UFO Religions Christopher Partridge,2012-11-12 The spectre of the UFO, as popularized by shows such as The X-Files, has brought an astonishing slant to the face of modern religious practice. But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers? UFO Religions critically examines some of the fascinating issues surrounding UFO worship - abduction narratives, UFO-based interpretations of other religions, the growth of pseudo-sciences purporting to explain UFOs, and the responses of the core scientific community to such claims. Focusing on contemporary global UFO groups including the Raelian Movement, Heaven's Gate, Unarius and the Ansaaru Allah Community, it gives a clear profile of modern UFO controversies and beliefs.

Gender Inclusive Adam Jones,2008-12-02 Gender Inclusive offers a challenging and unconventional reinterpretation of gender and mass violence. Compiling essays and excerpts drawn from nearly two decades of Adam Jones's writing on gender and politics, this stimulating and diverse collection of essays explores vital issues surrounding 'gendercide' (gender-selective mass killing) including: How gender shapes men and women as victims and perpetrators of mass violence, including genocide. The range of gender-selective atrocities inflicted upon males, especially the gendercidal killing of civilian men of battle age. The victimization of women and girls worldwide, including the structural forms of violence (gendercidal institutions) directed against them. Genocidal violence throughout modern history, with a particular focus on the Balkans and Rwanda. In-depth critiques of prevailing gender framings in academic scholarship, mass media, and the policy sphere. Adam Jones – recently selected as one of fifty key thinkers in Holocaust and genocide studies – contests prevailing interpretations of gender and violence, arguing that they fail to capture the broad range of gendered experience. His global-historical treatment is essential reading for anyone with an interest in genocide, human rights and gender studies.

Post-Object Fandom Rebecca Williams,2016-07-28 Fandom is generally viewed as an integral part of everyday life which impacts upon how we form emotional bonds with ourselves and others in a modern, mediated world. Whilst it is inevitable for television series to draw to a close, the reactions of fans have rarely been considered. Williams explores this everyday occurrence through close analysis of television fans to examine how they respond to, discuss, and work through their feelings when shows finish airing. Through a range of case studies, including The West Wing (NBC, 2000-2006), Lost (ABC 2004 -2010), Buffy the Vampire Slayer (1997-2003), Doctor Who (BBC 1963-1989; 2005-), The X-Files (FOX, 1993-2002), Firefly (FOX, 2002) and Sex and the City (HBO, 1998-2004), Williams considers how fans prepare for the final episodes of shows, how they talk about this experience with fellow fans, and how, through re-viewing, discussion and other fan practices, they seek to maintain their fandom after the show's cessation.

Ethnopragmatics Cliff Goddard,2011-04-20 The studies in this volume show how speech practices can be understood from a culture-internal perspective, in terms of values, norms and beliefs of the speech communities concerned. Focusing on examples from many different cultural locations, the contributing authors ask not only: 'What is distinctive about these particular ways of speaking?', but also: 'Why - from their own point of view - do the people concerned speak in these particular ways? What sense does it make to them?'. The ethnopragmatic approach stands in opposition to the culture-external universalist pragmatics represented by neo-Gricean pragmatics and politeness theory. Using cultural scripts and semantic explications - techniques developed over 20 years work in cross-cultural semantics by Anna Wierzbicka and colleagues - the authors examine a wide range of phenomena, including: speech acts, terms of address, phraseological patterns, jocular irony, facial expressions, interactional routines, discourse particles, expressive derivation, and emotionality. The authors and languages are: Anna Wierzbicka (English), Cliff Goddard (Australian English), Jock Wong (Singapore English), Zhengdao Ye (Chinese), Catherine Travis (Colombian Spanish), Rie Hasada (Japanese) and Felix Ameka (Ewe). Taken together, these studies demonstrate both the profound cultural shaping of speech practices, and the power and subtlety of new methods and techniques of a semantically grounded ethnopragmatics. The book will appeal not only to linguists and anthropologists, but to all scholars and students with an interest in language, communication and culture.

Among the Scientologists Donald A. Westbrook,2018-11-01 The Church of Scientology is one of the most recognizable American-born new religions, but perhaps the least understood. With academic and popular interest on the rise, many books have been written about Scientology and surely more will follow. Although academics have begun to pay more attention to Scientology, the subject has received remarkably little qualitative attention. Indeed, no work has systematically addressed such questions as: what do Scientologists themselves have to say about their religion's history, theology, and practices? How does Scientology act as a religion for them? What does lived religion look like for a Scientologist? This is not so much a book about the Church of Scientology, its leaders, or its controversies, as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves. Drawing on six years of interviews, fieldwork, and research conducted among members of the Church of Scientology, this groundbreaking work examines features of the new religion's history, theology, and praxis in ways that move discussion beyond apostate-driven and exposé accounts.

Ghost Ship A.D.A France-Williams,2020-07-10 The Church is very good at saying all the right things about racial equality. But the reality is that the institution has utterly failed to back up these good intentions with demonstrable efforts to reform. It is a long way from being a place of black flourishing. Through conversation with clergy, lay people and campaigners in the Church of England, A.D.A France-Williams issues a stark warning to

the church, demonstrating how black and brown ministers are left to drown in a sea of complacency and collusion. While sticking plaster remedies abound, France-Williams argues that what is needed is a wholesale change in structure and mindset. Unflinching in its critique of the church, Ghost Ship explores the harrowing stories of institutional racism experienced then and now, within the Church of England. Far from being an issue which can be solved by simply recruiting more black and brown clergy, says France-Williams, structural racism requires a wholesale dismantling and reassembling of the ship - before it is too late.

Mysticism, Myth and Celtic Identity Marion Gibson, Shelley Trower, Garry Tregidga, 2013 *Mysticism, Myth and Celtic Identity* explores how the mythical and mystical past informs national imaginations. Building on notions of invented tradition and myths of the nation, it looks at the power of narrative and fiction to shape identity, with particular reference to the British and Celtic contexts. The authors consider how aspects of the past are reinterpreted or reimagined in a variety of ways to give coherence to desired national groupings, or groups aspiring to nationhood and its 'defence'. The coverage is unusually broad in its historical sweep, dealing with work from prehistory to the contemporary, with a particular emphasis on the period from the eighteenth century to the present. The subject matter includes notions of ancient deities, Druids, Celticity, the archaeological remains of pagan religions, traditional folk tales, racial and religious myths and ethnic politics, and the different types of returns and hauntings that can recycle these ideas in culture. Innovative and interdisciplinary, the scholarship in *Mysticism, Myth and Celtic Identity* is mainly literary but also geographical and historical and draws on religious studies, politics and the social sciences. Thus the collection offers a stimulatingly broad number of new viewpoints on a matter of great topical relevance: national identity and the politicization of its myths.
