

The Uyghur Community Güljanat Kurmangaliyeva Ercilasun,Konuralp Ercilasun,2017-11-01 This book analyses the Uyghur community, presenting a brief historical background of the Uyghurs and debating the challenges of emerging Uyghur nationalism in the early 20th century. It elaborates on key issues within the community, such as the identity and current state of religion and worship. It also offers a thoughtful and comprehensive analysis of the Uyghur diaspora, addressing the issue of identity politics, the position of the Uyghurs in Central Asia, and the relations of the Uyghurs with Beijing, notably analyzing the 2009 Urumqi clashes and their long term impact on Turkish-Chinese relations. Re-examining Urghur identity through the lens of history, religion and politics, this is a key read for all scholars interested in China, Eurasia and questions of ethnicity and religion.

Indian Sisters Madelaine Healey,2014-08-07 Health and medicine cannot be understood without considering the role of nurses, both as professionals and as working women. In India, unlike other countries, nurses have suffered an exceptional degree of neglect at the hands of state, a situation that has been detrimental to the quality of both rural and urban health care. Charting the history of the development of nursing in India over 100 years, Indian Sisters examines the reasons why nurses have so consistently been sidelined and excluded from health care governance and policymaking. The book challenges the routine suggestion that nursing's poor status is mainly attributable to socio-cultural factors, such as caste, limitations on female mobility and social taboos. It argues instead that many of its problems are due to an under-achieved relationship between a patriarchal state on the one hand, and weak professional nursing organisations shaped by their colonial roots on the other. It also explores how the recent phenomenon of large-scale emigration of nurses to the West (leading to better pay, working conditions and career prospects) has transformed the profession, lifting its status dramatically. At the same time, it raises questions about the implications of emigration for the fate of health care system in India. An important contribution to the growing academic genre of nursing history, the book is essential reading for scholars and students of health care, the history of medicine, gender and women's studies, sociology, and migration studies. It will also be useful to policymakers and health professionals.

A Blue Sea of Blood Donald M. Kehn,2009-01-15 On the morning of March 1, 1942, the WWI-era destroyer USS Edsall—under orders to deliver some forty Army Air Force fighter crews to the beleaguered island of Java—split off from the USS Whipple and the tanker Pecos and was never seen again by Allied forces. Despite the later discovery of bodies identified as Edsall crew members near a remote airfield on the coast of Celebes, what happened to the ship remains a matter of mystery and, perhaps, deliberate obfuscation. This book explores the many puzzling facets of the Edsall's disappearance in order to finally tell the full story of the fate of the vessel and her crew. Based on exhaustive research of the historical record—including newly deciphered Japanese documents and previously unrevealed material from the crew's family members—A Blue Sea of Blood offers a painstaking reconstruction of the ship's history. The book investigates not only the Edsall's mysterious final action, but also her wide-ranging pre-war career and the curious uses to which her story was put—generally under false pretenses—first by the pre-war US Navy and then by the Japanese wartime propaganda machine. And finally, military historian Donald Kehn considers the circumstances surrounding the curious obscurity of the Edsall's heroic service and final battle in American histories. Redressing six decades of official indifference, Kehn's account recovers a significant chapter missing from the history of World War II—and tells a long-overdue story of courage and tragic loss.

The sea in Russian strategy Andrew Monaghan,Richard Connolly,2023-06-27 For the first two decades after the Cold War, Russian naval power hardly featured in the Euro-Atlantic community's strategic thinking. This began to change in the mid-2010s, as the idea that the Russian navy poses a threat to NATO began to gain ground. That threat took shockingly real form in February 2022, when Moscow launched its invasion of Ukraine. The sea in Russian strategy is the first sustained examination of Russian maritime power in the period since the fall of the Soviet Union. It brings together leading specialists from public policy and academia to reflect on historical and contemporary aspects of Russia's naval strategy and capacities. At a time of mounting tensions, which some observers have named the 'Fourth Battle of the Atlantic', the book offers an informed and nuanced discussion, taking into account the view from Moscow and how this differs from western perspectives. It sketches a trajectory of Russia's power at sea and reflects on current capabilities and problems, as well as Moscow's strategic planning for the future.

Executive Compensation: Empirical Essays on the Antecedents and the Consequences, and the Role of Executive Personality Steffen Florian Burkert,2023-03-10 Top managers have a significant impact on organizations because they are responsible for the formulation and implementation of corporate strategies, have the visibility and influence to shape the opinions of internal and external stakeholders, and coin the culture of their organizations, affecting employees at every level of the organization. Research has focused on the drivers and consequences of top managers' actions, with a particular focus on executive compensation, but important questions remain unanswered. This dissertation contributes to the literature on top executives by examining the antecedents of executive compensation, the influence of executive compensation on executive behavior, and the interplay of executive compensation and top executive personality. The first study introduces the role of compensation benchmarking for determining executive compensation to the management literature. It finds that benchmarking leads to compensation convergence. The second study examines the impact of executive compensation complexity on firm performance. The results show that compensation complexity is negatively related to accounting-based, market-based, and ESG-based metric of firm performance. The third study explores the implications of relative performance evaluation (RPE) on the imitation behavior of firms. It finds that the introduction of RPE is positively related to the imitation of the strategic actions of peer firms. The fourth study contributes to the growing literature on the impact of corporate social performance (CSP) goals in CEO contracts. Specifically, it examines how and when CSP incentives influence the CEO's attention to corporate social responsibility topics. The final essay examines the role of CEO personality; it finds that differences in CEO personality explain differences in the level of strategic conformity. Taken together, the essays in this dissertation make a significant contribution to the scholarly discourse on the influence of top managers on their companies. The empirical evidence presented expands the current understanding of how top executives affect strategic firm behaviors, and it provides insights for policymakers, managers, and investors.

China Pluperfect II Frank Vigneron,2022-07-01 This book contains analysis of different domains of contemporary art in China seen through the lens of the epistemological changes described in China Pluperfect I: Epistemology of Past and Outside in Chinese Art. It first looks at the concept of "ink art," describing how it meant different things to different people in the former colony and how these different meanings came to determine certain institutional choices made at the beginning of the 21st century. The following chapters are dedicated to issues related to the urban and rural contexts for art creation in Mainland China and Hong Kong. One chapter observes the ups and downs of the representations of cities in the history of the People's Republic of China and how they have defined a certain idea of culture. Another looks at how Chinese cities

have been exceptional centers of art creations over the last thirty to forty years through the example of Shenzhen where a vibrant art scene, albeit closely connected to Hong Kong which has become a major art hub in the last two decades, has developed. The following is dedicated to the changing fortunes of art making in the countryside, observing how institutions in the Mainland and in Hong Kong have supported these practices very differently. Frank Vigneron finally considers how the different speeds of globalization, slow in the past and fast today, have determined some of the issues of past and outside in the present, particularly in the context of socially engaged art in both the Mainland and Hong Kong.

The Fingerprint U. S. Department Justice,2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.
