Critical Risks of Different Economic Sectors Dmitry Chernov,Didier Sornette,2019-12-03 This book explores the major differences between the kinds of risk encountered in different sectors of industry - production (including agriculture) and services - and identifies the main features of accidents within different industries. Because of these differences, unique risk-mitigation measures will need to be implemented in one industry that cannot be implemented in another, leading to large managerial differences between these broad economic sectors. Based on the analysis of more than 500 disasters, accidents and incidents - around 230 cases from the production sector and around 280 cases from the service sector - the authors compare the risk response actions appropriate within different sectors, and establish when and how it is possible to generalize the experience of dealing with risks in any given industry to a wider field of economic activity. This book is mainly intended for executives, strategists, senior risk managers of enterprise-wide organizations and risk management experts engaged in academic or consulting work. By setting out clearly the sector differences in risk management, the authors aim to improve the practice of general risk assessment with regard to identifying and prioritizing risks, and of risk control with regard to planning appropriate mitigation measures.

Prayer & Worship ,2020-08-27 In the Church prayer and worship is often thought of as singing hymns and asking God to bless your baby's first birthday or great aunt's hip surgery. Isn't that what I do to be a good Christian? But did you know that worship is far more than singing? Did you know that prayer is far more than reciting a repeat after me prayer? As people of habit and routine, prayer can become just another daily ritual where we lose sight of its richness and true purpose-talking to God Himself. Prayer & Worship addresses the purpose of prayer and worship in the life of a believer and the importance of remaining steadfast in it. It discusses the different ways we can approach God, what is required of us before approaching God, how we are to use our whole bodies in prayer, and, finally, practical tips found in the Psalms.However, more than giving tips and pointers which can themselves become a checklist, our hope is that this little booklet will get you to rethink WHY you do what you do. Worship is a lifestyle and not merely an aspect of something we do. We worship God with our very lives, and we need to keep our hearts engaged with God. He desires to meet with us. The question is: will you meet with Him?
