Military Modernisation in Southeast Asia after the Cold

War Shang-Su Wu, 2024-04-01 Southeast Asian countries represent a wide range of approaches to military modernisation due to their great diversity in politics, economies, geography and other factors. Bounded by the Pacific and Indian Oceans and located between China and India is the setting for the geostrategic impacts of military modernisation in Southeast Asian countries. Differing from previous research focused on military acquisition, this book additionally covers retention of assets and carefully examines the ageing issues that affect readiness and capabilities. In doing so, it provides a comprehensive view of military modernisation. This book also compares each country's situation in the region in terms of military strength and security challenges to elaborate on the geostrategic impacts of military modernisation. The ten cases of military modernisation in the post-Cold War context provide rich content for readers to explore the evolution of military modernisation in developing countries after 1991. This book sheds light on security studies of Southeast Asia and is a useful resource for academic researchers, policy-makers and defence practitioners.

Daughters of Infamy David Kilmer, 2011-11-18

On December 7, 1941, the Japanese Navy attacked the American Pacific Fleet at Pearl Harbor, Hawaii. The perception remains that they succeeded in severely crippling the navy; however, nothing could be further from the truth. Thanks to meticulous research, *Daughters of Infamy* puts this myth rest and shows that the vast majority of warships in the harbor suffered no damage at all. Former US Navy photographer David Kilmer provides documentation on each ship that survived the Pearl Harbor massacre. He records what happened the day of the attack, then traces the ships movements after December 7 and, in some cases,

their destiny after the war. Contrary to popular belief, many met the enemy and helped to win the war in the Pacific. Undoubtedly the first work to compile factual and informative data on nearly all the ships in Pearl Harbor in December of 1941, Kilmers in-depth record fills a scholarly void. His fascinating narrative on each ship adds another layer of expertise and provides a new perspective on a familiar event.

Geopolymers Petrica Vizureanu, Mohd Mustafa Al Bakri Abdullah, Rafiza Abdul Razak, Dumitru Doru Burduhos-Nergis, Liew Yun-Ming, Andrei Victor Sandu, 2023-11-22

Geopolymers presents a complex and interdisciplinary study in the fields of physics, chemistry, materials science, and civil engineering on oxide materials based on mineral wastes, known as geopolymers. Considering the ideal requirements for developing eco-friendly materials for industrial applications, this book describes how to design and develop different types of geopolymers that use mineral wastes or natural aluminosilicates as raw materials. It contains advanced knowledge and information regarding geopolymer manufacturing, development, characterization, and applications in soil stabilization, civil engineering, or ceramics. This book is relevant for undergraduate and graduate students conducting fundamental and applied research in the fields of materials engineering, ceramics engineering, and water processing.

A Contemporary Concept of Monetary Sovereignty Claus D. Zimmermann, 2013-11-07 Monetary sovereignty is a crucial legal concept dictating that states have sovereignty over their own monetary, financial, and fiscal affairs. However, it does not feature as part of any key instruments of international law, including the Articles of Agreement of the International Monetary Fund. Rather, it has remained a somewhat separate notion, developed under contemporary international law from an assertion of the former Permanent Court of International Justice in 1929. As a consequence of globalization and increasing

financial integration and a worldwide trend towards the creation of economic and monetary unions, the principle of monetary sovereignty has undergone significant change. This book examines this evolution in detail, and provides a conceptual framework to demonstrate what this means for the legal and economic challenges faced by the international community. The book examines the historic origins and evolution of the concept of monetary sovereignty, putting it into the context of broader concepts of sovereignty. It argues that monetary sovereignty remains relevant as a dynamic legal concept with both positive and normative components. It investigates the continuing hybridization of international monetary law resulting from changes to its formal and material sources. It then examines the complex phenomenon of exchange rate misalignment under international monetary and trade law, and the increasing regionalization of monetary sovereignty, notably in light of the European sovereign debt crisis. Finally, it assesses the role the concept of monetary sovereignty can play in the reorganization of international finance following the recent global financial crisis.

Environmental Planning Handbook Tom Daniels, 2017-11-08
Environmental protection is a global issue. But most of the action is happening at the local level. How can communities keep their air clean, their water pure, and their people and property safe from climate and environmental hazards? Newly updated, *The Environmental Planning Handbook* gives local governments, nonprofits, and citizens the guidance they need to create an action plan they can implement now. It's essential reading for a post-Katrina, post-Sandy world.

Sectarianism in Iraq Khalil Osman, 2014-10-10
This book links sectarianism in Iraq to the failure of the modern nation-state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry. After a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality, the author sets out to explain the

persistence of sectarian affiliations in Iraq since its creation following the dismemberment of the Ottoman Empire. Despite the adoption of homogenizing state policies, the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups, the Shicites before 2003 and the Sunnis in the post-2003 period. The book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened sectarian consciousness. Tracing how the anti-Persian streak in the nation-state's Pan-Arab ideology, which camouflaged anti-Shicism, undermined Iraq's national integration project, *Sectarianism in Iraq* delves into the country's slide from a totalizing Pan-Arab ideology in the pre-2003 period toward the atomistic impulse of the federalist debate in the post-2003 period. Employing extensive fieldwork, this book sheds light on the dynamics of political life in post-Saddam Iraq and is essential reading for Iraqi and Middle East specialists, as well as those interested in understanding the current heightening of sectarian Sunni-Shicite tensions in the Middle East.

Encyclopedia of Transportation Mark Garrett, 2014-08-13
Viewing transportation through the lens of current social, economic, and policy aspects, this four-volume reference work explores the topic of transportation across multiple disciplines within the social sciences and related areas, including geography, public policy, business, and economics. The book's articles, all written by experts in the field, seek to answer such questions as: What has been the legacy, not just economically but politically and socially as well, of President Eisenhower's modern interstate highway system in America? With that system and the infrastructure that supports it now in a state of decline and decay, what's the best path for the future at a time of enormous fiscal constraints? Should California politicians plunge ahead with plans for a high-speed rail that every expert says—despite the allure—will go largely unused and will never pay back the

massive investment while at this very moment potholes go unfilled all across the state? What path is best for emerging countries to keep pace with dramatic economic growth for their part? What are the social and financial costs of gridlock in our cities? Features: Approximately 675 signed articles authored by prominent scholars are arranged in A-to-Z fashion and conclude with Further Readings and cross references. A Chronology helps readers put individual events into historical context; a Reader's Guide organizes entries by broad topical or thematic areas; a detailed index helps users quickly locate entries of most immediate interest; and a Resource Guide provides a list of journals, books, and associations and their websites. While articles were written to avoid jargon as much as possible, a Glossary provides quick definitions of technical terms. To ensure full, well-rounded coverage of the field, the General Editor with expertise in urban planning, public policy, and the environment worked alongside a Consulting Editor with a background in Civil Engineering. The index, Reader's Guide, and cross references combine for thorough search-and-browse capabilities in the electronic edition. Available in both print and electronic formats, Encyclopedia of Transportation is an ideal reference for libraries and those who want to explore the issues that surround transportation in the United States and around the world.

Natural Plant Products in Inflammatory Bowel Diseases

Roberto de Paula do Nascimento, Ana Paula da Fonseca Machado, Alba Rodriguez-Nogales, Raquel Franco Leal, Carlos Augusto Real Martinez, Julio Galvez, Mario Roberto Maróstica Junior, 2023-03-17 *Natural Plant Products in Inflammatory Bowel Diseases: Preventive and Therapeutic Potential* organizes all evidence to understand which natural products are the first steps

of investigation and which have strong evidence of their effects in inflammatory bowel diseases, have been tested in clinical trials, and have received approval to be officially used. In addition to providing information regarding the research with natural products in inflammatory bowel diseases, this reference will also highlight the molecular mechanisms behind the effects of natural products in inflammatory bowel diseases with the aid of figures, video animations and dynamic tables. Compiled from research group members from different parts of the world and specialized in inflammatory bowel diseases and related topics, this important reference will be useful to health professionals, researchers, professors, and industry managers as it provides helpful information on the subject, with the potential to inspire health care, relevant research and product innovation. Provides updated information on the pathogenesis of inflammatory bowel diseases and their pharmacological treatments and adverse effects
Delivers the most up-to-date information regarding the molecular mechanisms of natural products in inflammatory bowel diseases
Organizes the separation of natural products based on their characteristics, including lists of the main results of natural products in experiments conducted in vitro with animals, and in humans with IBDs

Holographic Data Storage Kevin Curtis, Lisa Dhar, Adrian Hill, William Wilson, Mark Ayres, 2011-09-07 *Holographic Data Storage: From Theory to Practical Systems* is a primer on the design and building of a holographic data storage system covering the physics, Servo, Data Channel, Recording Materials, and optics behind holographic storage, the requirements of a functioning system, and its integration into real-life systems. Later chapters highlight recent developments in holographic storage which have enabled readiness for commercial implementation and discuss the general outlook for the technology, including the transition from professional to consumer markets and the possibilities for mass reproduction.

While Men Slept... Karen Frazier Romero, 2014-03-05 While Men Slept IS A WAKE-UP CALL TO THE CITIZENS OF AMERICA EXPOSING THE ENEMY WITHIN OUR MIDST... THEY HAVE PROMISED TO SILENTLY INFILTRATE OUR COUNTRY USING IMMIGRATION IN ORDER TO MULTIPLY THEIR VOTES, SECURE ALL POLITICAL POSITIONS, CREATE A CENTRAL BANK, PUT AN END TO OUR EDUCATION SYSTEM AND TO DESTROY OUR FREEDOM OF LIBERTY. THE ENEMY STATED, LET NO ONE AWAKE THOSE SLEEPING LIONS LET US PRAY GOD THAT THEY CONTINUE TO SLEEP A FEW YEARS LONGER... WAKING ONLY TO FIND THEIR VOTES OUTNUMBERED AS WE WILL TURN THEM FOREVER, OUT OF EVERY POSITION OF HONOR, POWER AND PROFIT... WE WILL NOT ONLY ELECT THE PRESIDENT, BUT FILL AND COMMAND THE ARMIES, MAN THE NAVIES AND HOLD THE KEYS OF THE PUBLIC TREASURY... THAT WE MAY PUT AN END TO THEIR GODLESS SYSTEM OF EDUCATION AND IMPIOUS LAWS OF LIBERTY OF CONSCIENCE. WHO IS THIS FIERCE ENEMY THREATENING TO DESTROY THE UNITED STATES OF AMERICA?

Environmental Law and Contrasting Ideas of Nature Keith H. Hirokawa, 2014-07-17 Law's ideas of nature appear in different doctrinal and institutional settings, historical periods, and political dialogues. Nature underlies every behavior, contract, or form of wealth, and in this broad sense influences every instance of market transaction or governmental intervention. Recognizing that law has embedded discrete constructions of nature helps in understanding how humans value their relationship with nature. This book offers a scholarly examination of the manner in which nature is constructed through law, both in the 'hard' sense of directly regulating human activities that impact nature, and in the 'soft' manner in which law's ideas of nature influence and are influenced by behaviors, values, and priorities. Traditional accounts of the intersection between law and nature generally

focus on environmental laws that protect wilderness. This book will build on the constructivist observation that when considered as a culturally contingent concept, 'nature' is a self-perpetuating and self-reinforcing social creation.

SB 375 California. Legislature. Senate. Committee on Transportation and Housing,2014

Evolutionary Actuality Reuben B. Collins,II,2013-01-16

Evolutionary Actuality is a theory based on the concept of change and its inevitability. Change is a progressive organic force that influences the progressive development of our human existence. This original work also proposes the creation an ideal governing model which is described as being the Equity Based Society. The Equity Based Society is an embodiment of the Evolutionary Actuality concept. The book also explores a phenomenon that is referred to as Disjunctive Diversionary Interest. Its impact has the effect of making our society or any society for that matter less democratic. The book makes the case for the Equity Based Society through the usage of statistical analysis and theory.

Managing Innovation John Ettlie,2007-06-07 Managing Innovation: New Technology, New Products, and New Services in a Global Economy, 2nd Edition is devoted to providing a better understanding and better management of all of the causes and consequences of change that have technological implications in and around our global organizations. This text is a unique, original contribution and represents a significant alternative to the collection of chapters written by others. The second edition has new cases with a few classics from the first edition that have been retained in response to reader feedback. The key subjects that are included have been significantly updated and treated in greater depth. The number of chapters has been reduced from 12 to 10 so it is easy to adapt to almost any course or training on the subject in any discipline or to any audience. This exceptionally informative book provides a broad perspective on how technological change can be effectively managed in modern

organizations. The text explains the conceptual frameworks supported by new and original case studies for start-up companies like Askmen.com, the complex challenges of managing international technology-based companies like NexPress (a joint venture of Kodak and Heidelberg) in the digital printing industry, and corporate sustainability using innovative new product technologies illustrated by the case of Evinrude's launch of the E-tec® outboard motor. John E. Ettlie's three decades in the field of innovation as an instructor and researcher bring an exceptional perspective to this subject. His text is unique in its discussion of how technology has transformed the service sector. Few books on technology make the distinction between new offerings in manufacturing and the service sector which is emphasized in this text.

Civic and Uncivic Values Ola Listhaug, Sabrina P.

Ramet, Dragana Dulić, 2011-01-10 Discusses Serbia's struggle for democratic values after the fall of the Milošević regime provoked by the NATO war, and after the trauma caused by the secession of Kosovo. Are the value systems of the post-Milošević era true stumbling blocks of a delayed transition of this country?

Seventeen contributors from Norway, Serbia, Italy, Germany, Poland and some other European countries covered a broad range of topics in order to provide answers to this question. The subjects of their investigations were national myths and symbols, history textbooks, media, film, religion, inter-ethnic dialogue, transitional justice, political party agendas and other related themes. The authors of the essays represent different scholarly disciplines whose theoretical conceptions and frameworks are employed in order to analyze two alternative value systems in Serbia: liberal, cosmopolitan and civic on the one hand, and

traditional, provincial, nationalist on the other.

A City on Mars Kelly Weinersmith, Zach

Weinersmith, 2023-11-07 * THE INSTANT NEW YORK TIMES BESTSELLER * Scientific American's #1 Book for 2023 * A New York Times Book Review Editors' Choice * A Times Best Science and Environment Book of 2023 * A Tor.com Best Book of 2023 * "Exceptional. . . Forceful, engaging and funny . . . This book will make you happy to live on this planet — a good thing, because you're not leaving anytime soon." —New York Times Book Review From the bestselling authors of *Soonish*, a brilliant and hilarious off-world investigation into space settlement Earth is not well. The promise of starting life anew somewhere far, far away—no climate change, no war, no Twitter—beckons, and settling the stars finally seems within our grasp. Or is it? Critically acclaimed, bestselling authors Kelly and Zach Weinersmith set out to write the essential guide to a glorious future of space settlements, but after years of research, they aren't so sure it's a good idea. Space technologies and space business are progressing fast, but we lack the knowledge needed to have space kids, build space farms, and create space nations in a way that doesn't spark conflict back home. In a world hurtling toward human expansion into space, *A City on Mars* investigates whether the dream of new worlds won't create nightmares, both for settlers and the people they leave behind. In the process, the Weinersmiths answer every question about space you've ever wondered about, and many you've never considered: Can you make babies in space? Should corporations govern space settlements? What about space war? Are we headed for a housing crisis on the Moon's Peaks of Eternal Light—and what happens if you're left in the Craters of Eternal Darkness? Why do astronauts love taco sauce? Speaking of meals, what's the legal status of space cannibalism? With deep expertise, a winning sense of humor, and art from the beloved creator of *Saturday*

Morning Breakfast Cereal, the Weinersmiths investigate perhaps the biggest questions humanity will ever ask itself—whether and how to become multiplanetary. Get in, we’re going to Mars.
