic achievement of a common standard viewed from a perspective of Pengchun Chang's contributions to the drafting of the Universal Declaration of Human Rights (UDHR). This is an original research, integrating different research methods: interdisciplinary approaches, historical and comparative methods, and documentary research and so on. The research findings can be described briefly as follows: Chinese wisdom has played an important role in achieving a common standard for the establishment of the international human rights system, which can be seen by exploring P. C. Chang's contributions to the drafting of the UDHR. The target readers are global scholars and students in law, politics, philosophy, international relations, human rights law, legal history, religion and culture. This book will enable these potential readers to have a vivid picture of the Chinese contributions to the international human rights regime and to have a better understanding of the significance of the traditional Chinese culture and P. C. Chang's human rights philosophy of pluralism.

**Afrasia** Seifudein Adem, Ph.D,Ali A. Mazrui,2013-05-02 Is there a new scramble for Africa involving China, Japan, and India in competition with each other and with the Western world? This book explores the historical and unfolding dynamic interactions among China, India, Japan, and Africa and their ramifications.

**What Are Christians For?** Jake Meador,2022-02-22 What does a Christian political witness look like in our day? Politics ought to be defined by fidelity to the common good of all the members of society. But our modern Western politics are defined by a determination to bend the natural world and human life to its own political and economic ends. This wholesale rejection of the natural order is behind the dominant revolutions in our history, and defines our experience in Western society today—our racialized hierarchy, modern industry, and the sexual revolution. In *What Are Christians For?*, Jake Meador lays out a proposal for a Christian politics rooted in the givenness and goodness of the created world. He is uninterested in the cultural wars that have so often characterized American Christianity. Instead, he casts a vision for an ordered society that rejects the late modern revolution at every turn and is rooted in the natural law tradition and the great Protestant confessions. Here is a political approach that is antiracist, anticapitalist, and profoundly pro-life. A truly Christian political witness, Meador argues, must attend closely to the natural world and renounce the metallic fantasies that have poisoned common life in America life for too long.

**The Catholic All Year Compendium** Kendra Tierney,2018-10-19 If you have been wondering how to bring the rich traditions of the Catholic Church's liturgical year into your family life, this is the book for you. If you have no idea what the liturgical year is, but you are looking for ways to bring your faith home from Sunday Mass—in every season, all year long—this is the book for you too. With wisdom and humor mother and blogger Kendra Tierney shares how her family celebrates Catholic seasons and feasts—from Advent and Christmas, through Lent and Easter, to Pentecost and beyond. She provides ideas for stories, activities, foods, and decorations that will help you to celebrate your Catholic faith with your family and friends without expertise or much advance planning. She also offers tips and survival tricks from her fifteen years in the Catholic mommy trenches about such challenges as bringing young children to Mass and saying a family Rosary. Whether you're a convert or a revert or a lifelong Catholic, a member of a big family or a small one, a stay-at-home or a working parent, you're sure to find ways to make your Catholic faith a memorable and meaningful part of your busy family life—and have fun doing it!

*Feral* George Monbiot,2014-09-26 An optimistic approach to environmentalism that focuses on the wonders of rewilding, not just the terrifying consequences of climate change. To be an environmentalist early in the twenty-first century is always to be defending science and acknowledging the hurdles we face in our efforts to protect wild places and fight climate change. But let's be honest: hedging has never inspired anyone. So what if we stopped hedging? What if we grounded our efforts to solve environmental problems in hope instead, and let nature make our case for us? That's what George Monbiot does in *Feral*, a lyrical, unabashedly romantic vision of how, by inviting nature back into our lives, we can simultaneously cure our "ecological boredom" and begin repairing centuries of environmental damage. Monbiot takes readers on an enchanting journey around the world to explore ecosystems that have been "rewilded": freed from human intervention and allowed—in some cases for the first time in millennia—to resume their natural ecological processes. We share his awe as he kayaks among dolphins and seabirds off the coast of Wales and wanders the forests of Eastern Europe, where lynx and wolf packs are reclaiming their ancient hunting grounds. Through his eyes, we see environmental success—and begin to envision a future world where humans and nature are no longer in conflict, but are part of a single, healing world.

*The Spell of Egypt* Robert Hichens,1910

*The Greenwood Encyclopedia of LGBT Issues Worldwide [3 volumes]* Chuck Stewart,2009-12-18 This set has an ambitious scope with the goal of offering the most up-to-date international overview of key issues in the lives of lesbian, gay, bisexual, and transgender individuals. HIV/AIDS has been a major media focus, but this set fosters a broader understanding of the status of LGBT

individuals in their society. More than 70 countries are represented. The clear, accessible prose is appropriate for high school student research on up. The material is especially needed in a cultural climate that increasingly supports and requires information about LGBT populations. The content is useful for a paper on a hot topic, health classes, discussion groups, and gay-straight alliance groups.

*Clay's Handbook of Environmental Health* Stephen Battersby,2016-07-01 Clay's Handbook of Environmental Health, since its first publication in 1933, has provided a definitive guide for the environmental health practitioner, or reference for the consultant or student. This 21th edition continues as a first point of reference, reviewing the core principles, techniques and competencies, and then outlining the specialist subjects. It has been refocused on the current curriculum of the UK's Chartered Institute of Environmental Health but should also readily suit the generalist or specialist working outside the UK.

**The Quest for Environmental Regulatory Integration in the European Union** Eberhard Bohne,2006-01-01 It is a commonplace that pollution knows no borders, and that environmental law must allow for cross-border implementation. The European Union specifies this principle in EC directives on integrated pollution prevention and control (IPPC), on environmental impact assessment (EIA), and on the control of major accident hazards involving dangerous substances (Seveso II). This is the first book to investigate from both empirical and normative perspectives the effectiveness of these directives at the national level. It provides by far the most extensive comparative analysis and evaluation of the industrial permitting and inspections, EIA, and major accident prevention in the EU. Offering an in-depth study of the transposition and implementation of EC environmental directives in eight EU member states (Denmark, France, Germany, Italy, the Netherlands, Spain, Sweden, and the United Kingdom), the author who has played a significant role in the formulation of environmental legislation and regulation at both the national (German) and EU levelsand provides a stable base for an assessment of the benefits and costs of the integrated approach to environmental protection. Among the factors considered are the following: key features of national constitutional, administrative, and judicial systems which provide the framework for environmental regulations and their implementation in the eight countries under study; procedures and substantive requirements transposing the IPPC, EIA and Seveso II directives into national laws; and evaluation of national deficiencies and the extent of muddling through. The empirical part of Dr Bohne's analysis draws on 138 expert interviews with public and private actors, a survey of 178 public authorities, and document analyses of selected industrial permits and environmental impact statements. His comparative analysis of procedural, organizational, and substantive integration makes it possible to identify and compare national accomplishments in regulatory integration, and offers new insights into the effectiveness and limits of EC law. The study concludes with a discussion of the implications of the findings for European governance and better regulation after the enlargement of the EU. This thoroughly researched, rigorous, and insightful study will be of great interest and value to policymakers, regulators, business people, environmental NGOs, consultants, and lawyers, as well as to students of environmental policies and European governance.

**Dub** Michael Veal,2013-08-15 Winner of the ARSC's Award for Best Research (History) in Folk, Ethnic, or World Music (2008) When Jamaican recording engineers Osbourne "King Tubby" Ruddock, Errol Thompson, and Lee "Scratch" Perry began crafting "dub" music in the early 1970s, they were initiating a musical revolution that continues to have worldwide influence. Dub is a sub-genre of Jamaican reggae that flourished during reggae's "golden age" of the late 1960s through the early 1980s. Dub involves remixing existing recordings—electronically improvising sound effects and altering vocal tracks—to create its unique sound. Just as hip-hop turned phonograph turntables into musical instruments, dub turned the mixing and sound processing technologies of the recording studio into instruments of composition and real-time improvisation. In addition to chronicling dub's development and offering the first thorough analysis of the music itself, author Michael Veal examines dub's social significance in Jamaican culture. He further explores the "dub revolution" that has crossed musical and cultural boundaries for over thirty years, influencing a wide variety of musical genres around the globe. Ebook Edition Note: Seven of the 25 illustrations have been redacted.

**Immigration Nation** Tanya Maria Golash-Boza,2015-12-03 In the wake of September 11, 2001, the Department of Homeland Security (DHS) was created to prevent terrorist attacks in the US.This led to dramatic increases in immigration law enforcement - raids, detentions and deportations have increased six-fold. Immigration Nation critically analyses the human rights impact of this tightening of US immigration policy. Golash-Boza reveals that it has had consequences not just for immigrants, but for citizens, families and communities. She shows that even though family reunification is officially a core component of US immigration policy, it has often torn families apart. This is a critical and revealing look at the real life - frequently devastating - impact of immigration policy in a security conscious world.

Buddhist Missionaries in the Era of Globalization Linda Learman,2004-11-30 This insightful volume dispels the common notion that Buddhism is not a missionary religion by revealing Asian Buddhists as active agents in the propagation of their faith. It presents at the same time a new framework with which to study missionary activity in both Buddhist and other religious traditions. Included are case studies of Theravada, Chinese, and Tibetan Buddhist teachers and congregations, as well as the Pure Land, Shingon, Zen, and Soka Gakkai traditions of Japan. Contributors examine both foreign and domestic missions and the activities of emigrant communities, showing the resources and strategies garnered by late-nineteenth- and twentieth-century Buddhists who worked to uphold and further their respective traditions, often under difficult circumstances. Based on anthropological fieldwork and historical research, the essays break new ground and provide better analytical tools for studying mission activity than previously available. They provide instructive comparisons with Anglo-American Protestant missionary thinking and offer insights into the internal dynamics of Sri Lankan and Japanese missions as they make their way in Protestant and Catholic societies. Also included are nuanced studies of two major missionary figures in late twentieth-century Chinese Buddhism and a fascinating look at the present Dalai Lama's relationships with his devotees and the American government, viewed through an exposition of the abiding tradition within Tibetan Buddhism that combines mission activity with the political goals of exiled lamas. Contributors: Stuart Chandler; Peter B. Clarke; C. Julia Huang; Steven Kemper; Linda Learman; Sarah LeVine; Richard K. Payne; Cristina Rocha; George J. Tanabe, Jr.; Gray Tuttle.

*Ocular Differential Diagnosis* Frederick Hampton Roy,2012-03-31 The ninth edition of Ocular Differential Diagnosis is a practical manual to help practitioners make a quick diagnosis based on presentation and symptoms. The chapters are organised by regions of the eye, listing possible causes for each symptom in both common and uncommon disorders. Syndromes and diseases associated with exophthalmos, ptosis, strabismus, nystagmus, glaucoma, cataracts, uveitis and optic atrophy are discussed in detail. Drugs associated with each disorder are listed alphabetically and their recommended selection and dosage are in accordance with current practice. Diagnoses are listed alphabetically with more common and clinically significant disorders highlighted by asterisks. Further reading suggestions appear after each diagnostic description.

**European Defence Cooperation in EU Law and IR Theory** T. Dyson,Theodore Konstadinides,2013-05-07 This book offers a novel contribution to the study of post-Cold War European defence. Interdisciplinary in approach, it uses European law to assess the utility of existing theoretical accounts. By exploring the balance of threat theory, it provides new insights into the forces driving and hindering European defence cooperation.

*Salvaje* George Monbiot,2019-12-16 *Salvaje'* es la lírica y emocionante historia de los esfuerzos de George Monbiot para volver a comprometerse con la naturaleza y descubrir una nueva forma de vida. En sus páginas demuestra cómo, restaurando y resalvajizando nuestros dañados ecosistemas en la tierra y en el mar, podemos traer la maravilla de nuevo a nuestras vidas. Sin ambigüedad romántica, podemos curar simultáneamente nuestro aburrimiento ecológico y comenzar a reparar siglos de daño ambiental. Monbiot nos propone un fascinante recorrido alrededor del mundo para explorar ecosistemas que han sido liberados de la intervención humana y a los que se ha permitido reanudar sus procesos ecológicos naturales.

**Concerning Virgins** St Ambrose,2017-01-07 In the first book he treats of the dignity of Virginité, and states his reason for writing. As he commences his addresses on the anniversary of the martyrdom of St. Agnes, he takes her story as the subject of the earlier part of the treatise, and shows how, amongst the Jews, and even amongst the heathen, the grace of virginity was shadowed forth, and eventually proclaimed by the coming of our Lord. In the second book, speaking of the character and manner of life of virgins, he does this, as he says, by adducing examples and instances, preferably to laying down a code of rules. In the third book he goes through a summary of the address given by Pope Liberius, when Marcellina received the veil at his hands, before a large congregation. Some cautions are introduced by St. Ambrose against excessive austerity, and instead of some outward acts, prayer and the practice of interior virtues are recommended. - Introduction
