Clio's Lives Doug Munro,John G. Reid,2017-10-09 Including contributions from leading scholars in the field from both Australia and North America, this collection explores diverse approaches to writing the lives of historians and ways of assessing the importance of

doing so. Beginning with the writing of autobiographies by historians, the volume then turns to biographical studies, both of historians whose writings were in some sense nation-defining and those who may be regarded as having had a major influence on defining the discipline of history. The final section explores elements of collective biography, linking these to the formation of historical networks. A concluding essay by Barbara Caine offers a critical appraisal of the study of historians' biographies and autobiographies to date, and maps out likely new directions for future work. *Clio's Lives* is a very good scholarly collection that advances the study of autobiography and biography within the writing of history itself, taking theoretical questions in significant new directions. The contributors are well known and highly respected in the history profession and write with an insight and intellectual energy that will ensure the book has considerable impact. They examine cutting-edge issues about the writing of history at the personal level through autobiography and biography in diverse and innovative ways. Together the writers have provided reflective chapters that will be widely read for their impressive theoretical advances as well as being inspirational for new entrants to the disciplinary area. — Patricia Grimshaw, University of Melbourne *Clio's Lives* brings together a most interesting and varied cast of contributors. Its chapters contain sophisticated and well-penned ruminations on the uses of biography and autobiography among historians. These are clearly connected with the general themes of the volume. This delightfully mixed bag makes very good reading and, as well, will serve as a substantial contribution to the study of the biography and autobiography. — Eric Richards, Flinders University
