Walking the Way John Dear,2021-07-17 "Our world of war, poverty, corporate greed, racism, sexism, nuclear weapons, and catastrophic climate change demonstrates the total failure of violence," says John Dear. The internationally known peace activist and Nobel Prize nominee has always offered a single answer: Jesus. Now he invites us to follow the nonviolent Jesus through the holy season of Lent, beginning with Jesus' journey to Jerusalem and culminating in his resurrection and the new life of peace he brings to all. Deeply personal and uncompromisingly committed to peace, these prayerful reflections on Jesus' life and death challenge the notion that support of violence at any level is compatible with a life in Christ. Drawing on the insights of Mahatma Gandhi, Martin Luther King, Jr., and others, Dear shows us how we can practice gospel nonviolence, be apostles of peace, and change the world. Perfect for personal reflection or small group discussion, these meditations invite us to "participate in our own inner disarmament and cultivate our true nonviolent nature" as we follow the Good Shepherd, the Lamb of God. A timely, important, and inspiring book for our times.

The Project Management Life Cycle Jason Westland,2007-01-03 The Project Management Life Cycle reveals the unique Method 123 Project Management Methodology by defining the phases, activities and tasks required to complete a project. It's different because it describes the life cycle clearly and prescriptively, without the complex terminology rife throughout the industry. Its comprehensive coverage, consistent depth and suite of tools will help managers to undertake projects successfully. Containing hundreds of practical examples to enhance the reader's understanding of project management, The Project Management Life Cycle skilfully guides them through the four critical phases of the project life cycle: initiation, planning, execution and closure. Written in a clear, professional and straightforward manner, it is relevant to the management of all types of project, including IT, construction, engineering, telecommunications and government, as well as many others. It is an essential guide to improving project management skills for project managers, senior managers, team members, consultants, trainers or students. Online supporting resources include lecture slides.

Rape and Sexual Assault White House Council on Women and Girls,2014-10-31 This book analyzes the most recent, reliable data about rape and sexual assault in our country. It identifies those most at risk of being victims of these crimes, examines the cost of this violence (both to survivors and our communities), and describes the response, too often inadequate, of the criminal justice system. The report catalogues steps this Administration has taken to combat rape and sexual assault, and identifies areas for further action. An overview of the problem: Women and girls are the vast majority of victims: nearly 1 in 5 women - or nearly 22 million - have been raped in their lifetimes. Men and boys, however, are also at risk: 1 in 71 men - or almost 1.6 million - have been raped during their lives. Women of all races are targeted, but some are more vulnerable than others: 33.5% of multiracial women have been raped, as have 27% of American Indian and Alaska Native women, compared to 15% of Hispanic, 22% of Black, and 19% of White women. Most victims know their assailants. The vast majority (nearly 98%) of perpetrators are male. Young people are especially at risk: nearly half of female survivors were raped before they were 18, and over one-quarter of male survivors were raped before they were 10. College students are particularly vulnerable: 1 in 5 women

has been sexually assaulted while in college. Repeat female victimization is common: over a third of women who were raped as minors were also raped as adults. Other populations are also at higher risk of being raped or sexually assaulted, including people with disabilities, the LGBT community, prison inmates (of both genders), and the homeless. Undocumented immigrants face unique challenges, because their abusers often threaten to have them deported if they try to get help.

Cruising Designs Jay R. Benford,1996 First published in 1975, this classic guide is a collection of basic boat plans of a variety of Benford designs, ranging in size from 7 to 131 feet in length and selected from the custom designs created over the past three decades. It is designed as the spark to fire one's ideas about the sort of boat one really wants or to suggest an idea for a new boat. The fourth edition includes a number of designs new since the third edition and is heavily illustrated with photographs and plan drawings.
