The Fiscal Institutions of Tomorrow Mario Sanginés,Joan Oriol Prats Cabrera,Carlos Pimenta,Gustavo García Osío,Juan Pablo Martínez Guzman,Mario Marcel,Pedro Farias,Gustavo Crespi,Martin D. Chrisney,Ana Corbacho,2013-10-07 The Fiscal Institutions of Tomorrow, the first publication in the series Institutions for People, addresses issues of public management that are key to economic development in Latin America and the Caribbean. It presents the challenges that the countries in the region face to strengthen fiscal institutions with a view to the future and with policy recommendations. This publication serves as reference material for policymakers and economic analysts interested in studying the evolution of fiscal institutions in the region and identifying areas to improve governance.

Children's Contact with Incarcerated Parents Julie Poehlmann-Tynan,2015-05-11 □This Brief explores the potential effects of parent-child contact during incarceration on child and adult relationships, well-being, and parenting as well as corrections-related issues, such as institutional behavior and recidivism. It presents a literature review on what is currently known about parent-child contact during parental incarceration in addition to several empirical studies, followed by a summary, commentary, and briefing report. The empirical studies focus on contact in both jail and prison settings. Because jails in the United States handle more admissions per year than prisons – and studies of jailed parents and their children are not common in the literature – two of the three studies presented focus on jails. Following the empirical studies, a summary that includes recommendations for policy and intervention is presented, along with a commentary that explores what researchers need to do to make effective policy recommendations. This Brief is an essential resource for policy makers and related professionals, graduate students, and researchers in child and school psychology, family studies, public health, social work, law/criminal justice, and sociology.□

Crisis and Response Federal Deposit Insurance Corporation,2018-03-06 Crisis and Response: An FDIC History, 2008¿2013 reviews the experience of the FDIC during a period in which the agency was confronted with two interconnected and overlapping crises¿first, the financial crisis in 2008 and 2009, and second, a banking crisis that began in 2008 and continued until 2013. The history examines the FDIC¿s response, contributes to an understanding of what occurred, and shares lessons from the agency¿s experience.

Emerging Market Economies and Financial Globalization Leonardo E. Stanley,2018-03-15 In the past, foreign shocks arrived to national economies mainly through trade channels, and transmissions of such shocks took time to come into effect. However, after capital globalization, shocks spread to markets almost immediately. Despite the increasing macroeconomic dangers that the situation generated at emerging markets in the South, nobody at the North was ready to acknowledge the pro-cyclicality of the financial system and the inner weakness of “decontrolled” financial innovations because they were enjoying from the “great moderation.” Monetary policy was primarily centered on price stability objectives, without considering the mounting credit and asset price booms

being generated by market liquidity and the problems generated by this glut. Mainstream economists, in turn, were not majorly attracted in integrating financial factors in their models. External pressures on emerging market economies (EMEs) were not eliminated after 2008, but even increased as international capital flows augmented in relevance thereafter. Initially economic authorities accurately responded to the challenge, but unconventional monetary policies in the US began to create important spillovers in EMEs. Furthermore, in contrast to a previous surge in liquidity, funds were now transmitted to EMEs throughout the bond market. The perspective of an increase in US interest rates by the FED is generating a reversal of expectations and a sudden flight to quality. Emerging countries' currencies began to experience higher volatility levels, and depreciation movements against a newly strong US dollar are also increasingly observed. Consequently, there are increasing doubts that the "unexpected" favorable outcome observed in most EMEs at the aftermath of the Global Financial Crisis (GFC) would remain.

New Concepts on Abdominoplasty and Further Applications Juarez M. Avelar,2016-09-24 This book documents the important advances that have been achieved in abdominoplasty over the past 15 years, in particular through the introduction of a nontraumatic approach associated with minimal morbidity owing to the avoidance of resection of abdominal panniculus and damage to the perforating vessels. The surgical principles of this procedure, including in combination with liposuction, are fully described by its developer, Juarez Avelar, with the aid of a wealth of color illustrations. A miniabdominoplasty option is also discussed and recent significant technical contributions such as various new plication techniques and means of minimizing complications are clearly presented. In addition, a series of chapters explain how the surgical principles underlying the described nontraumatic method of abdominoplasty can now be applied to other areas of the body, for example to improve rhytidoplasty, ear reconstruction, body contouring, and medial thigh lifting. This book enables the plastic surgeon to apply the latest abdominoplasty techniques effectively and safely.

Cosmic Society Peter Dickens,James S. Ormrod,2007-11-08 Space weaponry, satellite surveillance and communications, and private space travel are all means in which outer space is being humanized: incorporated into society's projects. But what are the political implications of society not only being globalized, but becoming 'cosmic'? Our ideas about society have long affected, and been affected by, our understanding of the universe: large sections of our economy and society are now organized around humanity's use of outer space. Our view of the universe, our increasingly 'cosmic' society, and even human consciousness are being transformed by new relations with the cosmos. As the first sociological book to tackle humanity's relationship with the universe, this fascinating volume links social theory to classical and contemporary science, and proposes a new 'cosmic' social theory. Written in a punchy, student-friendly style, this timely book engages with a range of topical issues, including cyberspace, terrorism, tourism, surveillance and globalization.

Government Support to Agricultural Insurance Olivier Mahul,Charles J. Stutley,2010-03-08 Governments in developing countries have been increasingly involved in the support of agricultural (crop and livestock) insurance programs in recent years. In their attempts to design and implement agricultural insurance, they have sought technical and financial assistance from the international community and particularly from the World Bank. One of the recurrent requests from governments regards international experience with agricultural insurance, not only in developed countries, where in some cases agricultural insurance has been offered for more than a century, but also in middleand low-income countries. Governments are particularly interested in the technical, operational, financial, and institutional aspects of public support to agricultural insurance. 'Government Support to Agricultural Insurance' informs public and private decision makers involved in agricultural insurance about recent developments, with a particular focus on middle- and low-income countries. It presents an updated picture of the spectrum of institutional frameworks and experiences with agricultural insurance, ranging from countries in which the public sector provides no support to those in which governments heavily subsidize agricultural insurance. This analysis is based on a survey conducted by the World Bank s agricultural insurance team in 2008 in 65 developed and developing countries. Drawing on the survey results, the book identifies some key roles governments can play to support the development of sustainable, affordable, and cost-effective agricultural insurance programs.

Resurging Asian Giants Klaus Gerhaeusser,Yoshihiro Iwasaki,V. B. Tulasidhar,2010-07-01 The economies of the People's Republic of China and India have seen dramatic growth in recent years. As their respective successes continue to reshape the world's economic landscape, noted Chinese and Indian scholars have studied the two countries' development paths, in particular their rich and diverse experiences in such areas as education, information technology, local entrepreneurship, capital markets, macroeconomic management, foreign direct investment, and state-owned enterprise reforms. Drawing on these studies, ADB has produced a timely collection of lessons learned that serves as a valuable refresher on the challenges and opportunities ahead for developing economies, especially those in Asia and the Pacific.

Lasers K. Thyagarajan,Ajoy Ghatak,2010-09-27 Ever since their invention in 1960, lasers have assumed tremendous importance in the fields of science, engineering and technology because of their use both in basic research and in various technological applications. Lasers: Theory and Applications 2nd Edition will provide a coherent presentation of the basic physics behind the working of the laser along with some of their most important applications. Numerical examples are scattered throughout the book for helping the student gain a better appreciation of the concepts and problems at the end of each chapter and provides the student a better understanding of the basics and help in applying the concepts to practical situations. This book serves as a text in a course on lasers and their applications for students majoring in various disciplines such as Physics, Chemistry and Electrical Engineering.

These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
