The Unrecognised Peril S Utham Kumar Jamadhagni,2014-03-01 Acknowledging the importance of non traditional security in the wider debate, this book looks at one significant aspect namely, environmental security. The book discusses different issues of theoretical and practical import through various chapters that deal with the general need for study on human and environmental security, its degradation due to a variety of factors like climate change, war, pollution and resource utilisation. Moving from a regional South Asian focus the book narrows down to specific cases within India and the region at large to highlight the widespread effect anthropogenic factors have had on environmental security. A diverse set of articles from many authors has meant a comprehensive perspective on a vital global and national concern.

West Asia and the Region Rajendra M. Abhyankar,2008 Contributed articles presented at the National Conference on West Asia and the Region: Defining India's Role held at the Centre for West Asian Studies on Aug. 21-22, 2006.

*The Glory of God's Light: Connect with God Through His Light, Love, and Word* Brother Raymond,2020-05-19 Darkness represents anything that is inconsistent with God's nature, character, and manifestation. It appears humanity has lost its connection with God, but finding a relationship with God can bring us into the light of His love. In *The Glory of God's Light*, Brother Raymond shows how to have a relationship with God through His Light, His Love, and His Word. Brother Raymond digs deeper into Scripture and takes examples from his own life to show how God's light is present in every circumstance and points those in darkness into the glory of God's light. Could you relish a great relationship with God, our Heavenly Father? Yes, you can!

*Rooted Again* Lillian C. Smith,2022-11-14 Many established congregations are in need of revitalization. It is as if in all of the good efforts of ministry the mission has been forgotten. The mission of the church is to make disciples of Jesus Christ for the transformation of the world. Disciple making, in many churches, has diminished, which was both caused by and resulted in a loss of understanding of the mission of the church and a low prioritization of reaching new people for Jesus Christ. This book will provide insight into some of the causes of the situation, identify possible spiritual hindrances to ministry, and offer strategies for the congregation to reclaim its spiritual foundation and calling.

*Hiroshige 53 Stations of the Tokaido* Cristina Berna, Eric Thomsen,2023-07-07 This was the most popular print series ever made in Japan. It was even more popular series ever made in Japan. It was even more popular than the Hokusai series *Thirty-six Views of Mount Fuji*, which had been recently published and which had influenced Hiroshige tremendously (ISBN 9783756844104). There were 53 post stations along this important road, apart from the start and terminus, in all 55 prints, which are all here in the order from Edo to Kyoto, as in the Hoeido edition (1833-34).

*Population Health* David B. Nash, JoAnne Reifsnyder, Raymond J. Fabius, Valerie P. Pracilio,2010-08-16 With over 45.7 million uninsured in the United States and health reform a national priority, the need for population health management has never been more eminent. Sixty percent of American deaths are attributable to behavioral factors, social circumstances and environmental exposures. Employment of population health management techniques advocating use of preventative services and quality clinical care are imperative. Financial Crisis J. Hendrickson,2013-02-05 This book offers a critical look at prominent theories of financial crisis to try to understand how prepared the profession is for identifying the next financial crisis. An analysis of the first financial crisis of the twenty-first century serves as a starting point for rethinking the efficacy of existing economic models and theories.

**Labor Movement** Harald Bauder,2006-02-23 Throughout the industrialized world, international migrants serve as nannies, construction

workers, gardeners and small-business entrepreneurs. Labor Movement suggests that the international migration of workers is necessary for the survival of industrialized economies. The book thus turns the conventional view of international migration on its head: it investigates how migration regulates labor markets, rather than labor markets shaping migration flows. Assuming a critical view of orthodox economic theory, the book illustrates how different legal, social and cultural strategies towards international migrants are deployed and coordinated within the wider neo-liberal project to render migrants and immigrants vulnerable, pushing them into performing distinct economic roles and into subordinate labor market situations. Drawing on social theories associated with Pierre Bourdieu and other prominent thinkers, Labor Movement suggests that migration regulates labor markets through processes of social distinction, cultural judgement and the strategic deployment of citizenship. European and North American case studies illustrate how the labor of international migrants is systematically devalued and how popular discourse legitimates the demotion of migrants to subordinate labor. Engaging with various immigrant groups in different cities, including South Asian immigrants in Vancouver, foreigners and Spätaussiedler in Berlin, and Mexican and Caribbean offshore workers in rural Ontario, the studies seek to unravel the complex web of regulatory labor market processes related to international migration. Recognizing and understanding these processes, Bauder argues, is an important step towards building effective activist strategies and for envisioning new roles for migrating workers and people. The book is a valuable resource to researchers and students in economics, ethnic and migration studies, geography, sociology, political science, and to frontline activists in Europe, North America and beyond.

**Keisai Eisen A Tōkaidō Board Game of Courtesans** Cristina Berna,Eric Thomsen, Introduction Keisai Eisen (1790 -1848) is especially known for his bijin-ga, pretty women, and landscapes. He is well known for his participation in the series 69 stations of the Nakasendō together with Hiroshige. The series A Tōkaidō Board Game of Courtesans, Fifty-three Pairings in the Yoshiwara use the Tōkaidō with landscape inserts as an excuse for showing courtesans and geisha, bijin-ga, to skirt the censorship. It was published 1821-1823. His bijin-ga are considered to be masterpieces of the decadent Bunsei Era (1818-1830). Most of them have impressive hairdo with many ornamental hairpins and combs. Their dress is extravagant with beautiful patterns and sublime embroideries. Their faces are elongated squares with long noses and small pouted painted mouths. Courtesans were desirable for their rich and splendid attire, not so much for their beauty and their names were actually like trademarks for a series of girls performing the name role with the brothel in question.

*SEMPER - Secure Electronic Marketplace for Europe* Gerard Lacoste,Birgit Pfitzmann,Michael Steiner,Michael Waidner,2004-05-24 This monograph constitutes a major contribution to the development of secure electronic commerce. The book is based on the European R&D project SEMPER - Secure Electronic Marketplace for Europe which aims at securing electronic commerce as a whole by developing a technical security framework realized as a middleware. The first part of this monograph presents an introduction to electronic commerce in general and provides an overview of the proposed solutions; this part is accessible to everybody seriously interested in the topic and does not require a technical background except some basic familiarity with the Internet. The second part presents fundamentally new scientific and engineering results and sets the scene for future R&D activities in securing electronic commerce.

**The Impact of the European Convention on Human Rights on Russian Law** Anton Burkov,2007-05-02 This book analyzes the practice of

Russia honoring her legal obligations under the European Convention of Human Rights (ECHR): to secure to everyone within its jurisdiction the rights and freedoms defined in the Convention (Article 1 of the ECHR). The study comes to the conclusion that the impact of the ECHR on the Russian legal system, in terms of its implementation by domestic courts, is unsatisfactory. The jurisprudence of the Supreme Court and Supreme Arbitration Court is an attempt to demonstrate to the Council of Europe that the ECHR is being applied, rather than to implement the ECHR. In contrast, the jurisprudence emerging from decisions of the Russian Federation's Constitutional Court and district courts indicates a better understanding of the spirit of the ECHR. Still, the rare instances in which domestic courts implemented the ECHR were, more often than not, prompted by applicants' arguments based on ECHR case-law, rather than by the courts. The book suggests methods of ensuring a more effective implementation of the ECHR's provisions within Russian national law. It develops recommendations on how to assess the Russian government's compliance with judgments of the European Court of Human Rights, and how to interpret explanations submitted by Russia to the Secretary General of the Council of Europe on her implementation of the ECHR.

**Bad History, Worse Policy** Peter J. Wallison, 2013-01-25 This timely study focuses on how the government-constructed narratives surrounding the collapse of Fannie Mae and Freddie Mac and the 2008 financial crisis shaped the policymaking that led to the Dodd-Frank Act.

**Regulation and Instability in U.S. Commercial Banking** Jill M. Hendrickson, 2010-12-08 The historical response to bank crises has always been more regulation. A pattern emerges that some may find surprising: regulation often contributes to bank instability. It suppresses competition and effective response to market changes and encourages bankers to take on additional risk. This book offers a valuable history lesson for policy makers.

*What Caused the Financial Crisis* Jeffrey Friedman, 2011-06-06 The deflation of the subprime mortgage bubble in 2006-7 is widely agreed to have been the immediate cause of the collapse of the financial sector in 2008. Consequently, one might think that uncovering the origins of subprime lending would make the root causes of the crisis obvious. That is essentially where public debate about the causes of the crisis began—and ended—in the month following the bankruptcy of Lehman Brothers and the 502-point fall in the Dow Jones Industrial Average in mid-September 2008. However, the subprime housing bubble is just one piece of the puzzle. Asset bubbles inflate and burst frequently, but severe worldwide recessions are rare. What was different this time? In *What Caused the Financial Crisis* leading economists and scholars delve into the major causes of the worst financial collapse since the Great Depression and, together, present a comprehensive picture of the factors that led to it. One essay examines the role of government regulation in expanding home ownership through mortgage subsidies for impoverished borrowers, encouraging the subprime housing bubble. Another explores how banks were able to securitize mortgages by manipulating criteria used for bond ratings. How this led to inaccurate risk assessments that could not be covered by sufficient capital reserves mandated under the Basel accords is made clear in a third essay. Other essays identify monetary policy in the United States and Europe, corporate pay structures, credit-default swaps, banks' leverage, and financial deregulation as possible causes of the crisis. With contributions from Richard A. Posner, Vernon L. Smith, Joseph E. Stiglitz, and John B. Taylor, among others, *What Caused the Financial Crisis* provides a cogent, comprehensive, and credible explanation of why the crisis happened. It will be an essential resource for scholars and students of finance, economics, history, law, political science, and sociology, as well as others interested in the financial crisis and the nature of modern capitalism and regulation.
