The AGROVOC Editorial Guidelines Food and Agriculture Organization of the United Nations, 2022-03-14
The first edition of *The AGROVOC Editorial Guidelines* 2020 (FAO, 2020) was published to share clear, concise and agreed guidelines to guarantee consistency and coherence on selection of concepts and terms. Focus areas included whether to use the singular or plural in each language, how to deal with proper names, scientific names, and geographical names, etc. In 2021, an AGROVOC Editorial Guidelines task force, with members from Empresa Brasileira de Pesquisa Agropecuária, Kuratorium für Technik und Bauwesen in der Landwirtschaft e.V. and FAO, continued to deepen editorial discussions, which resulted in the second edition of *The AGROVOC Editorial Guidelines* 2020. In this second edition, additional guidance has been added on scientific names, spelling, definitions and more. This guide is a set of editorial recommendations for adding content to AGROVOC, with a strong focus on multilingual aspects. The guidelines also apply to sub-vocabularies in AGROVOC.

Trauma to Tršume Danielle Rathey,

Offender Rehabilitation Programmes Laura M.

Small, Paul M.W. Hackett, 2023-04-28 This book shows how prison officers may be able to significantly influence extra-programmatic conditions, to enhance rehabilitation outcomes and contribute to reducing reoffending. It does so through a detailed review of the literature relating to prison-based rehabilitation programmes, examining factors influencing their outcomes and the effects of the prison officer role. Firstly the book explores current understandings about the role of the prison and effective offender rehabilitation programmes. It then describes the processes of the integrative review of how prison officers can support rehabilitation programmes in prisons. Review findings suggest three main routes by which prison officers can contribute to enhancing rehabilitation outcomes: influencing prison social environments, enhancing prisoner treatment readiness and programme engagement and identifying and supporting prisoners' wider needs. This book also explores avenues for further research in this area using a declarative sentence mapping approach. Bridging

two previously distinct areas of research - prison officers and their role; and prison rehabilitation interventions - this book offers new understanding in the real-world context of prisons and their staff as to how we can enhance rehabilitation outcomes. It will be of great interest to academics in penology, forensic psychology, probation, and offender rehabilitation fields. The book is also valuable to postgraduate students and professionals working on prison policy.

The Psychological War for Vietnam, 1960–1968 Mervyn Edwin Roberts III, 2018-02-28 The Psychological War for Vietnam, 1960–1968, for the first time fully explores the most sustained, intensive use of psychological operations (PSYOP) in American history. In PSYOP, US military personnel use a variety of tactics—mostly audio and visual messages—to influence individuals and groups to behave in ways that favor US objectives. Informed by the author’s firsthand experience of such operations elsewhere, this account of the battle for “hearts and minds” in Vietnam offers rare insight into the art and science of propaganda as a military tool in the twentieth century. The Psychological War for Vietnam, 1960–1968, focuses on the creation, capabilities, and performance of the forces that conducted PSYOP in Vietnam, including the Joint US Public Affairs Office and the 4th PSYOP Group. In his comprehensive account, Mervyn Edwin Roberts III covers psychological operations across the entire theater, by all involved US agencies. His book reveals the complex interplay of these activities within the wider context of Vietnam and the Cold War propaganda battle being fought by the United States at the same time. Because PSYOP never occurs in a vacuum, Roberts considers the shifting influence of alternative sources of information—especially from the governments of North and South Vietnam, but also from Australia, Korea, and the Philippines. The

Psychological War for Vietnam, 1960–1968, also addresses the development of PSYOP doctrine and training in the period prior to the introduction of ground combat forces in 1965 and, finally, shows how the course of the war itself forced changes to this doctrine. The scope of the book allows for a unique measurement of the effectiveness of psychological operations over time.
