I Sing the Body Politic Peter Swirski, 2009-09-01 A critical investigation of the dead ends, dead metaphors, dead bodies, and other historical constants of American politics.

American Utopia and Social Engineering in Literature, Social Thought, and Political History Peter Swirski, 2011-05-09 The United States today is afflicted with political alienation, militarized violence, institutionalized poverty, and social agony. Worst of all, perhaps, it is afflicted with chronic and acute ahistoricism. America insist on ignoring the context of its present dilemmas. It insists on forgetting what preceded the headlines of today and on denying continuity with history. It insists, in short, on its exceptionalism. American Utopia and Social Engineering sets out to correct this amnesia. It misses no opportunity to flesh out both the historical premises and the political promises behind the social policies and political events of the period. These interdisciplinary concerns provide, in turn, the framework for the analyses of works of American literature that mirror their times and mores. Novels considered include: B.F. Skinner and *Walden Two* (1948), easily the most scandalous utopia of the century, if not of all times; Ken Kesey's *One Flew Over the Cuckoo's Nest* (1962), an anatomy of political disfranchisement American-style; Bernard Malamud's *God's Grace* (1982), a neo-Darwinian beast fable about morality in the thermonuclear age; Walker Percy's *The Thanatos Syndrome* (1986), a diagnostic novel about

engineering violence out of America's streets and minds; and Philip Roth's *The Plot Against America* (2004), an alternative history of homegrown 'soft' fascism. With the help of the five novels and the social models outlined therein, Peter Swirski interrogates key aspects of sociobiology and behavioural psychology, voting and referenda procedures, morality and altruism, multilevel selection and proverbial wisdom, violence and chip-implant technology, and the adaptive role of emotions in our private and public lives.

American Political Fictions Peter Swirski, 2015-06-03 Through a discussion of diverse art and media such as apocalyptic thrillers, rap, and television, Swirski debunks the American political system, sieving out fact from a sea of bipartisan untruths. Engaging with close analysis and multiple case studies, this book forges a more accurate picture of contemporary American culture and of America itself.

Reframing the Buffer State in Contemporary International Relations Bibek Chand, 2023-05-17 This book explores buffer states' agency beyond being highly interactive spaces for the competing strategic and security interests of larger powers. Analyzing 21 political events, the author offers a new conceptual framework for the buffer state, which emphasizes strategic utility and agency. Applying this to the case study of Nepal as a buffer state between India and China, he offers a systematic analysis of Sino-Indian interests in the wider region, and Nepal's interactions with and reactions to

them, and argues that the buffer state in contemporary international relations is characterized by intense competitive overtures from its contending neighboring states. However, the buffer state is not just a spectator but an active participant that consistently assesses and reassesses its geopolitical position in between much larger competing powers. This reading offers a new understanding of the buffer state as a highly dynamic political space wherein the levels of influence and strategies of bigger powers can be examined. Aimed at a multidisciplinary audience, this book will be of particular interest to scholars, practitioners and students of international relations, security studies, strategic studies, and Asian Studies.

Parcerias para o Desenvolvimento Produtivo de Medicamentos Guillermo Glassman ,2020-11-05 Como garantir o acesso universal a medicamentos num país com a população e as dimensões do Brasil? Como conferir segurança à cadeia produtiva de medicamentos nacional? Como fomentar o desenvolvimento tecnológico da indústria farmacêutica brasileira? Para enfrentar essas questões, o Ministério da Saúde desenvolveu um modelo de parceria entre laboratórios oficiais e a indústria privada, buscando incorporar tecnologia estratégica ao parque produtivo nacional. Esse modelo, batizado de Parceria para o Desenvolvimento Produtivo ("PDP"), vem sendo utilizado para a

incorporação aos laboratórios públicos nacionais de tecnologias para a fabricação de diversos medicamentos estratégicos. Entretanto, do ponto de vista jurídico, essas parcerias representam um importante desafio interpretativo por envolver diferentes áreas do direito e pela ausência de legislação específica. Neste contexto, o livro *Parcerias para o Desenvolvimento Produtivo de Medicamentos*, primeiro trabalho de fôlego no campo jurídico a se debruçar especificamente sobre o assunto, representa uma contribuição fundamental para compreensão do funcionamento das PDP e é leitura indispensável para os profissionais que trabalham com a matéria.

India's Great Power Politics Jo Inge Bekkevold, S. Kalyanaraman, 2020-12-22
This book examines India's foreign and defence policy changes in response to China's growing economic and military power and increased footprint across the Indo-Pacific. It further explores India's role in the rivalry between China and the United States. The book looks at the strategic importance of the Indian Ocean Region in the Indo-Pacific geopolitical landscape and how India is managing China's rise by combining economic cooperation with a wide set of balancing strategies. The authors in this book critically analyse the various tools of Indian foreign policy, including defence posture, security alignments, and soft power diplomacy, among others, and discuss the future trajectory of India's foreign policy and the factors which will determine the balance of power in the region and the potential risks involved. The book

provides detailed insights into the multifaceted and complex relationship between India and China and will be of great interest to researchers and students of international relations, Asian studies, political science, and economics. It will also be useful for policymakers, journalists, and think tanks interested in the India–China relationship.

The Belt and Road Initiative and the Politics of Connectivity Bhumitra Chakma, Xiudian Dai, 2022-09-03 This volume analyses New Delhi's reaction to China's Belt and Road Initiative (BRI) and the rise of politics of connectivity and infrastructure building which has heightened Sino-Indian rivalry in South Asia and the Indian Ocean Region (IOR). It can be evidenced that the BRI has transformed the Sino-Indian dynamics from a 'managed rivalry' to an intense geo-political competition. It is contended that competition is inevitable when two powers rise in the same neighbourhood. The Indian government has opposed the BRI since its inception noting that the 'BRI violates India's sovereignty and territorial integrity' because one of the flagship BRI projects - the China-Pakistan Economic Corridor (CPEC) - runs through (Pakistan-controlled) Kashmir which India claims to be its own territory. It has consistently maintained that China's 'connectivity initiatives must be based on universally recognized international norms, good governance, rule of law, openness, transparency and equality, and must be pursued in a manner that respects sovereignty and territorial integrity' of other states. Beyond those stated reservations, New Delhi is concerned about

the BRI infrastructure and connectivity projects in the smaller South Asian countries and the Indian Ocean littoral states. India has traditionally viewed South Asia and the IOR as its backyard over which it has historically maintained a position of influence. It is apprehensive that the BRI projects will enhance Beijing's stature and undermine India's influence in the region. In eleven chapters including Introduction and Conclusion, this book explores the dimensions of the rivalry and analyses the causes, dynamics and implications of an accelerated Sino-Indian competition.

Canadian History for Dummies Will Ferguson, 2000-09-21 A wild ride through Canadian history, fully revised and updated! This new edition of Canadian History For Dummies takes readers on a thrilling ride through Canadian history, from indigenous native cultures and early French and British settlements through Paul Martin's shaky minority government. This timely update features all the latest, up-to-the-minute findings in historical and archeological research. In his trademark irreverent style, Will Ferguson celebrates Canada's double-gold in hockey at the 2002 Olympics, investigates Jean Chrétien's decision not to participate in the war in Iraq, and dissects the recent sponsorship scandal.

India and China Rajiv Narayanan, Prof Qiu Yonghui, 2020-06-18 By the early 21st century with the rise of China economies of East Asia and India, the prognosis of a strong Asia showed promise. The Indo - Pacific Region (essentially Western Pacific and the Indian Ocean) deservedly came to be

recognised as the new 'Centre of Gravity' in the evolving world economic order. Asian states have exhibited leadership in a range of significant areas, such as economics, diplomacy, military power, science & technology, innovation, and soft power thus adding traction to the notion of 'Asia Century' of shared prosperity and common destiny. Under this overarching geo-strategic environment, it is imperative that the two most populous and growing economic powers, India and China, move towards achieving consensus, co-operation and strategic trust rather than compete and contest. However, since the tumultuous border war of 1962, there exists a deep distrust of each other's motives across the Himalayan barriers. To achieve this India and China ought to share their perspectives on the key drivers of divergences and work towards mitigating the same to build strategic trust. This book seeks to assess the causes of strategic mistrust in Sino – India relations and recommend measures for building trust and improving bilateral relations. Towards that end, the ten divergences have been taken as individual chapters, with both Indian and Chinese scholars providing respective perspectives.

Routledge Handbook of China–India Relations Kanti Bajpai,Selina Ho,Manjari Chatterjee Miller,2020-02-25 The Routledge Handbook of China–India Relations provides a much-needed understanding of the important and complex relationship between India and China. Reflecting the consequential and

multifaceted nature of the bilateral relationship, it brings together thirty-five original contributions by a wide range of experts in the field. The chapters show that China–India relations are more far-reaching and complicated than ever and marked by both conflict and cooperation. Following a thorough introduction by the Editors, the handbook is divided into seven parts which combine thematic and chronological principles: Historical overviews Culture and strategic culture: constructing the other Core bilateral conflicts Military relations Economy and development Relations with third parties China, India, and global order This handbook will be an essential reference work for scholars interested in International Relations, Asian Politics, Global Politics, and China–India relations.

India's Approach to Border Management Pushpita Das,2022-12-29 This book attempts to provide a comprehensive understanding of the circumstances which have shaped India's approach towards its international borders and the framework it has developed to better manage its borders. The book argues that persistence of various cross-border threats and challenges and an absence of robust intra-regional trade among its neighbouring countries forced India to employ a security-centric and unilateral approach to border management with emphasis on hardening the borders to cross-border trade and travel and keeping the border areas underdeveloped to act as a buffer against external conventional threats. Besides discussing the threats and challenges that

India faces along the borders, the book aims to develop an understanding of India's border management practices by analysing various programmes and initiatives such as the raising of border guarding forces; building of physical and electronic fences; the establishment of modern facilities for smoothening legitimate cross-border travel; the development of the border areas through special programmes; and increasing trade and connectivity as well as other cooperative bilateral mechanisms. Print edition not for sale in South Asia (India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan).

Asia and Postwar Japan Simon Avenell, 2023-12-04 War, defeat, and the collapse of empire in 1945 touched every aspect of postwar Japanese society, profoundly shaping how the Japanese would reconstruct national identity and reengage with the peoples of Asia. While "America" offered a vision of re-genesis after cataclysmic ruin, "Asia" exposed the traumata of perpetration and the torment of ethnic responsibility. Obscured in the shadows of a resurgent postwar Japan lurked a postimperial specter whose haunting presence both complicated and confounded the spiritual rehabilitation of the nation. *Asia and Postwar Japan* examines Japanese deimperialization from 1945 until the early twenty-first century. It focuses on the thought and activism of progressive activists and intellectuals as they struggled to overcome rigid preconceptions about "Asia," as they grappled with the implications of postimperial responsibility, and as they forged new regional solidarities and Asian imaginaries. Simon Avenell reveals the critical importance of Asia in

postwar Japanese thought, activism, and politics—Asia as a symbolic geography, Asia as a space for grassroots engagement, and ultimately, Asia as an aporia of identity and the source of a new politics of hope.

The Cold War [2 volumes] [2 volumes] Priscilla Roberts, 2018-12-07 This detailed two-volume set tells the story of the Cold War, the dominant international event of the second half of the 20th century, through a diverse selection of primary source documents. One of the most extensive to date, this set of primary source documents studies the Cold War comprehensively from its beginning, with the emergence of the world's first communist government in Russia in late 1917, to its end, in 1991. All of the key events, including the Berlin Blockade, the Korean War, the Cuban Missile Crisis, the Vietnam War, and the nuclear arms race, are discussed in detail. The primary sources provide insight into the thinking of all participants, drawing on Western, Soviet, Asian, and Latin American perspectives. In *The Cold War: Interpreting Conflict through Primary Documents* primary documents are organized chronologically, allowing readers to appreciate the ramifications of the Cold War within a clear time frame. Extensive interpretive commentary provides in-depth background and context for each document. This work is an indispensable reference for all readers seeking to become deeply knowledgeable about the Cold War.

The Seven Storey Mountain Thomas Merton, 2014-12 This title tells the story of Thomas Merton's search for faith and peace in a world which first

fascinated and then appalled him. It is written with the profound insight of a man who has seen himself clearly.

China's India War Bertil Lintner, 2018-01-25 The Sino-Indian War of 1962 delivered a crushing defeat to India: not only did the country suffer a loss of lives and a heavy blow to its pride, the world began to see India as the provocateur of the war, with China 'merely defending' its territory. This perception that China was largely the innocent victim of Nehru's hostile policies was put forth by journalist Neville Maxwell in his book India's China War, which found readers in many opinion makers, including Henry Kissinger and Richard Nixon. For far too long, Maxwell's narrative, which sees India as the aggressor and China as the victim, has held court. Nearly 50 years after Maxwell's book, Bertil Lintner's China's India War puts the 'border dispute' into its rightful perspective. Lintner argues that China began planning the war as early as 1959 and proposes that it was merely a small move in the larger strategic game that China was playing to become a world player—one that it continues to play even today.
