The Strange Hours Travelers Keep August Kleinzahler,2014-09-09 Those aren't stars, darling That's your nervous system Nanna didn't take you to planetariums like this --from Hyper-Berceuse: 3 A.M. August Kleinzahler's new poems stretch and go places he has never gone before: they have his signature high color and rhythmic jump, but they take on a breadth of voice and achieve registers that his earlier work only hinted at. Ranging from Vegas and Mayfair to the Asian steppes and contemporary Berlin, these poems touch down at will in tableaux where Liberace unceremoniously meets with St. Kevin and Attila with Zsa Zsa Gabor. Surprise after surprise, nothing seems to lie outside Kleinzahler's purview. This is the strongest collection to date from a poet with the vision and confident skill to make American poetry new (Clive Wilmer, The Times [London]).

Dispatches from the Vaccine Wars Christopher A. Shaw,2021-08-31 Enter the trenches of the bloodiest battles you've never heard of: the Vaccine Wars. Professor Christopher A Shaw discovered, after a deep-dive literature search on aluminum impacts on humans and animals, that aluminum hydroxide, an adjuvant in the anthrax vaccine, had a significantly negative impact on motor functions and reflexes of patients in the literature. After that finding, he did what scientists are supposed to do and kept following the leads. However, organizations like WHO dismissed him immediately. Those powerful organizations either knew what he knew, that aluminum vaccine adjuvants were harmful, or they simply didn't care. In either case, two possible reasons for the lack of response became clear to Shaw and his colleagues: dogma and money. The first had served to convince most of the world's medical professionals that Shaw had to be wrong because, after all, "the science was settled." And, behind much of this was the naked fact of how much money vaccines brought in to cover the pharmaceutical industry's profit margin. The combination of those two have the finger prints of various Big Pharma companies smudged all over the question of vaccine safety, which included the demonization of both scientists and lay scholars who raised even the tamest questions about safety and the push for vaccine mandates around the world. After these events, Shaw decided to dig deeper. Dispatches from the Vaccine Wars is a comprehensive look at the origin of vaccination and the oversight of vaccines by various regulatory bodies in the United States and in Canada. The book provides not only the official view on vaccines safety and efficacy, but also provides a critical analysis on which such views are based. Aluminum and other compounds that may contribute to autism spectrum disorder are discussed at length. Professor Shaw also analyzes the corporate influences driving vaccine uptake worldwide and provides an in depth look at the push for mandatory vaccination. Dispatches from the Vaccine Wars evaluates the extent to which vaccinology has become a cult religion driving attempts to suppress divergent scientific opinions. Finally, the book delves into the COVID-19 pandemic and what it means for the future of us all.

Pebbles in the Sea Phillip Compton,2005 Pebbles in the Sea by Phillip Compton is an absorbing narrative made out

of a canvas of colorful characters. It is a highly readable account of life in the rough and its impact on the author's view of life. Having spent his formative years with these characters and their flamboyant, sometimes hilarious ventures, the author discovered connections binding this diverse past with his artistic present. Within this framework of writing, the author reveals the concept of living for goals beyond the self, which may not produce riches or bring happiness, but will touch the infinite. Phillip Compton traces his journey of discovery through his early contact with these incredible characters and the history of their exploits, vividly brought to life in the pages of Pebbles in the Sea. Leading the cast of players is the author's father. Professional race car driver, business man, raconteur extraordinaire, the elder Compton was the dynamic force attracting and binding this diverse assemblage, which included his long time friend, Lou, who always encouraged, joined and abetted him in his outlandish adventures. Then, a later character, who became indispensable in lending aid was Drunken Ed, a man infamous for mangling the English language. Also found within this narrative is the elusive Johnny, an ornery alcoholic who always had his job waiting for him after his many benders. Finally, Drunken Joe exuberantly plays his part with his uniquely eccentric personality. These and a host of others paint a picture of what it means to live beyond the self. Stranger than fiction is a term often used by incredulous listeners upon hearing the tales of these men. Indeed, the reader will undoubtedly forget at times that these are actual events recorded here without embellishment. Here are stories of race car drivers, steel workers and drunks along with the famous fireworks story, recorded here for the first time, a story which has become a Compton family legend. The author has deftly woven the rough stories of these rough men together with the history of his own unique life. Within these pages, the stories diverge, then reunite in a conclusion that unexpectedly reconciles the apparent disparities. Pebbles in the Sea is a humorous, sometimes touching, often thought-provoking but always compelling chronicle of life and the adventures of living.
