Foreign Correspondents and International Newsgathering Colleen Murrell, 2014-11-27 This book reveals that 'fixers'—local experts on whom foreign correspondents rely—play a much more significant role in international television newsgathering than has been documented or understood. Murrell explores the frames through which international reporting has traditionally been analysed and then shows that fixers, who have largely been dismissed by scholars as 'logistical aides', are in fact central to the day-to-day decision-making that takes place on-the-road. Murrell looks at why and

how fixers are selected and what their significance is to foreign correspondence. She asks if fixers help introduce a local perspective into the international news agenda, or if fixers are simply 'People Like Us' (PLU). Also included are in-depth case studies of correspondents in Iraq and Indonesia.

Equal parts genealogical memoir, art photography, and local history, *Jordan's Journey* pulls you in with a rich and immersive experience. With more than 75 original photos by the author, as well as over 150 vintage images, *Jordan's Journey* invites you on a trip into the rural south of yesteryear. **Kazakhstan** Ariel Cohen,2006 This important study explains how Russia, with its private sector and policy makers working in tandem, has exerted a significant amount of control over Kazakhstan's vast natural resources and its economic freedom. It looks at the way Russia and Kazakhstan agreed to divide the Caspian Sea shelf and how Kazakhstan has managed to maintain good relations with Moscow overall, despite its insistence on exporting energy resources to China and Europe directly and its hopes to export through Iran. This series of reports establishes for the first time the

confluence of Russian foreign policy with the acquisition of foreign energy assets by Russian entities. Nine specific country profiles focus on the oil, gas, electricity and nuclear power industries. Each report written by an author of international standing, explains how Russian foreign energy downstream mergers and acquisitions are transpiring to consolidate the new Russian empire.

*This Side of Paradise* F. Scott Fitzgerald,2009-04-01 *This Side of Paradise* is a novel about post-World War I youth and their morality. Amory Blaine is a young Princeton University student with an attractive face and an interest in literature. His greed and desire for social status warp the theme of love weaving through the story.

*Friendship* Daniel J. Hruschka,2010 Hruschka's integrative approach provides a robust, and accessible, view of the complexities of making, having, and being friends. This kind of inquiry is at the forefront of modern biocultural anthropology.--Agustin Fuentes, author of *Evolution of Human Behavior* Despite its importance to human happiness and well-being, friendship has long been a puzzle--largely a neglected one--for evolutionary scholars. Daniel Hruschka's book is a long overdue remedy to this situation. Through a deft combination of rigorous analysis and fine writing, Hruschka provides a thorough examination of friendship across the full range of human societies, past and present. His book will be an essential starting point for future work on this important topic.--Lee Cronk, author of *That Complex Whole: Culture and the Evolution of Human Behavior* With *Friendship*, Dan Hruschka uses evolutionary science to breathe new life into a topic that is vastly important and woefully misunderstood. Remarkable for its scope, insightfulness, and clarity, this book will change how we think about friendship for years to come.--Michael McCullough, author of *Beyond Revenge: The Evolution of the Forgiveness Instinct*

**Touchless Palmprint Recognition Systems** Angelo Genovese,Vincenzo Piuri,Fabio

Scotti,2014-09-15 This book examines the context, motivation and current status of biometric systems based on the palmprint, with a specific focus on touchless and less-constrained systems. It covers new technologies in this rapidly evolving field and is one of the first comprehensive books on palmprint recognition systems. It discusses the research literature and the most relevant industrial applications of palmprint biometrics, including the low-cost solutions based on webcams. The steps of biometric recognition are described in detail, including acquisition setups, algorithms, and evaluation procedures. Constraints and limitations of current palmprint recognition systems are analyzed and discussed. The authors also introduce innovative methods for touchless and less-constrained palmprint recognition, with the aim to make palmprint biometrics easier to use in practical, daily-life applications, and overcome the typical constraints and limitations described. Touchless Palmprint Recognition Systems targets professionals and researchers working in biometrics, image processing and three-dimensional reconstruction. Advanced-level students studying biometrics and computer science will also find this material valuable as a secondary text book or reference.

**Bridging Neoliberalism and Hindu Nationalism** Marie Lall,Kusha Anand,2022-09-30 India will soon be the world's most populated country and its political development will shape the world of the 21st century. Yet Hindu nationalism - at the helm of contemporary Indian politics - is not well understood outside of India, and its links to the global neoliberal trajectory have not been explored. Covering 30 years of Indian politics, this book shows for the first time the importance of education in propagating the acceptance of Hindu nationalism within a neoliberal system, including the reframing of the concept of Indian citizenship. The first five years of Modi rule failed to bring about the development that had been promised and have seen India's rapid change from a largely inclusive

society to one where religious minorities are denied their basic rights.

*Early Childhood Education in Chinese Societies* Nirmala Rao,Jing Zhou,Jin Sun,2017-01-20 This book provides an up-to-date account of relevant early childhood policy and practice in five Chinese societies: the People's Republic of China or Mainland China, Hong Kong, Macao, Singapore, and Taiwan. It analyses how traditional Chinese values, Eastern and Western curricular approaches, and socio-political, economic, cultural and demographic changes influence current policies, services and practice. It addresses responses to global concerns about the excluded and disadvantaged, and about quality, and explains lessons from and for Chinese early childhood education. This book is the first English-language research-based review of early childhood education and the factors that affect it in different Chinese societies.
