

Presidential Travel Richard J. Ellis,2008 The first full-length examination of presidential travel and its role in transforming the image and identity of the presidency from first citizen to political celebrity. Colorful anecdotes and acute analysis combine to provide a fresh look at the importance of travel in shaping the imperial presidency.

*Advanced Methodologies and Technologies in Engineering and Environmental Science* Khosrow-Pour, D.B.A., Mehdi,2018-09-07 The ever-increasing awareness and growing focus on environmental issues such as climate change and energy use is bringing about an urgency in expanding research to provide possible solutions to these problems. Through current engineering research and emerging technologies, scientists work to combat modern environmental and ecological problems plaguing the globe. *Advanced Methodologies and Technologies in Engineering and Environmental Science* provides emerging research on the current and forthcoming trends in engineering and environmental sciences to resolve several issues plaguing researchers such as fossil fuel emission and climate change. While highlighting these challenges, including chemical toxicity environmental responsibility, readers will learn how engineering applications can be used across disciplines to aid in reducing environmental hazards. This book is a vital resource for engineers, researchers, professors, academicians, and environmental scientists seeking current research on how engineering tools and technologies can be applied to environmental issues.

Tourism Planning and Development in the Middle East Stella Kladou,Konstantinos Andriotis,Anna Farmaki,Dimitrios Styliadis,2022-12-16 Given the historical and cultural richness of countries in the Middle East region, as well as the economic development many have exhibited in recent years, tourism planning and development gains much significance for both scholars and practitioners. Turbulence, conflicts and crises exhibited in the area add further dimensions that need to be incorporated in tourism strategies and planning, and be taken into consideration by experts at an institutional, corporate and educational level. Furthermore, in order to effectively deal with aspects of sustainability, visions and strategies in the region need to build upon good practices. As a result, a greater understanding is required of the factors influencing decision-making on tourism matters as well as on the impacts and implications of sustainable tourism development. This book is an essential resource for tourism practitioners, decision-makers in private and public organisations, government bodies and consultants, not only from the Middle East, but for all those who want an encompassing view of global tourism.

**Sought Through Prayer and Meditation** Geno W.,2010-01-28 An inspiring collection of meditations, prayers, and insights designed to facilitate the weekly practice of the 11th step, heightening our conscious contact with God as we understand him. Each year, hundreds of men and women cross the threshold of the Wolfe Street Center in Little Rock, Arkansas. Many of them attend the Hour of Power, a weekly Sunday morning meeting focused on heightening one's spiritual awareness and growth by focusing on the Eleventh Step of Alcoholics Anonymous: Sought through prayer and meditation to improve our conscious contact with God as we understood Him, praying only for knowledge of His will for us and the power to carry that out.This special book, designed for weekly study, offers a prayer, a meditation, and related insights from the discussions that emerged during the Hour of Power. Sought Through Prayer and Meditation brings the insights of the collective consciousness of the Wolfe Street groups to recovering people everywhere. This book reminds us that if we are vigilant in our spiritual pursuit, we may well achieve what is promised: a glimpse of that ultimate reality which is God's kingdom. (Geno W.)

*Achieving the Paris Climate Agreement Goals* Sven Teske, 2019-02-01 This open access book presents detailed pathways to achieve 100% renewable energy by 2050, globally and across ten geographical regions. Based on state-of-the-art scenario modelling, it provides the vital missing link between renewable energy targets and the measures needed to achieve them. Bringing together the latest research in climate science, renewable energy technology, employment and resource impacts, the book breaks new ground by covering all the elements essential to achieving the ambitious climate mitigation targets set out in the Paris Climate Agreement. For example, sectoral implementation pathways, with special emphasis on differences between developed and developing countries and regional conditions, provide tools to implement the scenarios globally and domestically. Non-energy greenhouse gas mitigation scenarios define a sustainable pathway for land-use change and the agricultural sector. Furthermore, results of the impact of the scenarios on employment and mineral and resource requirements provide vital insight on economic and resource management implications. The book clearly demonstrates that the goals of the Paris Agreement are achievable and feasible with current technology and are beneficial in economic and employment terms. It is essential reading for anyone with responsibility for implementing renewable energy or climate targets internationally or domestically, including climate policy negotiators, policy-makers at all levels of government, businesses with renewable energy commitments, researchers and the renewable energy industry.

*Handbook of Research on Resident and Tourist Perspectives on Travel Destinations* Pinto, Patrícia, Guerreiro, Manuela, 2020-06-19 Tourism is an economic and social phenomenon that is centered on a tourist's experience and is dependent on the experiences that are co-created and provided to tourists. Tourism destination managers must understand what tourists perceive as engaging, intense, and memorable in order to remain successful. However, care must also be given to the residents' perception of local tourism development and how it impacts their community. This is a fundamental aspect for tourism development since host communities that support tourism development tend to be more hospitable with tourists, which influences their satisfaction and loyalty. Moreover, the interaction with residents of host communities is a crucial component of the quality of the tourist experience, contributing to the long-term success and sustainability of destinations. The *The Handbook of Research on Resident and Tourist Perspectives on Travel Destinations* is a collection of innovative research that examines travel destinations from the resident and tourist perspectives in order to better support and inform the tourism development process and to make the destinations attractive to visitors while at the same time contributing to resident quality of life and happiness. While highlighting topics including sustainable development, hotel management, and customer satisfaction, this book is ideally designed for government officials, tour developers, travel agencies, brand managers, advertising agencies, restaurateurs, public administrators, hotel managers, tourist industry professionals, academicians, researchers, and students.

*Soil pollution: a hidden reality* Food and Agriculture Organization of the United Nations, 2018-04-30 This document presents key messages and the state-of-the-art of soil pollution, its implications on food safety and human health. It aims to set the basis for further discussion during the forthcoming Global Symposium on Soil Pollution (GSOP18), to be held at FAO HQ from May 2nd to 4th 2018. The publication has been reviewed by the Intergovernmental Technical Panel on Soil (ITPS) and contributing authors. It addresses scientific evidences on soil pollution and highlights the need to assess the extent of soil pollution globally in order to achieve food safety and sustainable development. This is linked to FAO's strategic objectives, especially SO1, SO2, SO4 and SO5 because of the crucial role of soils to ensure effective nutrient cycling to produce nutritious and safe food, reduce atmospheric CO<sub>2</sub> and N<sub>2</sub>O concentrations and thus mitigate climate change, develop sustainable soil management practices that enhance agricultural resilience to extreme climate events by reducing soil degradation processes. This document will be a reference material for those interested in learning more about sources and effects of soil pollution.

*Tourism, Conflict and Contested Heritage in Former Yugoslavia* Josef Ploner, Patrick Naef, 2018-12-07 Described as 'cultural crossroads' or 'mosaic', 'powder keg', 'border', 'bridge' or Europe's 'Other', the region comprising former Yugoslavia has, over time, conjured up ambiguous imaginaries associated with political unrest, national contest and ethnic divide. Since the disintegration of Yugoslavia and the succeeding Yugoslav Wars of the 1990s, both the geography and historiography of the region have been thoroughly reconfigured, which has impacted the ways in which heritage is interpreted and used at local, regional and national levels. In this ongoing process of heritage (re)interpretation, tourism is more than just a 'dark' spectacle. While it can be seen as a catalyst through which to filter or normalise dissonant memories, it can also be utilised as a powerful ideological tool which enables the narrative reinvention of contested traditions and divisive myths. Drawing on case studies from Bosnia-Herzegovina, Croatia and Kosovo, this volume generates new and fascinating insights into the contested terrain of heritage tourism in former Yugoslavia. It explores the manifold ways in which tourism stakeholders engage with, capitalise on, and make sense of sites and events marked by conflict and trauma. Unlike many previous studies, this book features contributions by emerging, early-career scholars emanating from within the region, and working across disciplines such as anthropology, art history, geography and political studies. This book was originally published as a special issue of the *Journal of Tourism and Cultural Change*.

**Creating a Sustainable Social Ecology Using Technology-driven Solutions** Elias G. Carayannis,2013 As advancements in technology continue to influence all facets of society, its aspects have been utilized in order to find solutions to emerging ecological issues. *Creating a Sustainable Ecology Using Technology-Driven Solutions* highlights matters that relate to technology driven solutions towards the combination of social ecology and sustainable development. This publication addresses the issues of development in advancing and transitioning economies through creating new ideas and solutions; making it useful for researchers, practitioners, and policy makers in the socioeconomic sectors.

**Chaos and Complexity Theory for Management: Nonlinear Dynamics** Banerjee, Santo,2012-11-30 Although chaos theory refers to the existence between seemingly random events, it has been gaining the attention of science, technology and managements fields. The shift from traditional procedures to the dynamics of chaos and complexity theory has resulted in a new element of complexity thinking, allowing for a greater capability for analyzing and understanding key business processes. *Chaos and Complexity Theory for Management: Nonlinear Dynamics* explores chaos and complexity theory and its relationship with the understanding of natural chaos in the business environment. Utilizing these theories aids in comprehending the development of businesses as a complex adaptive system.

**Dark Tourism and Pilgrimage** Daniel H. Olson,Maximiliano E. Korstanje,2019-12-21 In recent years there has been a growth in both the practice and research of dark tourism; the phenomenon of visiting sites of tragedy or disaster. Expanding on this trend, this book examines dark tourism through the new lens of pilgrimage. It focuses on dark tourism sites as pilgrimage destinations, dark tourists as pilgrims, and pilgrimage as a form of dark tourism. Taking a broad definition of pilgrimage so as to consider aspects of both religious and non-religious travel that might be considered pilgrimage-like, it covers theories and histories of dark tourism and pilgrimage, pilgrimage to dark tourism sites, and experience design. A key resource for researchers and students of heritage, tourism and pilgrimage, this book will also be of great interest to those studying anthropology, religious studies and related social science subjects.

**Bilateral Perspectives on Regional Security** W. Tow,R. Kersten,2012-08-31 This book assesses the key factors underlying such Australian-Japanese cooperation and those policy challenges that could impede it. Experts offer critical insights into why their two countries – traditionally the two key 'spokes' in the US bilateral alliance network spanning Asia – are moving toward a security relationship in their own right.

**Affective Tourism** Dorina Maria Buda,2015-05-15 This book brings together, explores and expands socio-spatial affect, emotion and psychoanalytic drives in tourism for the first time. Affect is to be found in visceral intensities and resonances that circulate around and shape encounters between and amongst tourists, local tourism representatives and places. When affect manifests, it can ‘take shapes’ in the form of emotions such as fun, joy, fear, anger and the like. When it remains a visceral force of latent bodily responses, affect overlaps with drives as expounded in psychoanalysis. The aim of the title, therefore, is to explore how and in what ways affects, emotions and drives are felt and performed in tourism encounters in places of socio-political turmoil such as Jordan, Palestine/Israel, with a detour to Iraq. *Affective Tourism* is highly innovative as it offers a new way of theorising tourism encounters bringing together, critically examining and expanding three areas of scholarship: affective and emotional geographies, psychoanalytic geographies and dark tourism. It has relevance for tourism industries in places in the proximity of ongoing conflicts as it provides in-depth analyses of the interconnections between tourism, danger and conflict. Such understandings can lead to more socio-culturally and politically-sustainable approaches to planning, development and management of tourism. This ground breaking book will be of valuable reading for students and researchers from a number of fields such as tourism studies, geography, anthropology, sociology and Middle Eastern studies.

**Advanced Online Education and Training Technologies** Habib, Maki,2018-08-30 Technology plays a vital role in bridging the digital divide and enhancing student learning both in and outside of the classroom. This is possible thanks to the successful use of educational online technologies and other new teaching resources being integrated into learning environments. *Advanced Online Education and Training Technologies* is an essential reference source that explores student and teacher learning through various online platforms. Featuring research on topics such as professional development in the twenty-first century and cultural differences in online learning environments, this book is ideally designed for educators, students, academicians, and other education professionals seeking coverage on enhanced student learning through technology-based learning tools.

**Scripted Journeys** Tom Nuenen,2021-09-07 The ubiquity of computation in daily life has had decisive influence on the imaginative aspects of tourism. Online knowledge of the world is readily available through mapping services, social media, travel blogs, and online reviews. From booking and Googling, to posting and reminiscing: all stages of one’s trip can be guided and augmented by increasingly connective, personalized, and optimized algorithmic systems. In the face of this informational abundance, hypermediated tourism is fixated on access to authenticity. Peer to peer accommodation offers tourists a chance to live like a local. Professional bloggers instruct not just on where, but on how to travel. Review websites aggregate the feedback of millions into objective, data-driven authentication of destinations. And virtual technologies take users to places they could not

dream of reaching physically. Based on a comparative ethnography of touristic blogs and vlogs, review websites, and video game environments, Scripted Journeys presents a critical analysis of touristic practice in digital ecologies. This hypermediated tourism engages technology as a harbinger of self-possession and waywardness, yet produces its own forms of digital dependence. The resulting scripted journeys internalize a tension between authenticity as autonomy and control, and the implicit compliance of making use of technological extensions.

The Future of Assisted Suicide and Euthanasia Neil M. Gorsuch,2009-03-23 The Future of Assisted Suicide and Euthanasia provides the most thorough overview of the ethical and legal issues raised by assisted suicide and euthanasia--as well as the most comprehensive argument against their legalization--ever published. In clear terms accessible to the general reader, Neil Gorsuch thoroughly assesses the strengths and weaknesses of leading contemporary ethical arguments for assisted suicide and euthanasia. He explores evidence and case histories from the Netherlands and Oregon, where the practices have been legalized. He analyzes libertarian and autonomy-based arguments for legalization as well as the impact of key U.S. Supreme Court decisions on the debate. And he examines the history and evolution of laws and attitudes regarding assisted suicide and euthanasia in American society. After assessing the strengths and weaknesses of arguments for assisted suicide and euthanasia, Gorsuch builds a nuanced, novel, and powerful moral and legal argument against legalization, one based on a principle that, surprisingly, has largely been overlooked in the debate--the idea that human life is intrinsically valuable and that intentional killing is always wrong. At the same time, the argument Gorsuch develops leaves wide latitude for individual patient autonomy and the refusal of unwanted medical treatment and life-sustaining care, permitting intervention only in cases where an intention to kill is present. Those on both sides of the assisted suicide question will find Gorsuch's analysis to be a thoughtful and stimulating contribution to the debate about one of the most controversial public policy issues of our day.

*International Tourism and Hospitality in the Digital Age* Kumar, Suresh,2015-04-30 Tourism is one of the most rapidly evolving industries of the twenty-first century. The economy of many countries all over the world depends on their ability to attract visitors and maintain a distinct edge in a highly competitive market. International Tourism and Hospitality in the Digital Age brings together the best practices for growth, development, and strategic management within the tourism and hospitality industries. Highlighting comparative research that explores the cross-cultural contexts and societal implications of tourism, this book is an essential resource for professionals, researchers, academics, and students interested in a contemporary approach to promoting, managing, and maximizing profitability of leisure and recreation services.

Handbook of Research on Global Hospitality and Tourism Management Camillo, Angelo A.,2015-08-17 The tourism industry is a multi-billion dollar enterprise, with more people from all cultures and nationalities choosing to spend their leisure time traveling and visiting new locations. To exploit this burgeoning market, tourism agencies must carefully consider the desires and goals of travelers from around the world. The Handbook of Research on Global Hospitality and Tourism Management contributes to the body of knowledge on travel and tourism by presenting a global view of the hospitality industry, including theoretical research into industry trends as well as case studies from around the world. This handbook provides travel agents, owner-operators, and students and researchers in the hospitality industry with the latest research, findings, and developments in the field. Within this handbook of cutting-edge research, readers will find chapters and cases on topics such as travel and tourism in a global economy; local, glocal, and international hospitality; challenges in environmental management; cultural cuisine; and destination management, among others.
