## Guide to Application Whitelisting National Institute National

Institute of Standards and Technology, 2015-10-30 NIST SP

800-167 An application whitelist is a list of applications and

application components that are authorized for use in an

organization. Application whitelisting technologies use whitelists to control which applications are permitted to execute on a host. This

helps to stop the execution of malware, unlicensed software, and other unauthorized software. This publication is intended to assist

organizations in understanding the basics of application

whitelisting. It also explains planning and implementation for

whitelisting technologies throughout the security deployment

lifecycle. Why buy a book you can download for free? We print this

book so you don't have to. First you gotta find a good clean

(legible) copy and make sure it's the latest version (not always

easy). Some documents found on the web are missing some pages

or the image quality is so poor, they are difficult to read. We look

over each document carefully and replace poor quality images by

going back to the original source document. We proof each

document to make sure it's all there - including all changes. If you

find a good copy, you could print it using a network printer you

share with 100 other people (typically it's either out of paper or

toner). If it's just a 10-page document, no problem, but if it's 250-

pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material. We publish compact, tightly-bound, full-size books (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Books is a Service Disabled Veteran-Owned Small Business (SDVOSB). If you like the service we provide, please leave positive review on Amazon.com. Without positive feedback from the community, we may discontinue the service and y'all can go back to printing these books manually yourselves.
