How have digital media changed the way we write and read? What methods of textual and data analysis have emerged? How do we rescue digital artifacts from obsolescence? And how can digital media be used or taught inside classrooms? These and other questions are addressed in this volume that assembles contributions by artists, writers, scholars and editors such as Dene Grigar, Sandy Baldwin, Carlos Reis, and Frieder Nake. They offer a multiperspectival view on the way digital media have changed our notion of textuality.

The Politics of Disgust Ange-Marie Hancock,2004-12-01 Winner of the 2006 Race, Ethnicity, and Politics Organized Section Best First Book Award from the American Political Science Association Winner of the 2006 W.E.B. DuBois Book Award from the National Conference of Black Political Scientists Ange-Marie Hancock argues that longstanding beliefs about poor African American mothers were the foundation for the contentious 1996 welfare reform debate that effectively ended welfare as we know it. By examining the public identity of the so-called welfare queen and its role in hindering democratic deliberation, The Politics of Disgust shows how stereotypes and politically motivated misperceptions about race, class and gender were effectively used to instigate a politics of disgust. The ongoing role of the politics of disgust in welfare policy is revealed here by using content analyses of the news media, the 1996 congressional floor debates, historical evidence and interviews with welfare recipients themselves. Hancock's incisive analysis is both compelling and disturbing, suggesting the great limits of today's democracy in guaranteeing not just fair and equitable policy outcomes, but even a fair chance for marginalized citizens to participate in the process.

Oudry's Painted Menagerie Mary Morton,2007-06-25 In the 1720s and 1730s, Jean-Baptiste Oudry established himself as the preeminent painter in France of hunts, animals, still lifes, and landscapes. Oudry's Painted Menagerie focuses on a suite of eleven life-size portraits of exotic animals from the royal menagerie at Versailles, painted by Oudry between 1739 and 1752. These paintings eventually found their way into the ducal collection in Schwerin, Germany. Among them is the magnificent portrait of Clara, an Indian rhinoceros who became a celebrity in mid-eighteenth-century Europe. Her portrait has been out of public view for more than a century, and it is presented here in its newly conserved state.

The Connections Between Ecology and Infectious Disease Christon J. Hurst,2018-08-30 This book summarizes current advances in our understanding of how infectious disease represents an ecological interaction between a pathogenic microorganism and the host species in which that microbe causes illness. The contributing authors explain that pathogenic microorganisms often also have broader ecological connections, which can include a natural environmental presence; possible transmission by vehicles such as air, water, and food; and interactions with other host species, including vectors for which the microbe either may or may not be pathogenic. This field of science has been dubbed disease ecology, and the chapters that examine it have been grouped into three sections. The first section introduces both the role of biological community interactions and the impact of biodiversity on infectious disease. In turn, the second section considers those diseases directly affecting humans, with a focus on waterborne and foodborne illnesses, while also examining the critical aspect of microbial biofilms. Lastly, the third section presents the ecology of infectious diseases from the perspective of their impact on mammalian livestock and wildlife as well as on humans. Given its breadth of coverage, the volume offers a valuable resource for microbial ecologists and biomedical scientists alike.

I Am Not Sidney Poitier Percival Everett,2011-08-02 I Am Not Sidney Poitier is an irresistible comic novel from the master storyteller Percival Everett, and an irreverent take on race, class, and identity in America I was, in life, to be a gambler, a risk-taker, a swashbuckler, a knight. I accepted, then and there, my place in the world. I was a fighter of windmills. I was a chaser of whales. I was Not Sidney Poitier. Not Sidney Poitier is an

amiable young man in an absurd country. The sudden death of his mother orphans him at age eleven, leaving him with an unfortunate name, an uncanny resemblance to the famous actor, and, perhaps more fortunate, a staggering number of shares in the Turner Broadcasting Corporation. Percival Everett's hilarious new novel follows Not Sidney's tumultuous life, as the social hierarchy scrambles to balance his skin color with his fabulous wealth. Maturing under the less-than watchful eye of his adopted foster father, Ted Turner, Not gets arrested in rural Georgia for driving while black, sparks a dinnertable explosion at the home of his manipulative girlfriend, and sleuths a murder case in Smut Eye, Alabama, all while navigating the recurrent communication problem: What's your name? a kid would ask. Not Sidney, I would say. Okay, then what is it?
