*The Life and Works of Augusta Jane Evans Wilson, 1835-1909* Brenda Ayres,2016-03-03 Over the course of her 57-year career, Augusta Jane Evans Wilson published nine best-selling novels, but her significant contributions to American literature have until recently gone largely unrecognized. Brenda Ayres, in her long overdue critical biography of the novelist once referred to as the 'first Southern woman to enter the field of American letters,' credits the importance of Wilson's novels for their portrait of nineteenth-century America. As Ayres reminds us, the nineteenth-century American book market was dominated by women writers and women readers, a fact still to some extent obscured by the make-up of the literary canon. In placing Wilson's novels firmly within their historical context, Ayres commemorates Wilson as both a storyteller and maker of American history. Proceeding chronologically, Ayres devotes a chapter to each of Wilson's novels, showing how her views on Catholicism, the South, the Civil War, male authority, domesticity, Reconstruction, and race were both informed by and resistant to the turbulent times in which she lived. This comprehensive and meticulously researched biography contributes not only to our appreciation of Wilson's work, but also to her importance as a figure for understanding women's roles in history and their art, evolving gender roles, and the complicated status of women writers.

**Phoenix Rising** Donald G. Lett,2008-02 In an age when the supply of gasoline to feed this modern American society has become both more expensive and more scarce questions are being pondered. Inquires like, 'How can a modern society scale back its dependence on gasoline as a motive source?' 'Are there genuine alternative power sources?' 'Are they the answer to a growing crisis?' Recent announcements of hybrids like those from Honda, Toyota, and Ford have really brought attention to this issue. Hybrids that use both gasoline engines and electric motors. Really, though, alternative power sources have been around for as long as the automobile has been. The battle between and among the steam car, the electric and the gas car was fought out in the first couple of decades of the twentieth century. This book explores the ins and outs of that battle. A struggle from which the gasoline car emerged completely victorious. To such an extent that steam cars and electric cars virtually disappeared from the scene for many decades. We will look over all three alternatives, exploring their advantages and disadvantages. We will also look over the obstacles to the steamers and the electrics. Barriers that still exist to a certain extent. Handicaps that caused their disappearance in the first place.

**Atlas of Slavery and Civil Rights** Nicholas J Santoro,2006 Slavery came to North America via Virginia in the early 1600s. It would be two hundred and sixty-five years before the practice would finally come to an end. It would take another one hundred years before the basic civil rights of those former slaves and their descendants were fully established in law. During that time and thereafter, it would be a matter of attitude and acceptance by the white race. Of the years, there were a number of pivotal events that shaped the issues and the responses to slavery and civil rights. The Atlas presents a number of these events in an attempt to tell part of the history of the march for equality in America. It also includes brief biographical sketches of the lives of many of the leading figures that led the fight. This work deals with black Americans or blacks, a term that has become synonymous with the Negro race itself; their struggle out of slavery; and their quest for acceptance and equal rights under the law. The effects of slavery were all pervasive. Without an understanding of and an appreciation for slavery, segregation, and the struggle for equal rights, it is difficult if not impossible to understand the America of our history and to reach beyond where we are today to arrive at where we need to be.

**Healthcare Valuation, The Financial Appraisal of Enterprises, Assets, and Services** Robert James Cimas,2014-03-24 A timely look at the healthcare valuation process in an era of dynamic healthcare reform, including theory, methodology, and professional standards In light of the dynamic nature of the healthcare industry sector, the analysis supporting business valuation engagements for healthcare enterprises, assets, and services must address the expected economic conditions and events resulting from the four pillars of the healthcare industry: Reimbursement, Regulation, Competition, and Technology. Healthcare Valuation presents specific attributes of each of these enterprises, assets, and services and how research needs and valuation processes differentiate depending on the subject of the appraisal, the environment the property interest exists, and the nature of the practices. Includes theory, methodology, and professional standards as well as requisite research, analytical, and reporting functions in delivering healthcare valuation services Provides useful process tools such as worksheets and checklists, relevant case studies, plus a website that will include comprehensive glossaries and topical bibliographies Read Healthcare Valuation for a comprehensive treatise of valuation issues in the healthcare field including trends of compensation and reimbursement, technology and intellectual property, and newly emerging healthcare entities.

*Church, State, and Democracy in Expanding Europe* Lavinia Stan,Lucian Turcescu,2011-09-22 Lavinia Stan and Lucian Turcescu examine the relationship between religion and politics in ten former communist Eastern European countries, showing church-state relations in the new EU member states through study of political representation for church leaders, governmental subsidies, registration of religions by the state, and religious instruction in public schools.

Using Internet Primary Sources to Teach Critical Thinking Skills in Government, Economics, and Contemporary World Issues James M. Shiveley,Phillip J. VanFossen,2001-09-30 Teachers of political science, social studies, and economics, as well as school library media specialists, will find this resource invaluable for incorporating the Internet into their classroom lessons. Over 150 primary source Web sites are referenced and paired with questions and activities designed to encourage critical thinking skills. Completing the activities for the lessons in this book will allow students to evaluate the source of information, the content presented, and its usefulness in the context of their assignments. Along with each Web site, a summary of the site's contents identifies important primary source documents such as constitutions, treaties, speeches, court cases, statistics, and other official documents. The questions and activities invite the students to log on to the Web site, read the information presented, interact with the data, and analyze it critically to answer such questions as: Who created this document? Is the source reliable? How is the information useful and how does it relate to present-day circumstances? If I were in this situation, would I have responded the same way as the person in charge? Strengthening these critical thinking skills will help prepare students for both college and career in the 21st century.

Clash of Extremes Marc Egnal,2010-01-05 Clash of Extremes takes on the reigning orthodoxy that the American Civil War was waged over high moral principles. Marc Egnal contends that economics, more than any other factor, moved the country to war in 1861. Drawing on a wealth of primary and secondary sources, Egnal shows that between 1820 and 1850, patterns of trade and production drew the North and South together and allowed sectional leaders to broker a series of compromises. After midcentury, however, all that changed as the rise of the Great Lakes economy reoriented Northern trade along east-west lines. Meanwhile, in the South, soil exhaustion, concerns about the country's westward expansion, and growing ties between the Upper South and the free states led many cotton planters to contemplate secession. The war that ensued was truly a clash of extremes. Sweeping from the 1820s through Reconstruction and filled with colorful portraits of leading individuals, Clash of Extremes emphasizes economics while giving careful consideration to social conflicts, ideology, and the rise of the antislavery movement. The result is a bold reinterpretation that will challenge the way we think about the Civil War.

Religion and Politics in Post-Communist Romania Lavinia Stan,Lucian Turcescu,2007-10-25 Stan and Turcescu examine the complex relationship between church and state in the new Romania, providing analysis in key areas: church collaboration with communist authorities, post-communist electoral politics, nationalism and ethno-politics, and religious education, among other areas.

*Sources of State Practice in International Law* Ralph Gaebler,Alison Shea,2014-06-06 Sources of State Practice in International Law is bibliography of treaty and diplomatic sources for important jurisdictions around the world. It also includes a summary for each jurisdiction of issues related to treaty succession and treaty implementation in municipal law.

**The Rise of the Global South** Elijah Jong Fil Kim,2012-04-06 Global Christianity has been experiencing an unprecedented historical transition from the West to the non-Western world. The leadership of global Christianity has taken on a new face since the twentieth century. Christendom in Europe and America has experienced a great decline while there has been a rise in Majority World Christianity. Churches in the Global South have given their voices to global Christianity through their leadership, world mission movements, and theology. The phenomenal church growth has risen from the Pentecostal and Charismatic movement. Pentecostalism has become the dominant force in global Christianity today. The Rise of the Global South examines the significance this shift has had on global Christianity by going through the history of Christianity in the West and the

causes of the shift.

**Tasting Freedom** Daniel R. Biddle, Murray Dubin, 2010-08-13 The life and times of the extraordinary Octavius Catto, and the first civil rights movement in America.

*Military Courts, Civil-Military Relations, and the Legal Battle for Democracy* Brett J. Kyle, Andrew G. Reiter, 2020-12-22 The interaction between military and civilian courts, the political power that legal prerogatives can provide to the armed forces, and the difficult process civilian politicians face in reforming military justice remain glaringly under-examined, despite their implications for the quality and survival of democracy. This book breaks new ground by providing a theoretically rich, global examination of the operation and reform of military courts in democratic countries. Drawing on a newly created dataset of 120 countries over more than two centuries, it presents the first comprehensive picture of the evolution of military justice across states and over time. Combined with qualitative historical case studies of Colombia, Portugal, Indonesia, Fiji, Brazil, Pakistan, and the United States, the book presents a new framework for understanding how civilian actors are able to gain or lose legal control of the armed forces. The book's findings have important lessons for scholars and policymakers working in the fields of democracy, civil-military relations, human rights, and the rule of law.

*Piety and Politics* Joseph Chin Yong Liow, Joseph Chinyong Liow, 2009-04-07 Malaysia, home to some 20 million Muslims, is often held up as a model of a pro-Western Islamic nation. The government of Malaysia, in search of Western investment, does its best to perpetuate this view. This book offers a comprehensive analysis of the growing role of Islam in the last quarter century of Malaysian politics.

**Business Sustainability Factors of Performance, Risk, and Disclosure** Zabihollah Rezaee, 2021-03-08 Business Sustainability Factors of Performance, Risk, and Disclosure examines sustainability factors of performance, risk and disclosure. The five dimensions of sustainability performance are economic, governance, social, ethical, and environmental (EGSEE). Business sustainability is advancing from the greenwashing and branding to, very recently, business imperative as shareholders demand, regulators require, and companies report their sustainability performance. Sustainability has become economic and strategic imperative with potential to create opportunities and risks for businesses. Business Sustainability Factors of Performance, Risk, and Disclosure examines sustainability factors of performance, risk and disclosure. The five dimensions of sustainability performance are economic, governance, social, ethical, and environmental (EGSEE). Sustainability risks are reputational, strategic, operational, compliance, and financial (RSOCF). Sustainability disclosures are relevant to financial economic sustainability performance (ESP) and non-financial environmental, social, and governance (ESG) sustainability performance with ethics are integrated into all other components of sustainability performance. This book offers guidance for proper measurement, recognition, and reporting of all five EGSEE dimensions of sustainability performance. It also highlights how people, business, and resources collaborate in a business sustainability and accountability model in creating shared value for all stakeholders. The three sustainability factors of performance, risk and disclosure are driven from the stakeholder primacy concept with the mission of profit-with-purpose. Anyone who is involved with business sustainability and corporate governance, the financial reporting process, investment decisions, legal and financial advising, and audit functions will benefit from this book.

*Against* Tad DeLay, 2019-08-06 What does the white evangelical want? In our moment of crisis and rage, this question is everywhere. Scholars ask from where its desires emerged, pundits divine its political future, and the public asks how we lapsed into social chaos. For their part, white evangelicals feel misunderstood while failing to see the direction of their ambitions. We must interrogate its aims not only through its past or current trends but also through the various fantasies by which it rejects and enlivens reality. *Against* traces five zones of opposition: future, knowledge, sexuality, reality, and society. If climate change is the greatest threat civilization has ever faced, then a faith aiding collapse must face analysis. If it swims in assured forgiveness, it feels no shame for its sins against humanity. If it wants a king, it threatens democracy. If it veils xenophobia, it shall be ever more cruel. In a critical and accessible history of odd ideas, DeLay chronicles the past and sketches its troubling future. It might die, but what's certain is that a faith built on nostalgia and supremacy won't moderate. We live in dangerous times, so let us consider its justifications, turmoil, appetite, and catastrophe.

*Readability of Quarterly Reports: Do companies mislead investors?* Bernhard Stellner, 2014-02-01 Financial reports can be regarded as the primary means of communication between a company's management and its shareholders. The reports also address all other kinds of stakeholders like employees, suppliers, customers, competitors, governments, potential investors, bond holders and, in a broad sense, the entire society. Still, it is questionable whether managers really deliver true information in their reports. One possible way of obscuring corporate information when results are negative, or of being forthcoming in disclosing information when results are good, is to adjust the reports' readability which can influence understandability as a consequence. The concrete aim of this study is to focus on the readability of letters to the shareholders of bilingual (German and English) quarterly reports of listed companies at Frankfurt Stock Exchange. It is examined how various factors influence the readability of company reports.

**While Father Is Away** Jennifer Cain Bohrnstedt, 2021-12-14 *While Father is Away* reveals the intimate story of a British-American's role in the American Civil War. William Bradbury's letters home provide a rare window on the unique relationships among husband, wife, and children while a father was away at war. Yorkshire attorney turned Union volunteer soldier Bradbury became a privileged private with extraordinary access to powerful Union generals including Daniel Butterfield, future president Benjamin Harrison, and Clinton B. Fisk, the region's administrator for the Freedmen's Bureau during Reconstruction. The letters also provide an in-depth look at this driven land speculator and manager for the Atchison Topeka Santa Fe Railway. As a reporter for the Chicago Tribune and the Manchester Guardian, Bradbury was both eyewitness to and participant in the shaping of events in the world as it moved west.

**Emma Darwin** James D. Loy, Kent M. Loy, 2010-09-19 In 1808, Josiah Wedgwood II, owner and general manager of the famous pottery and china manufactory that bore his name, welcomed an eighth child into his large, vibrant family. This daughter, Emma, had a relatively happy childhood and grew up intelligent, educated, and religious. A talented sportswoman and an accomplished pianist, she married her cousin Charles Darwin at the age of thirty, bore ten children in their forty-three years together, and patiently nursed her famous husband through mysterious and chronic illnesses. Informed by her strong Christian faith as well as her quick, inquiring mind, Emma learned to coexist with her husband's radical scientific theories, though she worried about the fate of Charles's soul. Although the high spirits of her youth were somewhat dampened by the cares of life, she managed family and household affairs—including the difficult circumstances surrounding the death of three children—with courage, gravity, and a sense of humor. In this charming volume, the wife, companion, and confidante of the father of evolution comes into full focus. Drawing upon Emma's personal correspondence as well as the abundant literature about her husband, authors James Loy and Kent Loy reveal the fascinating story of an exceptional woman who remained true to herself despite hardship and who, in the process, humanized her work-obsessed husband and held her family together.

*Spiritual Empires in Europe and India* Perry Myers, 2021-10-30 This book provides a comparative analysis of cosmopolitan (esoteric) religious movements, such as Theosophy, Groupe Independent des Études Ésotériques, Anthroposophy, and Monism, in England, France, Germany, and India during the late nineteenth-century to the interwar years. Despite their diversity, these factions manifested a set of common features—anti-materialism, embrace of Darwinian evolution, and a belief in universal spirituality—that coalesced in a transnational field of analogous cosmopolitan spiritual affinities. Yet, in each of their geopolitical locations these groups developed vastly different interpretations and applications of their common spiritual tenets. This book explores how such religious innovation intersected with the social (labor and economic renewal), cultural (education and religious innovation) and political (Empire and anti-colonial) dynamics in these vastly different national domains. Ultimately, it illustrates how an innovative religious discourse converged with the secular world and became applied to envision a new social order—to spiritually re-engineer the world.

**American Realism** Gerry Souter, 2012-05-08 Urban realism, snow-covered streets of New York, boxing matches, children on the banks of a river, the painters of the Ash Can School preferred realistic images. Their paintings are a true hymn to noise and sensations. This unconventional movement enabled the birth of a true national artistic identity which broke free from the establishment. The Ash Can School resolutely promoted the

affirmation of the modernist current of American art. Edward Hopper, who was a student of Robert Henri, embraced the principles of this movement and brought them to another level.
