National Forest Monitoring Systems Food and Agriculture Organization of the United Nations,Food and Agriculture Organization,2014-03-06 This document builds on the brief paper presented at the 7th Meeting of the UN-REDD Programme Policy Board, held in Berlin, October 2011 (UNREDD/PB7/2011/13), which lays out ways to consider the REDD+ monitoring and information provision needs in the broader context of national development and environmental strategies, at the implementation level. The purpose of this document is to describe the elements in National Forest Monitoring Systems (NFMSS) as they relate to REDD+ under the United Nations Framework Convention on Climate Change (UNFCCC) and to describe the UN-REDD Programme approach to Monitoring and Measurement, Reporting and Verification (M & MRV) requirements.--Page v.

From Airline Reservations to Sonic the Hedgehog Martin Campbell-Kelly,2004-02-27 A business history of the software industry from the days of custom programming to the age of mass-market software and video games. From its first glimmerings in the 1950s, the software industry has evolved to become the fourth largest industrial sector of the US economy. Starting with a handful of software contractors who produced specialized programs for the few existing machines, the industry grew to include producers of corporate software packages and then makers of mass-market products and recreational software. This book tells the story of each of these types of firm, focusing on the products they developed, the business models they followed, and the markets they served. By describing the breadth of this industry, Martin Campbell-Kelly corrects the popular misconception that one firm is at the center of the software universe. He also tells the story of lucrative software products such as IBM's CICS and SAP's R/3, which, though little known to the general public, lie at the heart of today's information infrastructure. With its wealth of industry data and its thoughtful judgments, this book will become a starting point for all future investigations of this fundamental component of computer history.

Nationalism and Identity Stefano Harney,1996 The nation-state of Trinidad and Tobago offers a unique case for the study of the forces and ideologies of nationalism. This book reveals how this ethnically diverse nation (40% African origin, 40-45% East Indian origin, plus those of Syrian, Chinese, Portuguese, French and English descent),

independent for less than forty years, has provided fertile ground for the creative tension between the imagination of the writer in his or her search for a habitable text of identity and the official discourse on nationalism in Trinidad and Tobago. This discourse has in turn been embedded in a struggle that propels the nation's story. Following on from this background, the study examines the changes and influences on the sense of nationalism and peoplehood caused by migration and the ethnicization of migrant communities in the metropolises.

The Ha-Ha Dave King, 2005-01-01 Howard Kapostash has not spoken in thirty years. The small repertory of gestures and simple sounds that he uses to communicate lead most people to assume he is disturbed. No one understands that Howard is still the same man he was before his tragic injury. But when he agrees to help an old girlfriend by opening his home to her nine-year-old son, the presence of this nervous, resourceful boy in his life transforms Howard utterly. Environmental Code Unabhängige Sachverständigenkommission zum Umweltgesetzbuch, 1998 This draft Environmental Code is intended to bring together, unify, harmonise, develop and update German environmental law. The codification project takes up a transnational legal trend that has already led to the passing of similar legislation in a number of countries such as the Netherlands, Switzerland and the United Kingdom or the preparation of corresponding drafts, as in France, Sweden, Poland and Hungary. The European Union is also looking into the codification of environmental law. The Commission's draft applies the principle of sustainable environmentally sound development and establishes an integrated cross-media approach in all areas of environmental legislation. One of its principal features is the unified project authorisation model (Vorhabengenehmigung) for environmental legislation, which the Federal Government intends to use as a basis for the planned implementation of the IPPC Directive in a first volume of an Environmental Code. Other aims pursued by the Commission were to strengthen the responsibility of enterprises and of society, develop incentive instruments and expand transboundary environmental protection. The draft was prepared between autumn 1992 and summer 1997. The Commission consisted of eight experts with practical experience in the field of environmental law as judges, university teaching staff, lawyers, administrative officials and an environmental officer in a large industrial company. This volume contains the English translation of the draft. It seeks to make a contribution to international and

European discussions about the harmonisation and codification of environmental law. For this reason the introduction to the English version also contains observations about the German legal system and existing environmental legislation which should make it easier for the reader to understand the proposals.

Abby Finds Her Calling Naomi King, 2012-02-28 Generations of Amish neighbors and friends enjoy the simple things in life in the lush countryside of Cedar Creek, Missouri. But matters of the heart have a way of complicating the most clear-cut plans.... Everyone knows the Lambright family, since they own a greenhouse and a dry goods store in which their eldest daughter, Abby, runs her own sewing shop. There Abby spends just as much time mending townspeople's torn relationships as their clothes. But the local maidel has sworn off any suitors of her own because of her unrequited love for James Graber, the buggy maker across the road—the man her younger sister, Zanna, is about to marry. Then the wedding day arrives and Zanna is nowhere to be found, breaking James' heart. Zanna has brought shame to her family, but there's more in store for them when they discover how far she has fallen. Long-buried secrets come to light, and they test the faith and friendship between the two families, as well as the bonds of the Cedar Creek community. Abby is at the center of it all, trying to maintain everyone's happiness. But will she ever find her own?

Workshop Technology (Manufacturing Process) S. K. Garg, 2009-05-01 This textbook includes exposure to plant & shop layout, industrial safety, engineering materials and their heat treatment, bench work and fitting, smithy and forging, sheet metal work, wood and wood working, foundry, welding, mechanical working and machine shop practices. A greater stress has been laid on pictorial representation of various hand tools, operators and machine tools rather than giving exhaustive write up on various topics. The matter has been presented in a structured manner and in an easy to understand language, which can be mastered easily by students of various disciplines. Attention has also been paid to the fact that the text as well as the diagrams can be easily reproduced by the students in theory examinations. The book will be useful for the students of engineering, supervisors, tool room personnel and operators working in manufacturing and other industries.
