*Transatlantic Relations in the 21st Century* Erwan Lagadec,2012 This book offers an overview of the interface between European integration, transatlantic relations, and the 'rise of the rest' in the early 21st century. The collapse of the Soviet bloc opened up an era in which the drivers and perceived benefits of the US alliance among European countries have become more variegated and shifting. The proposition that the US remains at once an 'indispensable' and 'intolerable' nation in Europe is a key concept in the alliance, as the US remains inextricably tied to the continent through economic, military and cultural links. This work examines this complex subject area from many angles, including an analysis of the historical and cultural contexts of America's relations with Europe, as well as a discussion of the politics of transatlantic affairs which utilises evidence gleaned from a series of case-studies. In the concluding chapters, the author assesses the likelihood that the West can entrench its global dominance in the realms of soft and hard power, and by effecting a controlled reform that will see multilateral structures open up to emerging powers. This book will be of great interest to students of European Politics, EU integration, transatlantic relations, US foreign policy/diplomacy, International Security and IR in general.

The Rohingyas Azeem Ibrahim,2018-02-01 According to the United Nations, Myanmar's Rohingyas are one of the most persecuted minorities in the world. Only now has the media turned its attention to their plight at the hands of a

country led by Nobel Peace Prize laureate Aung San Suu Kyi. Yet the signs of this genocide have been visible for years. For generations, this Muslim group has suffered routine discrimination, violence, arbitrary arrest and detention, extortion, and other abuses by the Buddhist majority. As horrifying massacres have unfolded in 2017, international human rights groups have accused the regime of complicity in an ethnic cleansing campaign against them. Authorities refuse to recognise the Rohingyas as one of Myanmar's 135 national races, denying them citizenship rights in the country of their birth and severely restricting many aspects of ordinary life, from marriage to free movement. In this updated edition, Azeem Ibrahim chronicles the events leading up to the current, final cleansing of the Rohingya population, and issues a clarion call to protect a vulnerable, little known Muslim minority. He makes a powerful appeal to use the lessons of the twentieth century to stop this genocide in the twenty-first.

Communities of Kinship Carlo Calleja, 2024-04-15 In *Communities of Kinship: Retrieving Christian Practices of Solidarity with Lepers as a Paradigm for Overcoming Exclusion of Older People*, Carlo Calleja describes kinship as a moral category, arguing that practicing kinship with others can cultivate virtues that shape the character of the agent. Contemporary Western society tends to focus on kinship as the sharing of blood ties or genetic material. On the other hand, the spiritual kinship that is proposed by religions tends to be exclusive and often nominal. For this reason, Calleja proposes practices and structures of solidaristic kinship, which involves sharing in the suffering of the other person. Finding parallels between the exclusion of lepers and the efforts of Christian communities to reforge kinship bonds with them in ancient and medieval times, he argues that communities

of kinship with older persons can help cultivate the virtues needed for the flourishing of oneself and society.

*Communitarian Foreign Policy* Nikolas K. Gvosdev, 2017-07-05 This volume establishes Amitai Etzioni's communitarian approach to international relations as a distinct school of American foreign policy thought. Nikolas K. Gvosdev systematically evaluates Etzioni's ideas, tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East, and considering their strengths and weaknesses. Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required. However, he argues against the imposition of Western policies on the rest of the world, which he sees as a recipe for conflict which the United States cannot afford. He warns against the post-Cold War triumphalism, arguing that it undercuts efforts to find necessary common ground with both Russia and China. An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations. The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats.

**Whistleblowers, Leakers, and Their Networks** Jason Ross Arnold, 2019-08-26 With its conceptual innovations and case studies, Whistleblowers clarifies the much-discussed but under-studied phenomena of leaking and whistleblowing, with a particular focus on the collaborative networks that make the extraction and publication of secrets possible.

The Chinese Army Today Dennis J. Blasko, 2013-06-17 The Chinese Army Today is a comprehensive study of the Chinese military, examining its ground forces in a level of detail not found in any other contemporary works. This new, revised edition has been fully updated to take account of recent changes in the institution. In 1999, the military modernization program of the Chinese People's Liberation Army increased in intensity and achieved a focus not seen in the previous two decades. Based primarily on actual Chinese sources, this book details these changes and puts them in the context of the many traditions that still remain. Written by a retired professional military officer who has served in China, the text uses first-hand observation of the Chinese military and three decades of military experience to weave many disparate threads from official Chinese statements, documents, and media reports into an integrated whole. The author also conducts an in-depth exploration into the many forces that constitute the People's Liberation Army. This is an essential book for all students of Chinese military and security affairs, and highly recommended for students of Chinese Politics, Asian Security, and International Relations and Strategic Studies, in general.
