**Retail Disruptors** Jan-Benedict Steenkamp,Laurens Sloot,2018-10-03 The rise of hard discounters like Aldi and Lidl has been monumental. Explore the very real threat they pose to traditional retailers and brand manufacturers and what you can learn from their growth. Hard discounters are stores that sell a limited selection of consumer-packaged goods and perishables - typically fewer than 2,000 Stock Keeping Units - for prices that are usually 50-60% lower than national brands. The best-known hard discounters are Aldi and Lidl, but global brands include Trader Joe's, EuroSpin, Biedronka, Netto and Leader Price. Their rise has been monumental; they have irrevocably changed the face of retail in Europe and Australia and are making steady inroads into the US. Retail Disruptors is the first book that explores this upheaval, providing expert insight into the business models of the leading hard discounters, and what mainstream retailers and brand manufacturers can do to remain competitive in the face of disruption. Meticulously researched by two of the leading authorities in retail strategy, private labels, branding, and hard discounting, Retail Disruptors is essential reading for all brand manufacturers and retailers who want to retain the competitive edge.

**Arguments for a Better World: Essays in Honor of Amartya Sen** Kaushik Basu,Ravi Kanbur,S. M. Ravi Kanbur,2009 Amartya Sen has made deep and lasting contributions to the academic disciplines of economics, philosophy, and the social sciences more broadly. He has engaged in policy dialogue and public debate, advancing the cause of a human development focused policy agenda, and a tolerant and democratic polity. This argumentative Indian has made the case for the poorest of the poor, and for plurality in cultural perspective. It is not surprising that he has won the highest awards, ranging from the Nobel Prize in Economics to the Bharat Ratna, India's highest civilian honor. This public recognition has gone hand in hand with the affection and admiration that Amartya's friends and students hold for him. This volume of essays, written in honor of his 75th birthday by his students and peers, covers the range of contributions that Sen has made to knowledge. They are written by some of the world's leading economists, philosophers and social scientists, and address topics such as ethics, welfare economics, poverty, gender, human development, society and politics. The second volume covers the topics of Human Development and Capabilities; Gender and Household; Growth, Poverty and Policy; and Society, Politics and History. It is a fitting tribute to Sen's own contributions to the discourse on Society, Institutions and Development. Contributors include: Bina Agarwal, Isher Ahluwalia, Montek S Ahluwalia, Ingela Alger, Muhammad Asali, Amiya Kumar Bagchi, Pranab Bardhan, Lourdes Benería, Sugata Bose, Lincoln C. Chen, Martha Alter Chen, Kanchan Chopra, Simon Dietz, Sakiko Fukuda-Parr, Jonathan Glover, Cameron Hepburn, Jane Humphries, Rizwanul Islam, Ayesha Jalal, Mary Kaldor, Sunil Khilnani, Stephan Klasen, Jocelyn Kynch, Enrica Chiappero Martinetti, Kirsty McNay, Martha C. Regional Security in the Asia Pacific Marika Vicziany,David P. Wright-Neville,Peter Lentini,2004-03-25 The September 2001 terrorist attacks shocked the world. But what did they change? In this book Asia specialists from academe and policy think tanks assess the impact of 9/11 on the Asia Pacific. Drawing on unique fieldwork, access to a wide range of documents and inside expertise, the authors consider how old geo-strategic and cultural fault lines have been overlaid with new security threats from state and non-state actors. With chapters on specific countries and regions, defense policies, terrorism, and current and potential conflict zones, this collection critically examines the Asia Pacific region's post-9/11, as well as post-Iraq war, security architecture.

*Vânător* Radu Brînzan,2014 A detailed and comprehensive illustrated technical history of the I.A.R.80 and I.A.R.81 - Romanian World War II fighter and ground-attack aircraft. This elegant but little-known aircraft was the mainstay of the Romanian air force's fighter arm throughout WW2, involved in fighting against both the Allies and then against the Axis. It was heavily involved in aerial battles against USAAF heavy bombers attacking Romanian oil fields. The different versions of the plane are described and illustrated; all the changes in specification, equipment and performance are recorded. Drawings and data from the original technical manuals, full dimensional details and photographs of the few surviving relics preserved in aviation museums illustrate all aspects of the airframe, inside and out. Color photographs and many pages of color illustrations complete the book's comprehensive coverage. 60 color profiles. Profusely illustrated with photos, including walk-around section showing all aspects of the airframe, and diagrams from official manuals. Includes accurate 1/48th scale plans, and color profiles showing many of the colorful schemes applied to the aircraft.

Metadata and Semantic Research Salvador Sanchez-Alonso,Ioannis N. Athanasiadis,2010-10-08 Metadata and semantic research is a growing complex ecosystem of conceptual, theoretical, methodological, and technological frameworks, offering innovative computational solutions in the design and development of computer-based systems. Within this perspective, researchers working in the area need to further develop and integrate a broad range of methods, results, and solutions coming from different areas. MTSR has been designed as a forum allowing researchers to present and discuss specialized results as general contributions to the field. This volume collects the papers selected for presentation at the 4th International Conference on Metadata and Semantic Research (MTSR 2010), held in Alcalá de Henares--a world heritage city and birthplace of Miguel de Cervantes--at the University of Alcalá (October 20-22, 2010). The first MTSR conference was held online in 2005, followed by two more editions: in Corfu (2007) and in Milan (2009). The experience acquired during the past five years, and the warm welcome of MTSR by the research community, encouraged us to organize this new edition of the series, and turn it into a yearly event. According to the number and quality of the contributions submitted for revision, our 2010 effort was again a considerable success.

*Descalificado* Pat Schatzline,2016-02-02 ADVERTENCIA:No lea este libro si no quiere que Dios lo use. No lea este libro si prefiere tener muletas en ves de alas. No lea este libro si no está dispuesto a dejar de lado sus pretextos y responder al llamado del cielo Quizás tenga un pasado oscuro. Quizás lo descubrieron en prácticas reprobables en su juventud. Quizás esas prácticas sucedieron apenas ayer

o incluso esta mañana. Quizás se permitió involucrarse en promiscuidad, drogas, actos de sabotaje o robos. Tal vez no se enfrentó a ninguna de estas luchas, pero aún batalla contra su inseguridad. ¡Le resulta imposible imaginarse que Dios lo puede usar! Usted está completamente descalificado. No obstante, la verdad es que Dios desea usarlo tal cual es: descalificado. Descalificado constituye un camino hacia la comprensión de que usted no es el último recurso de Dios. Descubrirá la verdad acerca de la naturaleza de Dios y su plan para usar a cada persona rendida a Él. La enseñanza compasiva y dinámica de Pat Schatzline revela: Los obstáculos y las trampas que el enemigo usa para detener la misión que Dios le ha asignado a usted. La verdad acerca de que Dios siempre ha confiado en personas rendidas a Él para impulsar su mensaje. Cómo puede dejar a un lado las excusas, confrontar su pasado y levantarse para liderar.

Desde então seus participantes têm produzido pesquisas acadêmicas, debates, palestras, artigos, simpósios, exposições e conteúdo para internet com o objetivo de contribuir para o conhecimento sobre a história e a cultura afro-brasileira e os problemas impostos à população negra no Brasil. Nesta publicação, o segundo livro do NEIAB, persistimos com o mesmo objetivo, apresentando o resultado de pesquisas produzidas em diferentes áreas do conhecimento, fato que mantém o caráter interdisciplinar do Núcleo, por professores da UEM, discentes da graduação e pós-graduação e pesquisadores de outras instituições. Ela é fruto de trabalho acadêmico, da militância no movimento social negro, da luta anti-racista e do desejo de cooperar para que a sociedade brasileira alcance a verdadeira igualdade racial. É preciso registrar que a publicação desse livro não seria possível sem o apoio da Editora da Universidade Estadual de Maringá – EDUEM, do Departamento de Ciências Sociais – DCS, do Programa de Pós-Graduação em Ciências Sociais – PGC e do Centro de Ciências Humanas, Artes e Letras – CCH e dos autores dos artigos que doaram seu tempo e parte do seu conhecimento para colaborar de forma voluntária com essa publicação. Nós, como organizadores desse trabalho, gostaríamos de agradecer a todas as pessoas que participaram de forma direta e indireta para a realização desse livro, que, temos certeza, vai colaborar com os estudos sobre as relações raciais estabelecidas em Maringá e no Brasil. Por fim, gostaríamos de desejar uma ótima leitura a todos e todas.
