A Quick-Start Guide to Cloud Computing cuts through the industry hype and provides non-technical explanations about what it is and how it can improve your business. With case studies from large and small business, it shows how enabling a remote workforce and sharing resources can reduce your organisation's carbon footprint. It describes: the benefits of cloud computing; how to choose the right supplier and technologies for your particular business; key security issues and the perils and pitfalls to avoid. This Quick Start Guide puts business needs before technology, enabling you to make confident decisions about IT strategy, make the right choices for your business and reject 'solutions' that fix problems you don't have.

This year's program spanned a wide range of research that explored new features, algorithms, and infrastructure related to mobile platforms. We received submissions from many countries around the world with a high number from Europe and Asia in addition to the many from North America. Each paper received at least three independent reviews from our Technical Program Committee members during the Spring of 2009, with final results coming out in July. As a result of the review process, we selected 15 high-quality papers and complemented them with six invited submissions from leading researchers, reaching the final count of 21 papers in the program.

*The Islamophobia Industry* Nathan Chapman Lean,2017 It is undeniable that there is a rising tide of Islamaphobia sweeping across the United States and Europe. With *The Islamophobia Industry*, Nathan Lean takes us through the disturbing worlds of conservative bloggers, right wing talk show hosts, evangelical religious leaders, and politicians--all united in a quest to revive post-9/11 xenophobia and convince their compatriots that Islam is the enemy. Lean uncovers modern scare tactics, reveals each groups' true motives, and exposes the ideologies that drive their propaganda machine. Situating Islamaphobia within a long history of national and international fears, *The Islamophobia Industry* challenges the illogical narrative of hate that dominated discussions about Muslims and Islam for too long. With this new, updated edition, Lean includes material on the 2016 election and the rhetoric of fear that contributed to Trump's win, the effects of Brexit and Europe's refugee crisis, and the bleak realities about how the new government shaping the United States will increase racism and hate crime, as we are already beginning to see. He discusses the Islamaphobia industry's most extreme figures: Breitbart writers, Bill Maher, Steve Bannon, Newt Gingrich, and more. Sharp, intelligent, and shocking, this updated edition offers a timely and in-depth look into the creation and continuation of Islamophobia in the United States and United Kingdom.
